The implementation of IT security projects is a strategic initiative by the Company to identify, assess, and mitigate vulnerabilities and threats to the Company's information assets. The IT Security Division enhanced IT security and Cyber defense in the digital transformation implementation, aligning with bank **bjb**'s corporate plan direction. Various innovations were made to enhance capabilities and update technology to further improve the Company's security.

With various resources owned by the Company, the Board of Directors has effectively managed these resources. The Company produced good performance in 2023 amid an economy that had not fully recovered. The Board of Directors always considers global, national, and banking industry economic conditions in developing business strategies, thus being able to overcome challenges, especially those related to the impact of economic conditions on the Company's business. Therefore, in presenting the Company's performance analysis, allow us to provide an economic review at global, national, and banking industry levels.

Global economic growth weakened, followed by increasingly widening growth divergence among countries. Meanwhile, emerging markets and developing economies (EMDEs) grew above global economic (World) and advanced economies (AE)

global (World) dan negara maju (Advance Economies/AE) dengan pertumbuhan 4,1% sedangkan ekonomi global tahun 2023 tumbuh sebesar 3,1%, lebih rendah dibandingkan dengan tahun 2022 yang sebesar 3,5%.

Meningkatnya ketegangan geopolitik mendorong harga energi dan pangan meningkat sehingga mengakibatkan tetap tingginya inflasi global. Untuk mengendalikan inflasi, suku bunga kebijakan moneter di negara maju, termasuk Federal Funds Rate (FFR), diperkirakan akan tetap bertahan tinggi dalam jangka waktu yang lebih lama (*higher for longer*). Kenaikan suku bunga global diperkirakan akan diikuti pada tenor jangka panjang dengan kenaikan *yield* obligasi Pemerintah negara maju, khususnya Amerika Serikat (US Treasury), akibat peningkatan kebutuhan pembiayaan utang Pemerintah, dan kenaikan premi risiko jangka panjang. Berbagai perkembangan tersebut mendorong pembalikan arus modal dari negara berkembang ke negara maju dan ke aset yang lebih likuid, yang mengakibatkan dolar Amerika Serikat (AS) menguat secara tajam terhadap berbagai mata uang dunia. Ketidakpastian ekonomi dan keuangan global semakin tinggi karena terjadi bersamaan dengan meningkatnya ketegangan geopolitik. Selain itu, terdapat divergensi pemulihan yang semakin lebar pada perekonomian antar kawasan. Faktor risiko secara umum bersumber dari tingkat inflasi yang masih di atas target, pelemahan ekonomi Tiongkok, volatilitas harga komoditas, peningkatan fragmentasi ekonomi global, serta peningkatan kerentanan utang.

Di tengah perlambatan ekonomi global dan penurunan harga komoditas ekspor unggulan, ekonomi Indonesia tumbuh 5,04% pada Triwulan IV-2023, lebih tinggi dibanding periode yang sama tahun 2022. Seluruh komponen pengeluaran tumbuh, kecuali komponen impor yang mengalami kontraksi. Pertumbuhan tertinggi terjadi pada Komponen Pengeluaran Konsumsi Lembaga Non Profit yang melayani Rumah Tangga (PK-LNPRT) sebesar 18,11%, diikuti Komponen Pembentukan Modal Tetap Bruto (PMTB) sebesar 5,02%, Komponen Pengeluaran Konsumsi Rumah Tangga (PK-RT) sebesar 4,47%, Komponen Pengeluaran Konsumsi Pemerintah (PK-P) sebesar 2,81%, serta Komponen Ekspor Barang dan Jasa sebesar 1,64%. Sementara itu, Komponen Impor Barang dan Jasa berkontraksi sebesar 0,15%.

Struktur PDB Indonesia menurut pengeluaran atas dasar harga berlaku tahun 2023 tidak menunjukkan perubahan yang berarti. Perekonomian Indonesia masih didominasi oleh Komponen PK-RT yang mencakup lebih dari separuh PDB Indonesia yaitu sebesar 53,18%, diikuti oleh komponen PMTB sebesar 29,33%, Komponen Ekspor Barang dan Jasa sebesar 21,75%, Komponen PK-P sebesar 7,45%, Komponen PK-LNPRT sebesar 1,25%, dan Komponen Perubahan Inventori sebesar 1,19%. Sementara itu, Komponen Impor Barang dan Jasa memiliki peran sebesar 19,57%.

growth, with a growth of 4.1% while the global economy in 2023 grew by 3.1%, lower than in 2022, which was 3.5%.

The rise in geopolitical tensions pushed up energy and food prices, leading to persistently high global inflation. To control inflation, monetary policy interest rates in advanced economies, including the Federal Funds Rate (FFR), are expected to remain high for a longer period (*higher for longer*). Global interest rate hikes are expected to follow in the long term with an increase in government bond yields in advanced economies, especially the United States (US Treasury), due to increased government debt financing needs and a long-term risk premium increase. These developments drive the reversal of capital flows from developing to advanced countries and to more liquid assets, resulting in a sharp strengthening of the US dollar against various world currencies. Global economic and financial uncertainty has risen amid increased geopolitical tensions. Additionally, there is an increasingly wide divergence in economic recovery among regions. Risk factors generally stem from inflation rates still above target, China's economic slowdown, commodity price volatility, increasing global economic fragmentation, and increased debt vulnerability.

Amidst the global economic slowdown and declining commodity export prices, Indonesia's economy grew by 5.04% in the fourth quarter of 2023, higher than the same period in 2022. All expenditure components grew, except for the import component, which contracted. The highest growth occurred in the Non-Profit Institutions Serving Households (PK-LNPRT) Consumption Expenditure Component at 18.11%, followed by the Gross Fixed Capital Formation (PMTB) Component at 5.02%, Household Consumption Expenditure Component (PK-RT) at 4.47%, Government Consumption Expenditure Component (PK-P) at 2.81%, and the Export of Goods and Services Component at 1.64%. Meanwhile, the Import of Goods and Services Component contracted by 0.15%.

The structure of Indonesia's GDP by expenditure at current prices in 2023 showed no significant change. Indonesia's economy was still dominated by the PK-RT Component which accounts for more than half of Indonesia's GDP, at 53.18%, followed by the PMTB Component at 29.33%, the Export of Goods and Services Component at 21.75%, the Government Consumption Expenditure Component at 7.45%, the PK-LNPRT Component at 1.25%, and the Change in Inventories Component at 1.19%. Meanwhile, the Import of Goods and Services Component played a role of 19.57%.

Dari sisi perbankan, sektor perbankan mampu menunjukkan resiliensi dengan permodalan yang tinggi dan kinerja intermediasi yang tetap positif. Dampak risiko suku bunga acuan yang tinggi secara global dan dapat berlangsung lebih lama (*higher for longer*) bagi perbankan dalam negeri masih terjaga dan terkendali seiring fleksibilitas ruang penyesuaian suku bunga yang masih cukup besar bagi perbankan. Sejumlah indikator utama perbankan seperti pertumbuhan total DPK dan kredit bank umum mencatatkan pertumbuhan yang positif walaupun mengalami perlambatan.

Pertumbuhan Dana Pihak Ketiga (DPK) tercatat sebesar 3,04% (yoy) pada November 2023, sedangkan kredit perbankan tumbuh 9,74% (yoy), lebih tinggi dibandingkan dengan pertumbuhan pada bulan sebelumnya yaitu 8,99% (yoy). Peningkatan kredit/pembiayaan didorong oleh peningkatan permintaan kredit sejalan dengan tetap terajaganya kinerja korporasi dan rumah tangga. Secara sektoral, pertumbuhan kredit terutama ditopang oleh sektor Perdagangan, Industri, dan Jasa Dunia Usaha. Pembiayaan syariah pada November 2023 juga tumbuh sebesar 14,12% (yoy), sementara pertumbuhan kredit UMKM mencapai 8,46% (yoy). Pertumbuhan kredit UMKM tersebut terutama didukung oleh sektor Perdagangan, Pertanian, dan Jasa Sosial. Kualitas kredit Bank Umum tetap terjaga dengan rasio NPL *gross* November 2023 sebesar 2,36%. Selanjutnya kondisi industri perbankan Indonesia tetap solid dan resilien dengan ditopang tingkat permodalan/*Capital Adequacy Ratio* November yang tinggi sebesar 27,86%.

Berdasarkan analisis perekonomian dan industri serta memperhatikan tantangan yang ada, maka bank **bjb** menetapkan target pasar berupa peningkatan DPK dan Kredit. Target DPK dan Penyaluran Kredit di tahun 2023 masing-masing sebesar Rp125,79 triliun dan Rp117,06 triliun. Peningkatan DPK dilakukan antara lain dengan optimalisasi *product holding* dalam rangka meningkatkan pertumbuhan dana pihak ketiga dan bisnis lainnya serta mendorong pertumbuhan bisnis melalui sinergi dan kolaborasi. Sedangkan peningkatan kredit dilakukan dengan pertumbuhan kredit yang sehat dan berkelanjutan serta menjaga pertumbuhan kredit secara selektif dan berkualitas.

Untuk mencapai target pasar tersebut, telah ditetapkan suku bunga dasar kredit tahun 2023 adalah sebagai berikut:

From the banking perspective, the banking sector was able to show resilience with high capitalization and continued positive intermediation performance. The impact of high global benchmark interest rates, which can last longer (*higher for longer*), on domestic banking remains manageable and controlled as the flexibility for interest rate adjustment remains sufficient for banking. Several key banking indicators, such as total growth in Third Party Funds (DPK) and general bank lending, recorded positive growth, albeit slowing down.

The growth of Third Party Funds (DPK) was recorded at 3.04% (yoy) in November 2023, while banking credit grew by 9.74% (yoy), higher than the growth in the previous month, which was 8.99% (yoy). The increase in credit/financing was driven by a rise in credit demand in line with the continued good performance of corporations and households. Sectorally, credit growth was mainly supported by the Trade, Industry, and Business Services sectors. Sharia financing in November 2023 also grew by 14.12% (yoy), while SME credit growth reached 8.46% (yoy). This SME credit growth was mainly supported by the Trade, Agriculture, and Social Services sectors. The quality of General Bank credit remained stable with a gross NPL ratio of November 2023 at 2.36%. Subsequently, the condition of Indonesia's banking industry remains solid and resilient, supported by a high capitalization/*Capital Adequacy Ratio* in November of 27.86%.

Based on economic and industry analysis and considering the existing challenges, bank **bjb** had set market targets of increasing TPFs and Credit. The targets for DPK and Credit Disbursement in 2023 were respectively Rp125.79 trillion and Rp117.06 trillion. The increase in DPK was carried out, among other things, by optimizing product holding to enhance the growth of third-party funds and other businesses, as well as encouraging business growth through synergy and collaboration. Meanwhile, credit increase was carried out by maintaining healthy and sustainable credit growth and managing credit growth selectively and with quality.

To achieve the target market, the basic credit interest rates for the year 2023 had been established as follows:

Strategi dan Kebijakan

Dalam perumusan strategi bank **bjb**, Direksi memimpin langsung melalui berbagai rapat antara Direksi dengan para pejabat eksekutif. Strategi tertuang dalam Arahan Strategis Direksi Tahunan yang diturunkan ke dalam Rencana Bisnis Bank (RBB). Direksi memastikan terlaksananya strategi dan senantiasa melakukan evaluasi untuk memastikan efektivitas penerapan strategi yang telah ditetapkan. Evaluasi pelaksanaan strategi dilakukan melalui rapat-rapat Direksi dengan Peminpin Divisi terkait, Rapat Direksi dengan Komite di bawah Direksi serta mekanisme pelaporan internal secara berkala.

Pada tahun 2023, bank **bjb** akan mengoptimalkan inisiatif digitalisasi *tools* per segmen, akuisisi *funding* ritel dan optimalisasi kredit produktif. bank **bjb** memiliki potensi yang besar untuk menjadikan bisnis komersial dan UMKM sebagai pendorong pertumbuhan kredit produktif. Selain akselerasi pertumbuhan kredit produktif, salah satu target portofolio bank **bjb** adalah peningkatan *funding* ritel melalui peningkatan peran digitalisasi dalam layanan perbankan. Selaras dengan arah kebijakan Perseroan dan dengan mempertimbangkan perkembangan kondisi perekonomian terkini, bank **bjb** berfokus pada penerapan strategi sebagai berikut:

Strategies and Policies

In formulating bank **bjb** strategy, the Board of Directors leads directly through various meetings between the Board of Directors and executive officers. The strategy is outlined in the Annual Directors' Strategic Direction which is included in the Bank Business Plan (RBB). The Board of Directors ensures the implementation of strategies and continuously carries out evaluations to ensure the effectiveness of strategies implementation that have been determined. Evaluation of strategy implementation is carried out through meetings between the Board of Directors and the Heads of related Divisions, Board of Directors meetings with Committees under the Board of Directors as well as regular internal reporting mechanisms.

In 2023, bank **bjb** had optimized the digitalization of tools initiatives per segment, the acquisition of retail funding and the optimization of productive credit. bank **bjb** has great potential to make commercial businesses and MSMEs a driver of productive credit growth. Apart from accelerating productive credit growth, one of bank **bjb's** portfolio targets is increasing retail funding through increasing the role of digitalization in banking services. In line with the Company's policy direction and considering developments in the latest economic conditions, bank **bjb** focuses on implementing the following strategies:

1. Ekspansi kredit secara selektif dengan mengoptimalkan ekosistem bisnis melalui pertumbuhan kredit yang sehat dan berkelanjutan serta menjaga pertumbuhan kredit secara selektif dan berkualitas.
 2. Memperkuat likuiditas untuk mendukung kinerja Perseroan melalui optimalisasi *product holding* dalam rangka meningkatkan pertumbuhan dana pihak ketiga dan bisnis lainnya dan memperkuat likuiditas dengan menciptakan *business ecosystem* melalui pengembangan layanan *digital*. Selain itu, Perseroan akan Mengintegrasikan layanan *e-channel* dengan berbagai layanan perbankan untuk meningkatkan akuisisi nasabah serta mengoptimalkan *funding* jangka panjang melalui instrumen pasar modal dan *bilateral loan* dalam rangka penguatan posisi rasio-rasio keuangan serta pertumbuhan aset bank **bjb**.

Selain itu, pada tahun 2023, bank **bjb** membukukan pendapatan *fee based income* dari layanan *e-channel* sebesar Rp462,11 miliar atau naik 2,00% secara *year on year*.

Pencapaian yang baik juga terlihat dari sisi keuangan. Total pendapatan bunga dan syariah tahun 2023 mencapai Rp14,25 triliun, meningkat 4,56% dari tahun 2022 mencapai Rp13,6 triliun. Peningkatan pendapatan bunga dan syariah berjalan mendorong peningkatan total aset dan total ekuitas. Aset tahun 2023 mencapai Rp188,30 triliun meningkat 3,90% dibandingkan tahun 2022 mencapai Rp181,24 triliun. Ekuitas tahun 2023 mencapai Rp15,45 triliun, meningkat 4,77% dari tahun 2022 mencapai Rp14,75 triliun.

Performance Achievement

Based on the strategy that has been implemented, in 2023 bank **bjb** has produced good performance in accordance with the target. In 2023, outstanding consumer credit reached IDR49.94 trillion, growing 5.92% compared to 2022 which reached IDR47.14 trillion. Outstanding Retail Credit reached IDR19.82 trillion, growing 7.24% compared to 2022 which reached IDR18.48 trillion. Corporate credit growth in 2023 increased by 5.90% or IDR975.62 billion from IDR16.52 trillion in 2022 to IDR17.50 trillion in 2023. During 2023, total outstanding MSME loans increased compared to the previous year by 21.95% from IDR3.98 trillion in 2022 to IDR4.85 trillion in 2023 with net growth of IDR 873.35 billion. The KPR and KKB credit portfolio in 2023 was IDR10.50 trillion, an increase of IDR1.32 trillion or 14.35% compared to 2022 which was IDR 9.18 trillion. Third party funds in 2023 would reach IDR123.04 trillion, an increase of 0.79% or IDR959.05 billion compared to 2022 which reached IDR122.08 trillion. Apart from that, in 2023, bank **bjb** recorded fee-based income from e-channel services of IDR 462.11 billion or an increase of 2.00% year on year.

Good achievements can also be seen from the financial side. Total interest and sharia income in 2023 reached IDR14.25 trillion, an increase of 4.56% from 2022 which was IDR13.6 trillion. The increase in interest and sharia income continued to encourage an increase in total assets and total equity. Assets in 2023 reached IDR188.30 trillion, an increase of 3.90% compared to 2022 which was IDR181.24 trillion. Equity in 2023 reached IDR15.45 trillion, an increase of 4.77% from 2022 which was IDR14.75 trillion.

Secara umum, pencapaian target bank **bjb** pada tahun 2023 telah menunjukkan hasil yang baik dan telah memenuhi harapan para Pemangku Kepentingan. bank **bjb** pada tahun 2023 berhasil melampaui target aset sebesar 100,34% dengan realisasi mencapai Rp176,48 triliun (*bank only*). Pendapatan bunga dan syariah berhasil mencapai target sebesar 101,06% dengan realisasi mencapai Rp13,32 triliun (*bank only*). Sedangkan terdapat beberapa kinerja yang sedikit berada di bawah target yaitu laba tahun berjalan dengan pencapaian sebesar 88,86%, penyaluran kredit mencapai 99,23% dari yang ditargetkan serta penghimpunan DPK yang mencapai 99,37%. Tidak tercapainya target laba tahun berjalan dikarenakan adanya kenaikan beban bunga.

Kendala-Kendala yang Dihadapi Perusahaan dan Langkah-Langkah Penyelesaiannya

Dalam menjalankan kegiatan operasionalnya, bank **bjb** juga mengalami berbagai kendala. Kendala tersebut antara lain, rasio permodalan bank **bjb** yang lebih rendah dibandingkan industri perbankan nasional dan telah mendekati *trigger level* yang tercantum dalam *Recovery Plan* Perseroan sehingga ruang ekspansi bisnis bank **bjb** relatif terbatas. Untuk mengatasi kendala tersebut, Perseroan melakukan optimalisasi product holding dalam rangka meningkatkan pertumbuhan dana pihak ketiga dan bisnis lainnya. Kemudian, produk dan jasa bank **bjb** belum terinformasikan secara optimal kepada nasabah maupun masyarakat sekitar. Untuk menghadapi kendala tersebut, bank **bjb** melakukan beberapa pengembangan/penyesuaian terhadap produk kelolaannya guna meningkatkan daya saing, kredit konsumen juga memberlakukan beberapa program pemasaran, baik yang bersifat pemberian *gimmick* maupun *pricing*, guna mendukung pertumbuhan kredit konsumen.

Kendala lainnya yaitu, laba usaha bank **bjb** masih didominasi oleh hasil bunga kredit dan belum optimalnya kontribusi usaha dari jasa perbankan yang bersumber dari pendapatan non bunga/*fee based income*. Untuk menghadapi kendala tersebut, bank **bjb** memiliki strategi untuk mendorong pertumbuhan bisnis melalui sinergi dan kolaborasi. Perseroan juga melakukan peningkatan *fee based income* melalui pengembangan fitur dan inovasi produk serta meningkatkan upaya *recoveries* kredit hapus buku agar memberikan kontribusi lebih optimal terhadap pendapatan.

Hal-Hal Penting yang Diperkirakan Terjadi Pada Masa Mendatang dan Prospek Usaha

Di tengah perlambatan ekonomi global dengan ketidakpastian yang tinggi, tekanan inflasi secara global diperkirakan masih tinggi dipicu oleh kenaikan harga energi dan pangan akibat eskalasi konflik geopolitik, serta fenomena El Nino. Ekonomi global diperkirakan melambat menjadi 2,8% pada 2024. Penurunan inflasi di negara maju, termasuk AS, berlanjut, meski masih berada

In general, bank **bjb**'s target achievement in 2023 has shown good results and has met the expectations of stakeholders. bank **bjb** in 2023 succeeded in exceeding the asset target of 100.34% with realization reaching IDR176.48 trillion (bank only). Interest and sharia income managed to reach the target of 101.06% with realization reaching IDR13.32 trillion (bank only). While there were performances slightly below the target, such as profit on the year with achievement as of 88.86%, credit distribution as of 99.23% and DPK collection reaching 99.37%. The non-achievement of the profit target in the year was due to an increase in interest expense.

Challenges Faced by the Company and Steps to Resolve Them

In carrying out its operational activities, bank **bjb** faces various challenges. One of them was the lower bank's capital adequacy ratio compared to the national banking industry, and it was already approaching the trigger level outlined in the Company's Recovery Plan leading to the restriction of the bank's business expansion opportunities. To overcome the challenge, the company optimized its product holding to enhance the growth of third-party funds and other business segments. To add, bank **bjb**'s products and services had not been optimally socialized to customers and the surrounding community. To address this issue, bank **bjb** implemented several developments and adjustments to its product portfolio to improve competitiveness. Additionally, in the consumer credit sector, the bank was introducing various marketing programs, including both promotional gimmicks and pricing strategies, to support the growth of consumer credit.

Another challenge was that bank **bjb**'s operating income was still predominantly driven by interest income, and the contribution from non-interest income/*fee-based income* was not optimal yet. To address this issue, bank **bjb** had a strategy to stimulate business growth through synergy and collaboration. The company was also enhancing *fee-based income* through the development of features and innovative products, as well as intensifying efforts in credit recoveries to provide a more optimal contribution to income.

Important Things Expected to Occur in the Future and the Business Prospects

In the midst of a global economic slowdown with high uncertainty, global inflation pressures are forecasted to remain high due to the rise in energy and food prices stemming from the escalation of geopolitical conflicts, as well as the El Nino phenomenon. The global economy is projected to slow down to 2.8% in 2024. Inflation decline in developed countries, including the U.S., continues,

di atas sasaran, sementara inflasi Tiongkok menurun dipengaruhi oleh pertumbuhan ekonomi yang melambat. Siklus kenaikan suku bunga kebijakan moneter negara maju, termasuk Fed Funds Rate (FFR), diperkirakan telah berakhir meskipun masih bertahan tinggi pada semester I 2024, dengan kemungkinan akan mulai menurun pada semester II 2024. *Yield* obligasi Pemerintah negara maju, termasuk US Treasury, menurun secara gradual tapi masih berada di level tinggi sejalan dengan premi risiko jangka panjang (*term-premia*) terkait besarnya pembiayaan fiskal dan utang pemerintah AS. Tekanan penguatan nilai tukar dolar AS terhadap berbagai mata uang dunia juga berkurang. Perkembangan tersebut mendorong berlanjutnya aliran masuk modal asing dan mengurangi tekanan pelemahan nilai tukar di *emerging market*.

Perekonomian Indonesia diproyeksikan tetap tumbuh baik dan berdaya tahan terhadap dampak rambatan global. Percepatan belanja negara terkait penyelenggaraan Pemilu dan penguatan peran APBN sebagai shock absorber diharapkan dapat mendorong konsumsi Pemerintah untuk menjaga daya beli masyarakat. Pada 2024, pertumbuhan ekonomi Indonesia diperkirakan meningkat dalam kisaran 4,7%-5,5% didukung oleh permintaan domestik utamanya berlanjutnya pertumbuhan konsumsi serta peningkatan investasi khususnya bangunan sejalan dengan berlanjutnya pembangunan Proyek Strategis Nasional (PSN) termasuk Ibu Kota Nusantara (IKN). Sementara itu, kinerja ekspor diperkirakan belum kuat sebagai dampak perlambatan ekonomi global dan penurunan harga komoditas.

Transmisi kebijakan moneter berjalan dengan baik. Suku bunga pasar uang (IndONIA) bergerak dalam kisaran BI-Rate sebesar 5,81% pada 16 Januari 2024. Suku bunga Sekuritas Rupiah Bank Indonesia (SRBI) tercatat menarik pada level 6,68%, 6,78% dan 6,87% masing-masing untuk tenor 6, 9, dan 12 bulan pada 15 Januari 2024 sehingga mendukung efektivitas SRBI sebagai instrumen moneter yang pro-market. Sementara itu, suku bunga perbankan tetap rendah dipengaruhi oleh likuiditas perbankan yang memadai serta kebijakan transparansi SBDK yang meningkatkan efisiensi suku bunga perbankan. Ke depan, pertumbuhan kredit diperkirakan meningkat dalam kisaran 10%-12% pada 2024, sejalan dengan tetap kuatnya pertumbuhan ekonomi domestik. Kinerja transaksi ekonomi dan keuangan digital tetap kuat didukung oleh sistem pembayaran yang aman, lancar, dan andal. Nilai transaksi digital banking diproyeksikan meningkat 9,11% (yoy) hingga mencapai Rp63.803,77 triliun pada tahun 2024. Sementara nilai transaksi Uang Elektronik (UE) diproyeksikan meningkat 25,77% (yoy) hingga mencapai Rp1.051,24 triliun pada tahun 2024.

Kondisi perekonomian baik global maupun nasional serta perkembangan industri perbankan di masa yang akan datang menunjukkan adanya beberapa peluang yang dimiliki oleh bank **bjb**, di antaranya:

1. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya

although it remains above the target, while China's inflation is decreasing due to slowing economic growth. The cycle of policy interest rate hikes in developed countries, including the Fed Funds Rate (FFR), is expected to have ended, although it still remains high in the first half of 2024, with a possibility of starting to decline in the second half of 2024. The yields of government bonds in developed countries, including US Treasury bonds, are gradually decreasing but still remain at high levels in line with long-term risk premiums (*term-premia*) associated with the magnitude of fiscal financing and U.S. government debt. The strengthening pressure of the U.S. dollar against various world currencies is also diminishing. These developments continue to drive foreign capital inflows and reduce the pressure on exchange rate depreciation in emerging markets.

Indonesia's economy is projected to continue growing well and remain resilient to the global economic headwinds. Accelerated government spending related to the conduct of elections and the strengthening role of the State Budget (APBN) as a shock absorber are expected to stimulate government consumption to maintain the purchasing power of the public. In 2024, Indonesia's economic growth is forecasted to increase in the range of 4.7%-5.5%, supported by its main domestic drivers – the ongoing growth in consumption and increased investment, particularly in construction, aligned with the continuation of National Strategic Projects (PSN), including the Nusantara Capital City Development (IKN). Meanwhile, export performance is anticipated to be relatively weak due to the global economic slowdown and declining commodity prices.

The transmission of monetary policy is functioning well. The Indonesia Overnight Index Average (IndONIA) moves within the range of the BI-Rate, standing at 5.81% on January 16, 2024. The Bank Indonesia Rupiah Securities (SRBI) interest rates are noted at attractive levels of 6.68%, 6.78%, and 6.87% for tenors of 6, 9, and 12 months, respectively, as of January 15, 2024, supporting the pro-market effectiveness of SRBI as a monetary instrument. Meanwhile, banking interest rates remain low due to adequate banking liquidity and the transparency policy of the Prime Lending Rate (SBDK) that enhances the efficiency of banking interest rates. Going forward, credit growth is projected to increase in the range of 10%-12% in 2024, in line with the continued strength of domestic economic growth. The performance of digital economic and financial transactions remains robust, supported by a secure, smooth, and reliable payment system. The value of digital banking transactions is projected to increase by 9.11% (yoy) to reach IDR63,803.77 trillion in 2024. Meanwhile, the value of Electronic Money (UE) transactions is projected to increase by 25.77% (yoy) to reach IDR1,051.24 trillion in 2024.

The current global and national economic conditions, as well as the future developments in the banking industry indicate several opportunities for bank **bjb**, including:

1. Based on market scale, the majority of bank **bjb**'s branch offices still function as market nichers in their operational

sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset, baik DPK maupun kredit.

2. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan Otoritas Jasa Keuangan dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat in the bottom of the pyramid untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), transfer, menabung maupun pinjaman dan asuransi.
3. Kegiatan pelaku ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
4. Berbagai proyek pembangunan infrastruktur, termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten, sehingga bank **bjb** memiliki kesempatan untuk memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal.
5. Dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Potensi yang masih besar dalam pengembangan produk digital untuk menasar segmen ritel dan membangun ekosistem bisnis bank **bjb**.

Berbagai peluang tersebut menunjukkan bahwa bank **bjb** memiliki prospek yang baik untuk terus tumbuh secara berkelanjutan. Berdasarkan hal tersebut, bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Untuk dapat menangkap berbagai peluang yang dimiliki bank **bjb**, maka arahan strategi yang tertuang dalam bentuk Arahan Strategi Direksi Tahunan (ASDT) tahun 2024 adalah sebagai berikut:

1. Optimalisasi pangsa pasar kredit secara *prudent* dengan portofolio *management business* melalui pengembangan digitalisasi dan menjaga kualitas kredit.
2. Menjaga likuiditas yang sustain dengan optimalisasi *share of wallet* untuk mendukung akselerasi penyaluran dana.
3. Menyediakan solusi berbasis teknologi informasi guna mendukung bisnis dengan keamanan informasi yang terkendali.
4. Peningkatan pendapatan melalui pemanfaatan potensi bisnis lainnya dan pengembangan bisnis secara anorganik serta pengelolaan biaya secara efektif dan efisien.
5. Memperkuat struktur modal dan mendorong peningkatan kompetensi, produktivitas serta integritas *human capital*.
6. Memperkuat sinergi untuk membangun ekosistem inklusi keuangan dan akselerasi transaksi instrumen keuangan berkelanjutan.
7. Mendukung pengelolaan manajemen risiko yang efektif dan penguatan *governance* serta *compliance* dalam mencapai kinerja bank **bjb** yang berkelanjutan.

regions, providing ample opportunities to increase market share in terms of assets, both in deposits (DPK) and loans.

2. The increasing financial literacy among the public through programs initiated by Bank Indonesia and the Financial Services Authority (OJK) to implement inclusive financial policies as a form of deepening financial services aimed at society in the bottom of the pyramid. This encourages the utilization of formal financial products and services such as safekeeping money, transfers, savings, loans, and insurance.
3. The high activities of economic agents in West Java, Banten, and DKI Jakarta represent potential areas for credit and financing development.
4. Various infrastructure development projects, including National Strategic Projects, are located in the working areas of West Java and Banten. This provides bank **bjb** with the opportunity to maximize credit disbursement and contribute to the optimal economic growth of the region.
5. Consistent and continuous support from local governments in developing bank **bjb** as a driver and catalyst for economic development in the region.
6. Significant potential for the development of digital products to target the retail segment and build the business ecosystem of bank **bjb**.

The various opportunities indicate that bank **bjb** has a promising prospect for sustained growth. Based on this, bank **bjb** is optimistic about continuously improving its performance in both the short and long term sustainably. To capture the various opportunities, the strategic directions outlined in the Annual Directorial Strategic Guidelines (ASDT) for the year 2024 are as follows:

1. Optimize prudent credit market share through business portfolio management via digitalization and maintaining credit quality.
2. Sustain liquidity with the optimization of the share of the wallet to support the acceleration of fund disbursement.
3. Provide technology-based solutions to support business with controlled information security.
4. Increase revenue through the utilization of other potential business opportunities, organic business development, and effective cost management.
5. Strengthen capital structure and promote the improvement of competence, productivity, and human capital integrity.
6. Enhance synergy to build a financial inclusion ecosystem and accelerate sustainable financial instrument transactions.
7. Support effective risk management and strengthen governance and compliance in achieving sustainable performance for bank **bjb**.

Penerapan Tata Kelola Perusahaan

Good Corporate Governance (GCG) merupakan suatu sistem peraturan yang mengatur hubungan dari berbagai pihak yang bersangkutan dengan Pemegang Saham, Dewan Komisaris, Direksi, dan Komite-komite. Dengan kata lain, GCG mencakup hubungan antara para pemangku kepentingan (*stakeholder*) yang terlibat serta tujuan pengelolaan perusahaan. Selain itu, penerapan GCG tidak hanya menjadi suatu keharusan, tetapi juga merupakan fondasi utama dalam menjalankan usaha untuk memaksimalkan manfaat dan nilai tambah bagi para pemangku kepentingan serta menjaga keberlangsungan usaha. Penerapan GCG kian menjadi faktor penentu strategis bagi perbankan agar dapat meningkatkan nilai dan memelihara proses pertumbuhan yang berkelanjutan. Setiap perbankan perlu terus meningkatkan kinerja agar dapat mengambil manfaat dari penerapan GCG. Tujuan penerapan GCG yaitu menciptakan nilai tambah bagi semua pihak yang berkepentingan, pihak – pihak tersebut adalah pihak internal yang meliputi Dewan Komisaris, Direksi, Karyawan, dan pihak eksternal yang meliputi investor, kreditur, pemerintah, masyarakat dan pihak berkepentingan lainnya.

Sebagai lembaga intermediasi dan lembaga kepercayaan, Perseroan dalam melaksanakan kegiatan usahanya harus berpedoman terhadap prinsip keterbukaan (*transparency*), memiliki ukuran kinerja dari semua jajaran berdasarkan ukuran yang konsisten dengan *corporate values*, sasaran usaha dan strategi bank sebagai cerminan akuntabilitas (*accountability*), menjamin dilaksanakannya ketentuan yang berlaku serta praktik-praktik pengelolaan perusahaan yang bertanggungjawab (*sustainability*), berdasarkan nilai-nilai etika, objektif dan bebas dari tekanan pihak manapun dalam pengambilan keputusan dan senantiasa memperhatikan kepentingan seluruh *stakeholders* (Pemangku Kepentingan) berdasarkan azas kesetaraan dan kewajaran (*ethical behavior*).

Keempat pilar tersebut diimplementasikan melalui pemenuhan kepentingan pemegang saham dan memberikan perlakuan yang sama kepada seluruh pemegang saham; pemenuhan kepentingan *stakeholders* lainnya; melaksanakan pengungkapan dan transparansi; serta tugas dan tanggung jawab Dewan Komisaris dalam menjalankan fungsi pengawasan dan pemberian nasihat kepada Direksi.

Dalam pelaksanaan pemenuhan kepentingan pemegang saham, bank **bjb** telah memenuhi hak-hak pemegang saham di antaranya membayar dividen secara adil dan tepat waktu. Dividen diputuskan melalui Rapat Umum Pemegang Saham Tahunan (RUPST). bank **bjb** memiliki kebijakan dividen yang didasarkan pada pemenuhan kepentingan pemegang saham serta rencana pengembangan usaha. Selain pembagian dividen, bank **bjb** juga telah memenuhi hak-hak pemegang saham sebagai berikut:

1. Menghadiri dan menyetujui pengangkatan, pemberhentian dan persetujuan pengunduran diri Dewan Komisaris dan Direksi.

Implementation of Corporate Governance

Good Corporate Governance (GCG) is a regulatory system that governs the relationships among various parties involved, including Shareholders, Board of Commissioners, Board of Directors, and Committees. In other words, GCG encompasses the relationships between stakeholders involved and the objectives of corporate management. Moreover, the implementation of Good Corporate Governance (GCG) is not only a requirement but also a fundamental foundation in conducting business to maximize benefits and added value for stakeholders while maintaining business sustainability. The application of GCG is increasingly becoming a strategic determinant for the banking sector to enhance value and sustain continuous growth processes. Every bank needs to consistently improve its performance to benefit from the implementation of Good Corporate Governance (GCG). The goal of implementing GCG is to create added value for all stakeholders. These stakeholders include internal parties such as the Board of Commissioners, Board of Directors, employees, and external parties such as investors, creditors, government, the community, and other stakeholders.

As an intermediation institution and trust institution, the Company in carrying out its business activities must be guided by the principle of openness (*transparency*), have performance measures from all levels based on measures that are consistent with corporate values, business targets and bank strategies as a reflection of accountability, guarantee the implementation of provisions applicable as well as responsible company management practices (*sustainability*), based on ethical values, objective and free from pressure from any party in decision making and always paying attention to the interests of all stakeholders (*Stakeholders*) based on the principles of equality and fairness (*ethical behavior*).

These four principles are implemented through the interest fulfillment of shareholders and providing equal treatment to all shareholders; interests fulfillment of other stakeholders; implementing disclosure and transparency; and the duties and responsibilities of the Board of Commissioners in carrying out the oversight function and providing advice to the Board of Directors.

In fulfilling the interests of shareholders, bank **bjb** has already provided the rights of shareholders, including the fair and on time payment of dividends. Dear Shareholders and Stakeholders,

Praise to the presence of Allah SWT, God Almighty for His blessings and gifts, amidst uncertainty of economic condition, bank **bjb** still confirmed its commitment to provide concrete contribution toward Indonesian economy. All these economic upheavals encourage bank bjb to adapt quickly to the changes in the modern banking industry with the spirit of increasing competition and business development. Being a strategic partner of various parties and conducting collaboration and synergy, bank **bjb** continuously disseminated inspiration to various parties and confirmed its performance in the mid of economic challenges.

We would like to submit the following report on the supervision and advising of the Board of Commissioners on the management of the Company for the financial year 2023, consisting of an assessment of the performance of the Board of Directors in 2023, views on business prospects prepared by the Board of Directors, implementation of good corporate governance, assessment of the Committees under the Board of Commissioners, and changes in the composition of the Board of Commissioners.

Penilaian Kinerja Direksi

Pengawasan dan pemberian nasihat kepada Direksi merupakan tanggung jawab Dewan Komisaris dalam rangka memastikan kinerja Direksi sesuai dengan yang ditargetkan. Dalam melaksanakan tugasnya, Dewan Komisaris bertindak secara independen sesuai dengan ketentuan di dalam Anggaran Dasar Perseroan serta keputusan RUPS dengan itikad baik, penuh tanggung jawab dan kehati-hatian. Pemberian nasihat dari Dewan Komisaris kepada Direksi dilakukan melalui Rapat Gabungan Dewan Komisaris mengundang Direksi maupun Rapat Gabungan Direksi mengundang Dewan Komisaris. Selama tahun 2023, Rapat Gabungan Dewan Komisaris mengundang Direksi telah dilaksanakan sebanyak 36 (tiga puluh enam) kali dan Rapat Gabungan Direksi mengundang Dewan Komisaris sebanyak 4 (empat) kali.

Dewan Komisaris senantiasa melakukan pengawasan terhadap perumusan dan implementasi strategi Perseroan. Pengawasan terhadap perumusan strategi Perseroan dilaksanakan dengan melakukan pengawasan terhadap penyusunan Rencana Bisnis Bank. Dewan Komisaris senantiasa memastikan bahwa strategi yang dirumuskan dalam Rencana Bisnis Bank sesuai dengan Arah Strategis Direksi Tahunan yang telah ditetapkan. Sedangkan pengawasan terhadap implementasi strategi dilakukan melalui kegiatan mengarahkan, memantau, dan mengevaluasi pelaksanaan Rencana Bisnis Bank (RBB), evaluasi pencapaian kinerja bulanan, pelaksanaan ketentuan Anggaran Dasar dan Keputusan RUPS serta meneliti dan menelaah laporan berkala dan Laporan Tahunan yang disiapkan Direksi, termasuk laporan hasil audit internal Bank.

Dewan Komisaris memberikan penghargaan yang setinggi-tingginya kepada kinerja Direksi yang telah mampu menghadapi tantangan perekonomian dan mampu memberikan kinerja yang baik. Dasar penilaian Dewan Komisaris atas kinerja Direksi adalah terkait kinerja operasional dan keuangan serta tingkat kesehatan bank yang dapat disampaikan sebagai berikut.

Pada tahun 2023, perekonomian global masih mengalami tekanan. Penurunan inflasi dunia berjalan lambat di tengah pengetatan kebijakan moneter bank sentral di banyak negara. Setelah mencapai puncaknya sebesar 11,6% pada kuartal kedua tahun 2022, inflasi dunia turun menjadi 5,6% pada Oktober 2023, dengan inflasi negara maju tercatat 3,5% sementara inflasi negara Emerging Market and Developing Economies (EMDEs) tercatat 7,6%. Penurunan inflasi sejalan dengan penurunan harga energi dan pangan dan dampak dari pengetatan kebijakan moneter bank sentral di banyak negara. Meski demikian, inflasi di negara-negara maju masih jauh di atas sasaran yang ingin dicapai yaitu 2%, sedangkan di kebanyakan negara EMDEs telah di bawah sasaran. Di Amerika Serikat (AS), misalnya, inflasi masih tinggi yaitu sekitar 3,0% pada akhir 2023 dan menurun ke 2,6% pada akhir 2024. Demikian pula di Uni

Board of Director Performance Assessment

Supervision and advisory to the Board of Directors are the responsibilities of the Board of Commissioners to ensure that the performance of the Board of Directors aligns with the targeted objectives. In carrying out its duties, the Board of Commissioners acts independently in accordance with the provisions in the Company's Articles of Association and resolutions of the General Meeting of Shareholders (RUPS) with good faith, full responsibility, and prudence. Advisory from the Board of Commissioners to the Board of Directors is conducted through Joint Meetings of the Board of Commissioners inviting the Board of Directors or Joint Meetings of the Board of Directors inviting the Board of Commissioners. During the year 2023, Joint Meetings of the Board of Commissioners inviting the Board of Directors have been held 36 (thirty-six) times, and Joint Meetings of the Board of Directors inviting the Board of Commissioners have been held 4 (four) times.

The Board of Commissioners consistently oversees the formulation and implementation of the Company's strategy. Oversight of the formulation of the Company's strategy is carried out by monitoring the preparation of the Bank's Business Plan. The Board of Commissioners always ensures that the strategy formulated in the Bank's Business Plan is in line with the Annual Strategic Directions set by the Board of Directors. Meanwhile, oversight of the implementation of the strategy is carried out through activities such as directing, monitoring, and evaluating the implementation of the Bank's Business Plan (RBB), monthly performance achievement evaluations, compliance with the Articles of Association and resolutions of the General Meeting of Shareholders, as well as examining and reviewing periodic reports and Annual Reports prepared by the Board of Directors, including internal audit reports.

The Board of Commissioners gives its highest appreciation to the performance of the Board of Directors, which has been able to face economic challenges and deliver outstanding results. The basis for the assessment by the Board of Commissioners of the performance of the Board of Directors is related to operational and financial performance, as well as the Bank Soundness Level, which can be summarized as follows.

In 2023, the global economy continued to face pressures, with a slow decline in worldwide inflation amid tightening monetary policies by central banks in many countries. After reaching its peak at 11.6% in the second quarter of 2022, global inflation decreased to 5.6% in October 2023, with inflation in advanced economies recorded at 3.5%, while inflation in Emerging Market and Developing Economies (EMDEs) stood at 7.6%. The decrease in inflation was in line with the decline in energy and food prices and the impact of the tightening monetary policies of central banks in many countries. However, inflation in advanced economies remained well above the target of 2%, while in most EMDEs, it was below the target. In the United States, for example, inflation remained high at around 3.0% at the end of 2023, decreasing to 2.6% by the end of 2024. Similarly, in the European

Eropa dan Inggris, inflasi masih sekitar 3,3% dan 5,2% pada akhir 2023 dan kemudian menurun ke sekitar 2,7% dan 2,4% pada akhir 2024. Sementara itu, di negara EMDEs, sejumlah negara inflasinya masih di atas sasaran, termasuk Brazil dan Meksiko di Amerika Latin serta Filipina di Asia. Negara-negara EMDEs lain telah mampu menurunkan inflasinya kembali ke sasaran, termasuk Indonesia. Perkembangan di atas menunjukkan bahwa pengetatan moneter oleh bank-bank sentral negara maju masih akan berlanjut pada tahun 2024 untuk memastikan kembalinya inflasi ke sasaran yaitu 2%. Kondisi ini mempersulit bank-bank sentral negara EMDEs untuk mengarahkan kebijakan moneternya ke tujuan ekonomi domestik, khususnya stabilitas harga dan pertumbuhan, karena keharusan mempertahankan stabilitas eksternal dari dampak negatif tingginya suku bunga global tersebut.

Dari sisi pertumbuhan ekonomi nasional, ekonomi Indonesia tumbuh 5,04% pada Triwulan IV-2023, lebih tinggi dibanding periode yang sama tahun 2022. Pertumbuhan terjadi pada seluruh lapangan usaha. Lapangan usaha yang tumbuh signifikan adalah Transportasi dan Pergudangan sebesar 10,33%, diikuti Jasa Lainnya sebesar 10,15%, dan Pengadaan Listrik dan Gas sebesar 8,68%. Sebagai lapangan usaha yang memiliki peran dominan, Industri Pengolahan tumbuh sebesar 4,07%. Sedangkan Pertanian, Kehutanan, dan Perikanan serta Perdagangan Besar dan Eceran, Reparasi Mobil dan Sepeda Motor masing-masing tumbuh sebesar 1,12% dan 4,09%. Pertumbuhan ekonomi dari sisi lapangan usaha antara lain didorong oleh kenaikan pengguna jasa angkutan penumpang, peningkatan volume pengiriman barang ekspor-impor, peningkatan kunjungan wisatawan, dan rangkaian persiapan pemilihan umum.

Dari sisi perbankan, kinerja transaksi ekonomi dan keuangan *digital* tetap kuat didukung oleh sistem pembayaran yang aman, lancar, dan andal. Pada tahun 2023, nilai transaksi *digital banking* tercatat Rp58.478,24 triliun atau tumbuh sebesar 13,48% (yoy). Sementara nilai transaksi Uang Elektronik (UE) meningkat 43,45% (yoy) sehingga mencapai Rp835,84 triliun. Nominal transaksi QRIS tercatat tumbuh 130,01% (yoy) dan mencapai Rp229,96 triliun, dengan jumlah pengguna 45,78 juta dan jumlah *merchant* 30,41 juta yang sebagian besar merupakan UMKM. Sementara itu, nilai transaksi pembayaran menggunakan kartu ATM, kartu debit, dan kartu kredit mencapai Rp8.178,69 triliun atau turun sebesar 0,81% (yoy). Dari sisi pengelolaan uang Rupiah, jumlah Uang Kartal Yang Diedarkan (UYD) pada Desember 2023 meningkat 7,33% (yoy) sehingga menjadi Rp1.101,75 triliun.

Di tengah kondisi perekonomian tersebut, Direksi mampu menghadapi tantangan dan peluang yang terjadi dengan mencatatkan kinerja yang baik di tahun 2023. Pada tahun 2023, kredit konsumen mencapai Rp49,94 triliun, tumbuh 5,92% dibandingkan dengan tahun 2022 yang mencapai Rp47,14 triliun. Kredit Ritel mencapai Rp19,82 triliun, tumbuh 7,24% dibandingkan dengan tahun 2022 yang mencapai Rp18,48 triliun. Kredit korporasi mencapai Rp17,48 triliun, tumbuh 5,76% dibandingkan dengan tahun 2022 yang mencapai Rp16,53 triliun.

Union and the United Kingdom, inflation was around 3.3% and 5.2% at the end of 2023, and then decreased to approximately 2.7% and 2.4% by the end of 2024. Meanwhile, in EMDEs, some countries still experienced inflation above the target, including Brazil and Mexico in Latin America, as well as the Philippines in Asia. Other EMDEs managed to bring their inflation back to target, including Indonesia. These developments indicate that the monetary tightening by central banks in advanced economies will continue in 2024 to ensure a return of inflation to the 2% target. This condition complicates the ability of central banks in EMDEs to direct their monetary policies towards domestic economic goals, particularly price stability and growth, due to the necessity of maintaining external stability from the negative impacts of the elevated global interest rates.

On the aspect of national economic growth, Indonesia's economy expanded by 5.04% in the fourth quarter of 2023, surpassing the same period in 2022. Growth was observed across all sectors. Industries that experienced significant growth included transportation and warehousing at 10.33%, followed by other services at 10.15%, and electricity and gas supply at 8.68%. As a dominantly influential sector, manufacturing grew by 4.07%. Meanwhile, agriculture, forestry, and fisheries, as well as wholesale and retail trade, repair of cars and motorcycles, grew by 1.12% and 4.09%, respectively. Economic growth across sectors was driven by an increase in passenger transportation services, a rise in the volume of export-import shipments, an uptick in tourist visits, and preparations for the upcoming general elections.

On the banking aspect, the performance of digital economic and financial transactions remains robust, supported by a secure, smooth, and reliable payment system. In 2023, the value of digital banking transactions recorded IDR 58,478.24 trillion, reflecting a growth of 13.48% (YoY). Meanwhile, the value of Electronic Money (EM) transactions increased by 43.45% (YoY), reaching IDR 835.84 trillion. The nominal transactions through QRIS recorded a remarkable growth of 130.01% (YoY), totaling IDR 229.96 trillion, with 45.78 million users and 30.41 million merchants, a majority of which are Micro, Small & Medium Enterprises (UMKM). Meanwhile, the value of transactions using ATM cards, debit cards, and credit cards amounted to IDR 8,178.69 trillion, a decrease of 0.81% (YoY). Regarding the management of Rupiah, the number of Circulated Banknotes (UYD) in December 2023 increased by 7.33% (YoY), reaching IDR 1,101.75 trillion.

In the midst of the economic conditions, the Board of Directors successfully navigated challenges and seized opportunities, achieving commendable performance in 2023. During the same period, consumer loans reached IDR 49.94 trillion, growing by 5.92% compared to 2022, where it stood at IDR 47.14 trillion. Retail loans reached IDR 19.82 trillion, exhibiting a growth of 7.24% compared to the previous year's figure of IDR 18.48 trillion. Cooperative loans amounted to IDR 17.48 trillion, experiencing a growth of 5.76% from the 2022 figure of IDR 16.53 trillion.

Selama tahun 2023 total Kredit UMKM mencapai Rp4,85 triliun tumbuh 21,95% andingkan dengan tahun 2022 yang mencapai Rp3,98 triliun. Dana pihak ketiga tahun 2023 mencapai Rp123,04 triliun, meningkat 0,79% atau Rp959,05 miliar dibandingkan dengan tahun 2022 yang mencapai Rp122,08 triliun.

Pencapaian yang baik juga terlihat dari sisi keuangan. Total pendapatan bunga dan syariah tahun 2023 mencapai Rp14,25 triliun, meningkat 4,56% dari tahun 2022 mencapai Rp13,6 triliun. Aset tahun 2023 mencapai Rp188,30 triliun meningkat 3,90% dibandingkan tahun 2022 mencapai Rp181,24 triliun. Ekuitas tahun 2023 mencapai Rp15,45 triliun, meningkat 4,77% dari tahun 2022 mencapai Rp14,75 triliun.

Selain kinerja operasional dan keuangan, tingkat kesehatan bank juga menjadi salah satu pertimbangan Dewan Komisaris dalam melakukan penilaian atas kinerja Direksi. Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2023 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

Pandangan Atas Prospek Usaha yang Disusun Direksi

Perekonomian global diperkirakan masih mengalami ketidakpastian akibat tekanan inflasi yang masih tinggi dipicu oleh kenaikan harga energi dan pangan akibat eskalasi konflik geopolitik, serta fenomena El Nino. Ekonomi global diperkirakan melambat menjadi 2,8% pada 2024. Penurunan inflasi di negara maju, termasuk AS, berlanjut, meski masih berada di atas sasaran, sementara inflasi Tiongkok menurun dipengaruhi oleh pertumbuhan ekonomi yang melambat. Tekanan penguatan nilai tukar dolar AS terhadap berbagai mata uang dunia juga berkurang. Perkembangan tersebut mendorong berlanjutnya aliran masuk modal asing dan mengurangi tekanan pelemahan nilai tukar di *emerging market*.

Perekonomian Indonesia menunjukkan ketahanan ekonomi dan pemulihan yang terus menguat di tengah tantangan global. Percepatan belanja negara terkait penyelenggaraan Pemilu dan penguatan peran APBN sebagai *shock absorber* diharapkan dapat mendorong konsumsi Pemerintah untuk menjaga daya beli masyarakat. Pada 2024, pertumbuhan ekonomi Indonesia diperkirakan meningkat dalam kisaran 4,7%-5,5% didukung oleh permintaan domestik utamanya berlanjutnya pertumbuhan konsumsi serta peningkatan investasi khususnya bangunan sejalan dengan berlanjutnya pembangunan Proyek Strategis Nasional (PSN) termasuk Ibu Kota Nusantara (IKN).

Dari sisi industri perbankan, transmisi kebijakan moneter berjalan dengan baik. Suku bunga pasar uang (IndONIA) bergerak dalam

Throughout 2023, the total MSMEs loans reached IDR4.85 trillion, marking a substantial growth of 21.95% compared to the IDR3.98 trillion recorded in 2022. Third-party funds in 2023 reached IDR123.04 trillion, reflecting an increase of 0.79% or IDR959.05 billion compared to the 2022 figure of IDR122.08 trillion.

Achievements are also evident from the financial perspective. The total interest and sharia income for the year 2023 reached IDR14.25 trillion, 4.56% increase from 2022, which was IDR13.6 trillion. The assets for the year 2023 reached IDR188.30 trillion, showing a 3.90% increase compared to 2022, which was IDR181.24 trillion. Equity for the year 2023 amounted to IDR15.45 trillion, marking a 4.77% increase from 2022, which was IDR14.75 trillion.

In addition to operational and financial performance, the bank soundness level is also a consideration for the Board of Commissioners in evaluating the performance of the Board of Directors. The Composite of Bank Soundness Level of bank **bjb** as of December 31, 2023, is at Level CR 2 (General Sound). The overall condition of bank **bjb** is general sound, and as such is assessed of being capable of facing significant negative influence from changes in business condition and other external factors. This is reflected in the ratings for factors such as risk profile, governance implementation, profitability, and capital, which are generally good. In the case of weaknesses, they are generally considered less significant.

Board of Director's View on Business Prospects

The global economy is expected to continue experiencing uncertainty due to high inflationary pressures triggered by the rise in energy and food prices due to the escalation of geopolitical conflicts and the El Nino phenomenon. The global economy is forecasted to slow down to 2.8% in 2024. Inflation is declining in advanced economies, including the US, although it remains above targets, while China's inflation is decreasing influenced by slowing economic growth. The strengthening pressure of the US dollar against various world currencies is also diminishing. These developments contribute to the continued influx of foreign capital and alleviate the depreciation pressures on emerging market currencies.

Indonesia's economy demonstrates resilience and strengthening recovery amid global challenges. The acceleration of state spending related to general elections and the strengthened role of the state budget (APBN) as a shock absorber is expected to boost government consumption to maintain the purchasing power of the population. In 2024, Indonesia's economic growth is forecasted to increase in the range of 4.7%-5.5%, supported by mainly domestic demand, including continued consumption growth and increased investment, especially in construction, aligning with the ongoing development of National Strategic Projects (PSN), including the Nusantara Capital City (IKN).

From the banking industry perspective, monetary policy transmission is functioning effectively. The Indonesia Overnight Index Average

kisaran BI-Rate sebesar 5,81% pada 16 Januari 2024. Suku bunga Sekuritas Rupiah Bank Indonesia (SRBI) tercatat menarik pada level 6,68%, 6,78% dan 6,87% masing-masing untuk tenor 6, 9, dan 12 bulan pada 15 Januari 2024 sehingga mendukung efektivitas SRBI sebagai instrumen moneter yang pro-market. Sementara itu, suku bunga perbankan tetap rendah dipengaruhi oleh likuiditas perbankan yang memadai serta kebijakan transparansi SBDK yang meningkatkan efisiensi suku bunga perbankan. Ke depan, pertumbuhan kredit diperkirakan meningkat dalam kisaran 10%-12% pada 2024, sejalan dengan tetap kuatnya pertumbuhan ekonomi domestik. Kinerja transaksi ekonomi dan keuangan digital tetap kuat didukung oleh sistem pembayaran yang aman, lancar, dan andal. Nilai transaksi digital banking diproyeksikan meningkat 9,11% (yoy) hingga mencapai Rp63.803,77 triliun pada tahun 2024. Sementara nilai transaksi Uang Elektronik (UE) diproyeksikan meningkat 25,77% (yoy) hingga mencapai Rp1.051,24 triliun pada tahun 2024.

Setelah mempertimbangkan kondisi perekonomian, Dewan Komisaris berpendapat bahwa prospek usaha yang telah disusun oleh Direksi sudah tepat. Dewan Komisaris berkeyakinan bahwa Perseroan akan dapat memanfaatkan peluang yang ada di antaranya skala pasar sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset baik DPK maupun kredit. Peluang lainnya yaitu, semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan OJK dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat *in the bottom of the pyramid* untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), transfer, menabung maupun pinjaman dan asuransi. Berbagai proyek pembangunan infrastruktur termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten sehingga hal tersebut menjadi peluang bagi bank **bjb** untuk memiliki kesempatan memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal. Kemudian, dukungan dari pemerintah daerah secara konsisten dan berkesinambungan merupakan peluang dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah. Hal-hal tersebut didukung oleh efektifnya strategi usaha yang telah ditetapkan oleh Direksi.

Pandangan Atas Penerapan Tata Kelola Bank

Melalui penerapan *good corporate governance* (GCG) dengan mengacu kepada pedoman dan standar Tata Kelola bank yang berlaku, baik secara nasional dan internasional bank **bjb** memiliki cita-cita untuk menjadi Bank terdepan kebanggaan Indonesia dan pilihan utama masyarakat serta mencapai tujuan jangka panjang yang telah ditetapkan serta senantiasa memberikan kontribusi positif bagi seluruh masyarakat dan Pemangku Kepentingan. bank **bjb** berkomitmen untuk menerapkan prinsip-prinsip GCG dan mengacu kepada beberapa

(IndONIA) moves within the range of the BI-Rate at 5.81% on January 16, 2024. The Indonesian Rupiah Securities Interest (SRBI) is recorded at attractive levels of 6.68%, 6.78%, and 6.87% for tenors of 6, 9, and 12 months, respectively, as of January 15, 2024, supporting the effectiveness of SRBI as a pro-market monetary instrument. Meanwhile, bank interest rates remain low, influenced by adequate banking liquidity and the transparency policy of the SBDK (Prime Lending Rate) that enhances the efficiency of bank interest rates. Looking ahead, credit growth is projected to increase in the range of 10%-12% in 2024, in line with the sustained strength of domestic economic growth. The performance of digital economic and financial transactions remains robust, supported by a secure, smooth, and reliable payment system. The value of digital banking transactions is projected to increase by 9.11% (yoy) to reach IDR 63,803.77 trillion in 2024. Meanwhile, the value of Electronic Money (UE) transactions is projected to increase by 25.77% (yoy) to reach IDR 1,051.24 trillion in 2024.

After considering the economic conditions, the Board of Commissioners believes that the business prospects outlined by the Board of Directors are accurate. The Board of Commissioners is confident that the company will be able to capitalize on opportunities, including the substantial market scale where most branch offices of bank **bjb** still serve as market nichers in their operational areas, providing significant opportunities to increase market share in terms of both assets, including deposits (DPK), and credit. Another opportunity lies in the increasing financial literacy of the community through programs initiated by Bank Indonesia and the Financial Services Authority (OJK) to implement inclusive financial policies as a form of deepening financial services aimed at society in the bottom of the pyramid, encouraging the use of formal financial products and services such as safe depositing, transfers, savings, loans, and insurance. Various infrastructure development projects, including National Strategic Projects, are located in the West Java and Banten regions, presenting an opportunity for bank **bjb** to maximize credit disbursement and contribute to the optimal economic growth of the area. Additionally, consistent and sustainable support from local governments provides an opportunity to develop bank **bjb** as a driver and catalyst for economic growth in the region. These opportunities are supported by the effectiveness of the business strategy set by the Board of Directors.

View on the Implementation of Bank Governance

Through the application of good corporate governance (GCG) based on the guidelines and standards of bank governance, both nationally and internationally, bank **bjb** aspires to be Indonesia's pride leading bank of the nation, and the preferred choice of the people aiming to achieve long-term goals and continuously contribute positively to society and stakeholders. bank **bjb** is committed to implementing GCG principles, adhering to applicable regulations and guidelines, and implementing

ketentuan yang berlaku serta pedoman-pedoman implementasi GCG yang sesuai dengan *best practice*/standar internasional. bank **bjb** senantiasa menerapkan standar praktik GCG yang tinggi dengan mengacu pada ketentuan OJK dan standar internasional. Dewan Komisaris menyadari pentingnya penerapan GCG di Perseroan, sehingga setiap kegiatan bisnis Perseroan tidak bertentangan dengan peraturan yang menimbulkan pelanggaran hukum.

Dewan Komisaris berpendapat bahwa Direksi telah menerapkan GCG dengan efektif dan konsisten di 2023. Beberapa isu kunci terkait dengan penerapan GCG adalah penerapan manajemen risiko, sistem pengendalian internal, serta penerapan *whistleblowing system* (WBS). Dewan Komisaris memberikan arahan sejak pengembangan sistem sampai dengan penerapan dan evaluasi pelaksanaannya.

Manajemen Risiko

Perseroan sebagai lembaga intermediasi yang mempunyai peranan penting dalam sistem perekonomian sehingga memerlukan adanya fungsi manajemen risiko atas aktivitas tersebut. Dalam menjalankan aktivitasnya, Perseroan dihadapkan pada risiko-risiko yang melekat antara lain risiko kredit, risiko pasar, risiko likuiditas, risiko operasional, risiko hukum, risiko kepatuhan, risiko reputasi dan risiko stratejik yang semakin kompleks sejalan dengan perkembangan dunia usaha perbankan karena inovasi produk, perluasan jaringan, pemutakhiran teknologi maupun pengembangan sumber daya manusia.

Situasi lingkungan eksternal dan internal perbankan tersebut meningkatkan kebutuhan praktik tata kelola bank yang baik (*good corporate governance*) dan penerapan manajemen risiko yang meliputi pengawasan aktif pengurus Perseroan, kecukupan kebijakan, prosedur, dan penetapan limit. Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian risiko serta sistem informasi dan pengendalian internal yang menyeluruh. Untuk meningkatkan *sustainability* dalam menghadapi gejolak ekonomi serta meningkatkan kinerja dalam rangka melindungi kepentingan *stakeholder*, Perseroan berupaya memperkuat proses manajemen risiko di setiap kegiatan usahanya dengan melakukan penyempurnaan atas kebijakan, infrastruktur dan kualitas sumber daya manusia terkait dengan pengelolaan risiko. Penerapan manajemen risiko juga dapat diterapkan dalam Konglomerasi Keuangan. Hal ini dikarenakan hubungan kepemilikan dan pengendalian antar lembaga jasa keuangan akan mempengaruhi kelangsungan usaha yang disebabkan adanya risiko yang timbul dari kegiatan usaha perusahaan anak dan perusahaan terelasi yang tergabung dalam suatu konglomerasi keuangan.

Penerapan manajemen risiko pada Perseroan ditujukan untuk:

1. Menjaga agar seluruh aktivitas fungsional dan produk yang dijalankan oleh Perseroan tidak menimbulkan kerugian baik secara materil maupun imateriil yang melebihi toleransi risiko untuk menyerap kerugian tersebut ataupun membahayakan kelangsungan usaha bank secara signifikan.
2. Peningkatan kemampuan manajemen risiko diharapkan dapat mendorong penerapan praktik manajemen risiko yang sehat dan alokasi permodalan yang lebih ekonomis sekaligus memberikan peluang untuk lebih berperan dalam perekonomian global.

GCG practices that align with international best practices/standards. bank **bjb** consistently implements high GCG standard practice align with the Financial Services Authority (OJK) and the international standard. The Board of Commissioners recognizes the importance of GCG implementation in the company to ensure that all business activities comply with regulations and avoid legal violations.

The Board of Commissioners believes that the Board of Directors have effectively and consistently implemented GCG in 2023. Several key issues related to GCG implementation is the management of risks, internal control system, as well as the implementation of a whistleblowing system (WBS). The Board of Commissioners provides guidance from system development to implementation and evaluation.

Risk Management

As an intermediary institution playing a vital role in the economic system, the company requires risk management functions for its activities. During the activities, the company faces inherent risks such as credit risk, market risk, liquidity risk, operational risk, legal risk, compliance risk, reputation risk, and strategic risk, which become increasingly complex due to banking industry developments such as product innovation, network expansion, technological updates, and human resource development.

The external and internal banking environment necessitates good bank governance practices and risk management, including active oversight by the company's management, adequate policies, procedures, and limit setting. This involves sufficient processes for risk identification, measurement, monitoring, control, as well as comprehensive internal information systems and controls. To enhance sustainability amidst economic fluctuations and improve performance to protect stakeholders' interests, the company endeavors to strengthen risk management processes in all business activities by refining policies, infrastructure, and human resource quality related to risk management. Risk management can also be applied within Financial Conglomerates. This is due to ownership and control relationships among financial institutions that affect business continuity due to risks arising from subsidiary and related company within a financial conglomerate.

The company aims to achieve the following through risk management:

1. Ensure that all functional activities and products do not incur losses exceeding the risk tolerance level or significantly endanger the bank's viability.
2. Improve risk management capabilities to promote healthy risk management practices, more economical capital allocation, and a greater role in the global economy.

3. Mengelola seluruh jenis risiko dan/atau per jenis risiko yang ditimbulkan aktivitas dan produk Perseroan secara akurat, komprehensif dan terintegrasi.
4. Menanamkan budaya risiko secara berkesinambungan pada semua level sehingga tercipta *risk awareness* atas setiap lini khususnya pada masing-masing *risk owner*.
5. Menciptakan pengelolaan risiko yang efektif antara Entitas Utama dengan Entitas Anak dan Perusahaan Terelasi dalam Konglomerasi Keuangan sehingga tercipta aktivitas keuangan yang tumbuh berkelanjutan dan stabil.

Dalam meningkatkan kualitas penerapan manajemen risiko untuk menjaga aktivitas bisnis, Perseroan telah melakukan langkah-langkah sebagai berikut:

1. Menumbuhkan *risk awareness* sesuai dengan ruang lingkup kewenangannya melalui sosialisasi, program pendidikan dan pelatihan.
2. Standarisasi prosedur dan mekanisme proses pengkajian.
3. Pengembangan metodologi Manajemen Risiko dilakukan melalui dukungan Teknologi Informasi dalam rangka mengembangkan sistem Manajemen Risiko Terintegrasi.
4. Penerapan fungsi *Quality Assurance* pada bidang Manajemen Risiko dalam proses evaluasi dan/atau validasi atas perubahan kebijakan, strategi, dan kerangka Manajemen Risiko yang dilaksanakan.

Direksi dan Dewan Komisaris melalui Komite Pemantau Risiko menilai bahwa selama tahun 2023 kecukupan manajemen risiko telah berjalan memadai yang tercermin hasil *review* atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional telah memadai.

Sistem Pengendalian Internal

Sistem Pengendalian Internal (SPI) merupakan suatu mekanisme proses pengawasan yang ditetapkan oleh manajemen Perseroan secara berkesinambungan yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Komisaris, Direksi serta seluruh pejabat dan pegawai Perseroan. SPI dirancang untuk dapat memberikan yang memadai guna menjaga dan mengamankan harta kekayaan Perseroan, menjamin tersedianya laporan yang akurat, meningkatkan kepatuhan terhadap ketentuan yang berlaku, mengurangi dampak kerugian keuangan, penyimpangan termasuk kecurangan (*fraud*) dan pelanggaran aspek kehati-hatian, serta meningkatkan efektivitas organisasi dan meningkatkan efisiensi biaya.

Sistem Pengendalian Intern bank **bjb** mengacu pada SEOJK 35/SEOJK.03/2017 tentang Pedoman Sistem Pengendalian Intern Bagi Bank Umum. Pengendalian intern diselenggarakan secara berkesinambungan (*on going basis*) untuk mencapai 3 (tiga) sasaran, yaitu:

3. Manage all types of risks from the companies' activities and product accurately, comprehensively, and integratedly.
4. Instill a culture of risk awareness at all levels to create risk awareness among all units, especially among risk owners.
5. Create effective risk management between the Main Entity and Subsidiaries and Related Companies within the Financial Conglomerate to ensure sustainable and stable financial activities.

In enhancing the quality of risk management application to safeguard business activities, the company has taken the following steps:

1. Cultivating risk awareness within its scope of authority through socialization, education, and training programs.
2. Standardizing procedures and mechanisms for assessment processes.
3. Developing Risk Management methodologies through IT support to develop an Integrated Risk Management system.
4. Implementing Quality Assurance function in Risk Management for evaluating and validating changes in policies, strategies, and Risk Management frameworks.

The Board of Directors and the Board of Commissioners, through the Risk Monitoring Committee, evaluate that risk management adequacy has been adequately maintained throughout 2023, as reflected in the review results of the completeness and accuracy of risk identification, measurement, monitoring, control, and reporting, as well as the adequacy of proposed mitigation scenarios by operational units.

Internal Control System

The Internal Control System (ICS) is a continuous management oversight mechanism whose design and implementation quality are influenced by the Board of Commissioners, the Board of Directors, and all officers and employees of the company. ICS is designed to adequately safeguard and secure the company's assets, ensure the availability of accurate reports, improve compliance with applicable regulations, reduce financial losses, deviations including fraud, and violations of prudential aspects, as well as enhance organizational effectiveness and cost efficiency.

bank **bjb** Internal Control System refers to SEOJK 35/SEOJK.03/2017 on Guidelines for Internal Control Systems for Commercial Banks. Internal controls are continuously conducted to achieve three objectives in the following:

1. Mencapai efektivitas dan efisiensi pada setiap aktivitas yang dijalankan oleh Perseroan, mencakup kinerja operasional dan keuangan, serta menjaga dan mengamankan harta kekayaan Perseroan.
2. Menciptakan laporan finansial dan non-finansial bagi pihak internal dan eksternal yang terpercaya, tepat waktu, dan transparan, serta sesuai dengan regulasi dan standar yang berlaku.
3. Menjaga kepatuhan terhadap hukum dan regulasi dalam seluruh aspek aktivitas Perseroan.

Sistem Pengendalian Internal (SPI) yang efektif merupakan komponen penting dalam manajemen bank **bjb** dan menjadi dasar bagi kegiatan operasional Perseroan yang sehat dan aman. SPI yang efektif dapat membantu Direksi dan Dewan Komisaris menjaga aset bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan bank terhadap ketentuan dan peraturan perundang-undangan, serta mengurangi risiko terjadinya kerugian, penyimpangan, dan pelanggaran aspek kehati-hatian.

Perseroan melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. Pemantauan terhadap risiko utama Perseroan harus diprioritaskan dan berfungsi sebagai bagian dari kegiatan Perseroan sehari-hari termasuk evaluasi secara berkala, baik oleh satuan-satuan kerja operasional dan non operasional maupun oleh Satuan Kerja Audit Intern (SKAI). Perseroan memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian intern tersebut agar efektivitasnya dapat ditingkatkan. Kelemahan dalam pengendalian intern, baik yang diidentifikasi oleh satuan kerja operasional (risk taking unit), SKAI maupun pihak lainnya, segera dilaporkan dan menjadi perhatian pejabat atau Direksi yang berwenang. Kelemahan pengendalian intern yang material juga dilaporkan kepada Dewan Komisaris.

Satuan Kerja Audit Internal (SKAI), Direksi, Dewan Komisaris serta Komite Audit telah melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. SKAI, Direksi, Dewan Komisaris serta Komite Audit memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian internal tersebut agar efektivitasnya dapat ditingkatkan. Pada tahun 2023, SKAI, Direksi, Dewan Komisaris serta Komite Audit menilai bahwa sistem pengendalian internal telah memadai.

Whistleblowing System

Whistleblowing System (WBS) berperan penting dalam meningkatkan pelaksanaan tata kelola perusahaan yang baik serta merupakan bagian dari pemeliharaan budaya dan kepedulian atas *anti fraud* di jajaran organisasi bank **bjb**. Dalam rangka meningkatkan efektivitas penerapan *Good Corporate Governance* melalui peran aktif para pelapor (*whistleblower*) maka Perseroan telah membentuk Sistem Pengaduan Pelanggaran berupa **bjbWBS** (*Whistleblowing System*).

1. Effectiveness and efficiency in every activity held by the companies, including financial and operational performance, as well as safeguarding and securing the company's assets.
2. Financial and non-financial report for internal and external party that are trusted, punctual, transparent, and align with the applicable regulations and standards.
3. Compliance maintainance with law and regulations in every aspect of company's activities.

An effective Internal Control System is a crucial component in bank **bjb**'s management and serves as the basis for sound and secure company operations. An effective ICS could assist the Board of Directors and the Board of Commissioners in safeguarding the bank's assets, ensuring the availability of reliable financial and managerial reports, improving the bank's compliance with laws and regulations, and reducing the risk of losses, deviations, and violations of prudential aspects.

The company monitors the overall effectiveness of internal control implementation. Monitoring of the company's key risks must be prioritized and integrated into daily company activities, including periodic evaluations by operational and non-operational units and the Internal Audit Unit (IAU). The company monitors and evaluates the adequacy of internal control systems concerning changes in internal and external conditions and strives to enhance the capacity of these systems for improved effectiveness. Weaknesses in internal control identified by operational risk-taking units, the IAU, or other parties are promptly reported and addressed by relevant officers or the Board of Directors. Material weaknesses in internal controls are also reported to the Board of Commissioners.

The Internal Audit Unit, the Board of Directors, the Board of Commissioners, and the Audit Committee have monitored the overall effectiveness of internal control implementation. They evaluate and assess the adequacy of internal control systems concerning changes in internal and external conditions and strive to enhance the effectiveness of these internal control systems. In 2023, they assessed that the internal control system was adequate.

Whistleblowing System

Whistleblowing System (WBS) plays a crucial role in improving good corporate governance implementation and is part of maintaining an anti-fraud culture and concern within bank **bjb**'s organizational structure. In order to enhance the effectiveness of Good Corporate Governance through active whistleblower participation, the company has established a Violation Complaint System in the form of **bjbWBS** (*Whistleblowing System*). Reporting

Penyampaian laporan kejadian indikasi *fraud* (*whistleblowing*) dapat dilakukan oleh seluruh pihak baik internal maupun eksternal kepada bank **bjb**. Sarana penyampaian laporan pengungkapan kejadian indikasi *fraud* merupakan fasilitas komunikasi yang bersifat independen, bebas dan rahasia, sehingga setiap laporan yang disampaikan akan diterima langsung oleh pengelola *Whistleblowing System*.

Whistleblowing System bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Dewan Komisaris senantiasa melakukan evaluasi atas efektivitas *whistleblowing system* melalui Komite Audit yang secara berkala menelaah program kerja dan pelaksanaan tugas Satuan Kerja Audit Internal. Dewan Komisaris berpendapat bahwa penerapan *Whistleblowing System* telah diterapkan secara baik pada operasional Perseroan.

Efektivitas penerapan *Whistleblowing System* bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Pelaksanaan sosialisasi **bjb** Wbs menjadi satu bagian tidak terpisahkan saat melaksanakan sosialisasi strategi Anti Fraud yang dilaksanakan oleh SKAI. Pada tahun 2023, Perseroan telah melaksanakan sosialisasi **bjb** Wbs ke 17 (tujuh belas) Kantor Cabang bank **bjb**.

Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 4 (empat) komite yaitu:

1. Komite Audit
2. Komite Nominasi dan Remunerasi
3. Komite Pemantau Risiko
4. Komite Tata Kelola Terintegrasi

Prosedur penilaian kinerja Komite di bawah Dewan Komisaris dilakukan oleh Dewan Komisaris secara periodik yang dilakukan 1 (satu) kali dalam satu tahun setiap akhir tahun buku. Adapun kriteria penilaian kinerja Komite di bawah Dewan Komisaris berdasarkan rapat dan pelaksanaan tugas komite selama tahun buku.

Komite Audit memiliki tugas dan tanggung jawab untuk membantu Dewan Komisaris melakukan pengawasan atas efektivitas sistem pengendalian internal, internal audit dan proses pelaporan keuangan. Sepanjang tahun 2023, Komite Audit telah melaksanakan rapat sebanyak 15 (lima belas) kali dan telah menjalankan tugas dan tanggungjawabnya dengan baik.

Komite Nominasi dan Remunerasi berfungsi untuk membantu Dewan Komisaris dalam melaksanakan fungsi dan tugasnya di bidang yang berkaitan dengan nominasi dan remunerasi terhadap

incidents indicating fraud can be made by all parties, both internal and external, to bank **bjb**. The whistleblower reporting mechanism provides independent, free, and confidential communication facilities, ensuring that all reports are directly received by the *Whistleblowing System* manager.

The bank **bjb** *Whistleblowing System* is managed by the Internal Audit Unit, which reports directly to the President Director and has communication links with the Board of Commissioners. The Board of Commissioners continually evaluates the effectiveness of the *whistleblowing system* through the Audit Committee, which periodically reviews the Internal Audit Unit's work programs and implementation. The Board of Commissioners believes that the *Whistleblowing System* has been effectively implemented in the company's operations.

The effectiveness of the bank **bjb** *Whistleblowing System* is managed by the Internal Audit Unit, which reports directly to the President Director and has communication links with the Board of Commissioners. The implementation of **bjb**WBS socialization is an integral part of Anti-Fraud strategy socialization conducted by the Internal Audit Unit. In 2023, the company conducted **bjb**WBS socialization in 17 bank **bjb** branch offices.

Assessment of Committees Under the Board of Commissioners

In terms of enhancing the role of the Board of Commissioners in performing the supervisory function, the Board of Commissioners formed 4 (four) committees, as follows:

1. Audit Committee
2. Nomination and Remuneration Committee
3. Risk Monitoring Committee
4. Integrated Governance Committee

The procedure for evaluating the performance of Committees under the Board of Commissioners was conducted by the Board of Commissioners periodically which was carried out 1 (once) time in a year at the end of the fiscal year. The criteria for assessing the performance of the Committees under the Board of Commissioners were based on meetings and implementation of committee duties during the fiscal year.

The Audit Committee had duties and responsibilities to assist the Board of Commissioners in supervising the effectiveness of the internal control system, internal audit and financial reporting process. Throughout 2023, the Audit Committee held 15 (fifteen) meetings and had performed its duties and responsibilities properly.

Penutup

Pada kesempatan ini, Dewan Komisaris memberikan apresiasi dan terima kasih kepada Direksi serta jajaran manajemen yang telah mampu menghadapi tantangan dan telah memberikan kinerja dan usaha yang baik di tengah kondisi perekonomian yang masih menghadapi ketidakpastian. Kepada para pemangku kepentingan lainnya, kami juga menyampaikan apresiasi yang setinggi-tingginya atas kerja sama yang telah terjalin dengan baik, sehingga manajemen bisa menjalankan kegiatan usaha dengan baik di tengah situasi yang penuh tantangan.

Kepada para pemegang saham dan regulator, Dewan Komisaris menyampaikan rasa hormat yang mendalam atas kepercayaan dan dukungan kepada pengurus Perseroan dalam menjalankan perannya sesuai tugas pokok dan fungsinya. Semoga apa yang kami sampaikan ini bermanfaat bagi perkembangan bisnis perusahaan di masa yang akan datang.

Closing

On this occasion, the Board of Commissioners addressed good appreciation and thanks to the Board of Directors and management who were able to face challenges and provided good performance and business amidst economic conditions that still faced uncertainty. To other stakeholders, we also expressed our highest appreciation for the cooperation that had been well established, so that management could perform business activities in good manner in the midst of a challenging situation.

To shareholders and regulators, the Board of Commissioners would like to express deep respect for the trust and support for the Company's management in conducting their roles according to their main duties and functions. Hopefully, what we have conveyed can be useful for the company's business development in the future.

Riwayat Singkat Perusahaan

Company Brief History

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (selanjutnya disebut “bank bjb” atau Perseroan) didirikan berdasarkan Peraturan Pemerintah No. 33 Tahun 1960 tentang penentuan perusahaan milik Belanda di Indonesia yang dikenakan nasionalisasi.

PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (from now on referred to as “bank **bjb**” or the Company) was established based on Government Regulation No. 33 of 1960 concerning the determination of Dutch-owned companies in Indonesia subject to nationalization.

Salah satu perusahaan milik Belanda yang berkedudukan di Bandung yaitu N.V Denis (*De Eerste Nederlandsche Indische Shareholding*) terkena ketentuan tersebut dan diarahkan kepada Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat. Bank telah mulai beroperasi secara komersial pada tanggal 20 Mei 1961.

Sebagai tindak lanjut dari peraturan Pemerintah No. 33 tahun 1960, Pemerintah daerah Tingkat Provinsi I Jawa Barat mendirikan Bank Karja Pembangunan dengan Akta Notaris Noezar No. 152 tanggal 21 Maret 1961 dan No. 184 tanggal 13 Mei 1961 yang kemudian dikukuhkan dengan surat Keputusan Gubernur Provinsi Jawa Barat No. 7/GKDN/BPD/61 tanggal 20 Mei 1961 dengan nama PT Bank Karja Pembangunan Daerah Djawa Barat. Berdasarkan Peraturan Daerah Provinsi DJawa Barat No. 11/PD/DPRD/72 tanggal 27 Juni 1972, kedudukan hukum PT Bank Karja Pembangunan Daerah Djawa Barat diubah menjadi PD Bank Karja Pembangunan Daerah Djawa Barat. Nama PD Bank Karja Pembangunan Daerah Jawa Barat selanjutnya diubah menjadi Bank Pembangunan Daerah Jawa Barat (BPD Jabar) sesuai Perda Provinsi Jawa Barat Nomor 1/DP-040/PD/1978 Tanggal 27 Juni 1978. Pada tahun 1992 sesuai dengan Surat Keputusan Bank Indonesia No. 25/84/KEP/DIR tanggal 2 November 1992 status BPD Jabar meningkat menjadi bank umum devisa. Berdasarkan Peraturan Daerah No. 11 Tahun 1995, BPD Jabar memiliki sebutan Bank Jabar dengan logo baru.

Berdasarkan Peraturan Daerah Provinsi Daerah Tingkat I Jawa Barat No.22 Tahun 1998 tanggal 14 Desember 1998 tentang Perubahan Bentuk Hukum Bank Pembangunan Daerah Jawa Barat dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT). Perda tersebut dituangkan lebih lanjut pada Akta Pendirian Nomor 4 Tanggal 8 April 1999 juncto Akta Perbaikan Nomor 8 Tanggal 15 April 1999. Keduanya dibuat di hadapan Popy Kuntari Sutresna, S.H., Notaris di Bandung yang

One of the Dutch-owned companies based in Bandung, namely N.V Denis (*De Eerste Nederlandsche Indische Shareholding*), is affected by this provision and directed to the Regional Government of the Provincial Level Region of West Java. The bank began its commercial operation on May 20, 1961.

As a follow up to Government Regulation No. 33 of 1960, the Regional Government of the Provincial Level I of West Java established the Development Work Bank with Noezar Notarial Deed No. 152 March 21, 1961 and No. 184 dated May 13, 1961 which was then confirmed by the Decree of the Governor of West Java Province No. 7/GKDN/BPD/61 dated May 20, 1961 under the name of PT Bank Karya Pembangunan Daerah Djawa Barat. Based on the Regional Regulation of West Java Province No. 11/PD/DPRD/72 dated June 27, 1972, the legal position of PT Bank Karya Pembangunan Daerah in West Java was changed to PD Bank Karja Pembangunan Jawa Barat. The name PD Karja Pembangunan Jawa Barat is subsequently changed to West Java BPD according to West Java Provincial Regulation Number 1/DP-040/PD/1978 dated June 27, 1978. In 1992 according to Bank Indonesia Decree No.25/84/KEP/DIR on November 2, 1992 the status of the West Java BPD increased to a foreign exchange commercial bank. Based on Regional Regulation No. 11 of 1995, West Java BPD has the name Bank Jabar with a new logo.

Based on the Regional Regulation of the Provincial Level I West Java No.22 of 1998 dated December 14, 1998 concerning the Changing the Legal Form of the West Java Regional Development Bank from a Regional Company (PD) to a Limited Liability Company (PT). The Regional Regulation was further outlined in Deed of Establishment Number 4 dated on April 8, 1999 juncto Deed of Amendment Number 8 dated April 15, 1999. Both of them were made before Popy Kuntari

telah memperoleh pengesahan Menteri Kehakiman RI berdasarkan Surat Keputusan No. C2-7103.HT.01.01.TH.99 tanggal 16 April 1999, didaftarkan dalam Daftar Perusahaan di Kantor Pendaftaran Perusahaan Kab/Kodya Bandung di bawah No. 871/BH.10.11/IV/99 tanggal 24 April 1999, serta telah diumumkan dalam Berita Negara Republik Indonesia No.39 tanggal 14 Mei 1999, Tambahan No. 2811, bentuk hukum Bank Jabar diubah dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT).

Untuk memenuhi meningkatnya kebutuhan masyarakat akan jasa layanan perbankan yang berlandaskan syariah, sesuai dengan izin Bank Indonesia No. 2/18/DpG/DPIP Tanggal 12 April 2000 maka sejak tanggal 15 April 2000 Bank Jabar menjadi BPD pertama di Indonesia yang menjalankan *dual banking system*, yaitu memberikan layanan perbankan dengan sistem konvensional dan sistem syariah.

Berdasarkan Rapat Umum Pemegang Saham (RUPS) tanggal 16 April 2001 menyetujui peningkatan modal dasar Bank Jabar menjadi Rp1 triliun. Selanjutnya, berdasarkan hasil keputusan Rapat Umum Pemegang Saham (RUPS) yang diselenggarakan pada tanggal 14 April 2004 berdasarkan Akta No. 10 Tanggal 14 April 2004, modal dasar Bank Jabar dinaikkan dari Rp1 triliun menjadi Rp2 triliun. Melihat perkembangan prospek usaha yang terus membaik, hasil RUPS tanggal 5 April 2006 menetapkan kenaikan modal dasar Bank Jabar dari Rp2 triliun menjadi Rp4 triliun.

Sutresna, SH, a Notary in Bandung who had been approved by the Minister of Justice of the Republic of Indonesia based on Decree No.C2-7103.HT.01.01.TH.99 dated April 16, 1999, was registered in the Company Register at the Bandung District/Kodya Company Registration Office under No.871/BH.10.11/IV/99 dated April 24, 1999, and was announced in the News Negara Republik Indonesia No.39 dated May 14, 1999, Supplement No.2811 the legal form of Bank Jabar was changed from a Regional Company (PD) to a Limited Liability Company (PT).

To meet the increasing needs of the community for sharia-based banking services, in accordance with BI license Number 2/18/DpG/DPIP on April 12, 2000, since April 15, 2000 Bank Jabar became the first BPD in Indonesia to run a dual banking system, namely providing banking services with conventional and sharia systems.

Based on the General Meeting of Shareholders (GMS) on April 16, 2001, the bank approved an increase in authorized capital of Bank Jabar to IDR1 trillion. Furthermore, based on the results of the GMS decision held on April 14, 2004 based on Deed No. 10 dated April 14, 2004, the authorized capital of Bank Jabar was increased from IDR1 trillion to IDR2 trillion. By seeing the development of business prospects which continues to improve, the results of the Annual GMS on April 5, 2006 set an increase in the authorized capital of Bank Jabar from IDR2 trillion to IDR4 trillion.

Pada bulan November 2007, sebagai tindak lanjut SK Gubernur BI No. 9/63/kep.gbi/2007 tentang Perubahan Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat Menjadi Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat dan Banten, dilaksanakan penggantian *call name* dari "Bank Jabar" menjadi "Bank Jabar Banten".

Sehubungan dengan kegiatan usaha perbankan syariah, Bank Jabar Banten melakukan pemisahan (*spin off*) unit usaha syariah menjadi bank syariah dengan nama PT Bank Jabar Banten Syariah. Berdasarkan Akta Pendirian Perseroan Terbatas, PT Bank Jabar Banten Syariah No.4 tanggal 15 Januari 2010, dibuat oleh Fathiah Helmi, S.H., Notaris di Jakarta, bank **bjb** memiliki penyertaan sebanyak 1.980.000.000 (satu miliar sembilan ratus delapan puluh juta) saham yang merupakan 99% (sembilan puluh sembilan persen) dari seluruh saham yang telah ditempatkan dan disetor penuh dalam Anak Perusahaan. PT Bank Jabar Banten Syariah memperoleh izin usaha dari Bank Indonesia sesuai dengan Keputusan Gubernur Bank Indonesia No.12/35/KEP.GBI/2010 tanggal 30 April 2010 Tentang Pemberian Izin Usaha PT Bank Jabar Banten Syariah.

In November 2007, as a follow-up to the Decree of the Governor of BI No. 9/63/kep.gbi/2007 concerning the change of business license on behalf of PT Bank Pembangunan Daerah Jawa Barat to become a business license on behalf of PT Bank Pembangunan Daerah Jawa Barat dan Banten, the call name was changed from "Bank Jabar" to "Bank Jabar Banten"

In connection with sharia banking business activities, Bank Jabar Banten spin off sharia business units into Islamic banks under the name PT Bank Jabar Banten Syariah. Based on the Deed of Establishment of a Limited Liability Company, PT Bank Jabar Banten Syariah No.4 on January 15, 2010, made by Fathiah Helmi, SH, Notary in Jakarta, bank **bjb** has an investment of 1,980,000,000 (one billion nine hundred eighty million) shares which constitute 99% (ninety nine percent) of all shares that have been placed and fully paid in the Subsidiary. Bank Jabar Banten Syariah obtained a business license from Bank Indonesia in accordance with the Decree of the Governor of Bank Indonesia No.12/35/KEP.GBI/2010 dated April 30, 2010 concerning the Granting of a Business License of PT Bank Jabar Banten Syariah.

Seiring dengan perkembangan jaringan kantor yang lebih luas maka berdasarkan Hasil Rapat Umum Pemegang Saham Luar Biasa PT Bank Pembangunan Jawa Barat dan Banten No. 26 tanggal 21 April 2010 dan sesuai Surat Bank Indonesia No. 12/78/APBU/Bd tanggal 30 Juni 2010 perihal Rencana Perubahan Logo Bank serta Surat Keputusan Nomor 1337/SK/DI(R-PPN/2010 tanggal 5 Juli 2010 tentang Perubahan Logo dan Penyebutan Nama Serta Pemberlakuan *Brand Identity Guidelines*, maka pada tanggal 8 Agustus 2010 nama "Bank Jabar Banten" resmi berubah menjadi "bank **bjb**". Pada 8 Juli 2010 bank Bank Jabar Banten mencatatkan saham perdananya (IPO) di Bursa Efek Indonesia dengan kode saham BJBR. Pada Tahun 2021 bank **bjb** memiliki Perusahaan Efek Daerah Pertama. Saat ini **bjb** T-Samsat hanya melayani pembayaran PKB untuk wilayah Jawa Barat, namun sedang dalam proses pengembangan agar dapat melayani pembayaran PKB di wilayah Indonesia lainnya. Untuk memberikan kemudahan, registrasi **bjb** T-Samsat juga dapat dilakukan via aplikasi DIGI by bank **bjb**. Selain itu, terdapat **bjb** Digi Loan adalah aplikasi milik bank **bjb** untuk membantu masyarakat dalam pengajuan produk kredit bank **bjb** melalui ponsel pribadi.

bjb T-SAMSAT is a development of the **bjb** E-Samsat service, which is a motorized vehicle tax (PKB) payment service by means of periodic or annual payments through savings with an automatic debit mechanism when tax payments are due. Currently **bjb** T-Samsat only serves PKB payments for the West Java region, but is in the process of being developed so that it can serve PKB payments in other parts of Indonesia. To provide convenience, **bjb** T-Samsat registration can also be done via the DIGI by bank **bjb** application. In addition, there is **bjb** Digi Loan, which is an application owned by bank **bjb** to assist the public in applying for bank **bjb** loan products via personal cellphones.

Agen Laku Pandai **bjb** BiSA

Agen **bjb** BiSA dapat mengakomodir atau melayani berbagai kebutuhan transaksi perbankan baik nasabah eksisting maupun *walk in costumer* di wilayah remote area. Agen Laku Pandai **bjb** BiSA menggunakan sarana mesin *Electronic Data Capture* (EDC) dan *Mobile Application* untuk dapat bertransaksi secara (*realtime online*) sehingga pelayanan lebih efisien dan fleksibel karena tidak harus datang ke kantor bank yang lokasinya jauh.

Laku Pandai **bjb** BiSA Agent

bjb BiSA Agent can accommodate or serve various banking transaction needs for both existing customers and walk-in customers in remote areas. Laku Pandai **bjb** BiSA Agent utilize Electronic Data Capture (EDC) machines and Mobile Applications to be able to make real time online transactions so that services are more efficient and flexible and they don't have to come to bank offices that are located far away.

Segmentasi individu agen yang direkrut dari perorangan seperti petani, nelayan, perangkat desa, pensiunan, guru, pedagang dan lainnya. Sedangkan kelompok antara lain kelompok tani dan nelayan, Badan Usaha Milik Desa (Bumdes), sekolah, perusahaan dan instansi.

Segmentation of individual agents recruited from individuals such as farmers, fishermen, village officials, retirees, teachers, traders and others. Meanwhile, groups include farmer and fisherman groups, Village-Owned Enterprises (Bumdes), schools, companies and agencies.

Manfaat Agen Laku Pandai itu adalah layanan perbankan menjadi lebih dekat tanpa harus datang ke Kantor Bank. Transaksi perbankan yang dapat dilakukan di Agen **bjb** BiSA antara lain, setor/ tarik tunai, pemindahbukuan antar rekening bank **bjb** maupun transfer antar bank. Selain itu, juga melayani transaksi pembelian maupun pembayaran antara lain, Pajak Bumi Bangunan, Pajak Kendaraan Bermotor, PAM/PDAM, pembelian pulsa dan paket data, top up e-Wallet, pembayaran BPJS Kesehatan/BPJS Ketenagakerjaan, TV Berlangganan, Tiket ASDP dan sebagainya.

The benefit of the Laku Pandai Agent is that banking services are closer without coming to the Bank Office. Banking transactions that can be carried out at the **bjb** BiSA Agent include cash deposits/withdrawals, transfers between **bjb** bank accounts and transfers between banks. Apart from that, it also serves purchase and payment transactions, including, Building Land Tax, Motor Vehicle Tax, PAM/PDAM, purchasing credit and data packages, e-Wallet top ups, BPJS Health/BPJS Employment payments, Pay TV, ASDP Tickets and so on.

Komposisi Dewan Komisaris Setelah RUPS Luar Biasa Tahun 2023

Berdasarkan keputusan Rapat Umum Pemegang Saham (RUPS) Luar Biasa Tahun 2023 pada tanggal 25 Mei 2023, terjadi perubahan komposisi Anggota Dewan Komisaris yaitu:

1. Memberhentikan dengan hormat Muhadi selaku Komisaris Perseroan.
2. Mengangkat anggota Dewan Komisaris Perseroan sebagai berikut:
 - a. Bapak Toms Tohir selaku Komisaris.
 - b. Bapak Rudie Kusmayadi selaku Komisaris.

Perubahan susunan Dewan Komisaris tersebut merupakan bagian dari keputusan Rapat Umum Pemegang Saham bank **bjb** sebagai salah satu upaya untuk lebih meningkatkan kinerja bank **bjb** dengan mengedepankan komposisi Dewan Komisaris secara profesional, independensi, kesesuaian kompetensi dan memperhatikan keberagaman yang dibutuhkan secara tepat dalam pelaksanaan tugas dan tanggung jawab Dewan Komisaris.

Dengan demikian, komposisi Dewan Komisaris setelah RUPS Luar Biasa Tahun 2023 sebanyak 6 (enam) orang yang terdiri dari 1 (satu) Komisaris Utama Independen, 3 (tiga) Komisaris dan 2 (dua) Komisaris Independen. Seluruh Dewan Komisaris berdomisili di wilayah kerja Kantor bank **bjb**. Komposisi dan dasar pengangkatan Dewan Komisaris dapat dilihat pada tabel di bawah ini.

Composition of The Board of Commissioners After The 2023 Extraordinary GMS

Based on the decision of the 2023 Extraordinary General Meeting of Shareholders (GMS) on May 25, 2023, there was a change in the composition of the members of the Board of Commissioners, namely:

1. Respectfully dismissed Muhadi as a Commissioner of the Company.
2. Appointed members of the Company's Board of Commissioners as follows:
 - a. Mr. Toms Tohir as Commissioner.
 - b. Mr. Rudie Kusmayadi as Commissioner.

The change in the composition of the Board of Commissioners was part of the decision of the General Meeting of Shareholders of bank **bjb** as an effort to further improve bank **bjb**'s performance by prioritizing the composition of the Board of Commissioners in a professional manner, independence, suitability of competence, and proper attention to the diversity required in the implementation of the Board of Commissioners' duties and responsibilities.

Thus, the composition of the Board of Commissioners after the 2023 Extraordinary GMS was 6 (six) people consisting of 1 (one) Independent Main Commissioner, 3 (three) Commissioners, and 2 (two) Independent Commissioners. The entire Board of Commissioners was domiciled in working area bank **bjb** Office. The composition and basis for appointment of the Board of Commissioners can be seen in the table below.

Analisis Perekonomian Global

Pertumbuhan ekonomi global melemah dan disertai divergensi pertumbuhan antar negara yang semakin melebar. Sementara itu, negara berkembang (*Emerging Market and Developing Economies/EMDEs*) tumbuh di atas pertumbuhan ekonomi global (*World*) dan negara maju (*Advance Economies/AE*) dengan pertumbuhan 4,1% sedangkan ekonomi global tahun 2023 tumbuh sebesar 3,1%, lebih rendah dibandingkan dengan tahun 2022 yang sebesar 3,5%.

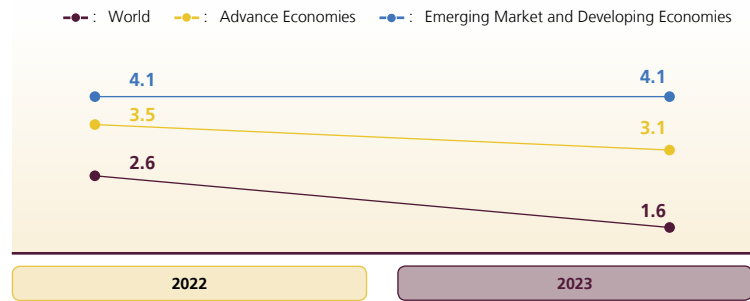

Global Economic Analysis

Global economic growth destabilized and was accompanied by divergence in inter-countries wider growth. Additionally, developing countries (*Emerging Market and Developing Economies / EMDEs*) were growing above global economic growth (*World*) and developed countries (*Advanced Economies /AE*) with growth of 4.1%, while the global economy would grow by 3% in 2023. It was 1% lower than in 2022, which was 3.5%.

Meningkatnya ketegangan geopolitik mendorong harga energi dan pangan meningkat sehingga mengakibatkan tetap tingginya inflasi global. Untuk mengendalikan inflasi, suku bunga kebijakan moneter di negara maju, termasuk Federal Funds Rate (FFR), diperkirakan akan tetap bertahan tinggi dalam jangka waktu yang lebih lama (*higher for longer*). Kenaikan suku bunga global diperkirakan akan diikuti pada tenor jangka panjang dengan kenaikan *yield* obligasi Pemerintah negara maju, khususnya Amerika Serikat (*US Treasury*), akibat peningkatan kebutuhan pembiayaan utang Pemerintah, dan kenaikan premi risiko jangka panjang. Berbagai perkembangan tersebut mendorong pembalikan arus modal dari negara berkembang ke negara maju dan ke aset yang lebih likuid, yang mengakibatkan dolar Amerika Serikat (AS) menguat secara tajam terhadap berbagai mata uang dunia. Ketidakpastian ekonomi dan keuangan global semakin tinggi karena terjadi bersamaan dengan meningkatnya ketegangan geopolitik. Selain itu, terdapat divergensi pemulihan yang semakin lebar pada perekonomian antar kawasan. Faktor risiko secara umum bersumber dari tingkat inflasi yang masih di atas target, pelemahan ekonomi Tiongkok, volatilitas harga komoditas, peningkatan fragmentasi ekonomi global, serta peningkatan kerentanan utang.

Intensifying geopolitical tensions driven energy and food prices to increase, resulting in persistently high global inflation. To control inflation, monetary policy of interest rates in developed countries, including the Federal Funds Rate (FFR), were predicted to remain high for long-term period (*higher for longer*). The increase in global interest rates was expected to be followed in long-term tenors by an increase in government bond yields in developed countries, particularly the United States (*US Treasury*) due to increased needs for government debt financing, and an increase in long-term risk premiums. These various developments encouraged a reversal of capital flows from developing countries to developed countries and to more liquid assets, which resulted in the United States (US) dollar, strengthening sharply against various world currencies. Global economic and financial uncertainty was increasing because it coincided with increasing geopolitical tensions. In addition, there was a widening divergence in recovery of inter-regions' economy. Risk factors generally originated from the inflation rate, which was still above the target, the declining of the Chinese economy, volatility in commodity prices, increasing fragmentation of the global economy, and increasing debt vulnerability.

Sedangkan dari sisi inflasi global, penurunan inflasi dunia berjalan lambat di tengah pengetatan kebijakan moneter bank sentral di banyak negara. Setelah mencapai puncaknya sebesar 11,6% pada kuartal kedua tahun 2022, inflasi dunia turun menjadi 5,6% pada Oktober 2023, dengan inflasi negara maju tercatat 3,5% sementara inflasi negara *Emerging Market and Developing Economies* (EMDEs) tercatat 7,6%. Penurunan inflasi sejalan dengan penurunan harga energi dan pangan dan dampak dari pengetatan kebijakan moneter bank sentral di banyak negara. Meski demikian, inflasi di negara-negara maju masih jauh di atas sasaran yang ingin dicapai yaitu 2%, sedangkan di kebanyakan negara EMDEs telah di bawah sasaran. Di Amerika Serikat (AS), misalnya, inflasi masih tinggi yaitu sekitar 3,0% pada akhir 2023 dan menurun ke 2,6% pada akhir 2024. Demikian pula di Uni Eropa dan Inggris, inflasi masih sekitar 3,3% dan 5,2% pada akhir 2023 dan kemudian menurun ke sekitar 2,7% dan 2,4% pada akhir 2024. Sementara itu, di negara EMDEs, sejumlah negara inflasinya masih di atas sasaran, termasuk Brazil dan Meksiko di Amerika Latin serta Filipina di Asia. Negara-negara EMDEs lain telah mampu menurunkan inflasinya kembali ke sasaran, termasuk Indonesia. Perkembangan di atas menunjukkan bahwa pengetatan moneter oleh bank-bank sentral negara maju masih akan berlanjut pada tahun 2024 untuk memastikan kembalinya inflasi ke sasaran yaitu 2%. Kondisi ini mempersulit bank-bank sentral negara EMDEs untuk mengarahkan kebijakan moneternya ke tujuan ekonomi domestik, khususnya stabilitas harga dan pertumbuhan, karena keharusan mempertahankan stabilitas eksternal dari dampak negatif tingginya suku bunga global tersebut.

Meanwhile, in terms of global inflation, the decline in world inflation had been slow amid tightening central bank monetary policy in many countries. After reaching its height of 11.6% in Quarter II-2022, world inflation plunged to 5.6% in October 2023, with inflation in developed countries recorded at 3.5%, while inflation in Emerging Market and Developing Economies (EMDEs) countries was recorded at 7.6%. The decline in inflation was in line with the decline in energy and food prices and the impact of tightening central bank monetary policy in many countries. However, inflation in developed countries was still far above the target of 2%, while in most EMDEs, it was below the target. In the United States (US), for example, inflation was still high, such as around 3.0% at the end of 2023 and would decline to 2.6% at the end of 2024. Similarly, in the European Union and the UK, inflation was still around 3.3% and 5.0% at the end of 2023 and decreased to around 2.7% and 2.4% at the end of 2024. Accordingly, in EMDEs, a number of countries' inflation was still above target, including Brazil and Mexico in Latin America and the Philippines in Asia. Other EMDEs had been able to reduce inflation back to target, including Indonesia. The developments depicted above indicates that monetary tightening by central banks in developed countries would continue in 2024 to ensure inflation returns to the target of 2%. This condition caused difficulty for central banks in EMDE countries to direct their monetary policy towards domestic economic goals, especially price stability and growth due to the need to maintain external stability from the negative impact of high global interest rates.

Analisis Industri Perbankan

Sektor perbankan mampu menunjukkan resiliensi dengan permodalan yang tinggi dan kinerja intermediasi yang tetap positif. Dampak risiko suku bunga acuan yang tinggi secara global dan dapat berlangsung lebih lama (*higher for longer*) bagi perbankan dalam negeri masih terjaga dan terkendali seiring fleksibilitas ruang penyesuaian suku bunga yang masih cukup besar bagi perbankan. Sejumlah indikator utama perbankan seperti pertumbuhan total DPK dan kredit bank umum mencatatkan pertumbuhan yang positif walaupun mengalami perlambatan.

Pertumbuhan Dana Pihak Ketiga (DPK) tercatat sebesar 3,04% (yoy) pada November 2023, sedangkan kredit perbankan tumbuh 9,74% (yoy), lebih tinggi dibandingkan dengan pertumbuhan pada bulan sebelumnya yaitu 8,99% (yoy). Peningkatan kredit/pembiayaan didorong oleh peningkatan permintaan kredit sejalan dengan tetap terjaganya kinerja korporasi dan rumah tangga. Secara sektoral, pertumbuhan kredit terutama ditopang oleh sektor Perdagangan, Industri, dan Jasa Dunia Usaha. Pembiayaan syariah pada November 2023 juga tumbuh sebesar 14,12% (yoy), sementara pertumbuhan kredit UMKM mencapai 8,46% (yoy). Pertumbuhan kredit UMKM tersebut terutama didukung oleh sektor Perdagangan, Pertanian, dan Jasa Sosial. Kualitas kredit Bank Umum tetap terjaga dengan rasio NPL *gross* November 2023 sebesar 2,36%. Selanjutnya kondisi industri perbankan Indonesia tetap solid dan resilien dengan ditopang tingkat permodalan/*Capital Adequacy Ratio* November yang tinggi sebesar 27,86%.

Banking Industry Analysis

The banking sector could demonstrate resilience with high capital and intermediation performance that remained positive. The impact of the risk of high benchmark interest rates globally and last longer (*higher for longer*) for domestic banks was still maintained and under control as the flexibility of interest rate adjustment space was still quite large for banks. A number of main banking indicators such as total growth in deposits and commercial bank credit recorded positive growth, while experiencing a retard.

Growth in Third Party Funds (DPK) was recorded at 3.04% (yoy) in November 2023, while banking credit grew 9.74% (yoy), higher than the growth in the previous month, such as 8.99% (yoy). The increase in credit/financing was driven by increased demand for credit in line with the maintained corporate and household performance. In terms of sectoral, credit growth was mainly supported by the Trade, Industry and Business Services sectors. Sharia financing in November 2023 also grew by 14.12% (yoy), while MSME credit growth reached 8.46% (yoy). Aset bank **bjb** per November 2022 mengalami pertumbuhan sebesar 0,77%, lebih rendah dibandingkan pertumbuhan aset BPD per November 2023 yang sebesar 2,94% dan Bank Umum yang tumbuh sebesar 5,09%. Demikian pula dengan kredit bank **bjb** per November 2023 yang tumbuh sebesar 5,71%, lebih rendah dibandingkan BPD per November 2023 yang tumbuh sebesar 7,92% dan Bank Umum yang sebesar 9,74%.

bank **bjb**'s assets as of November 2022 experienced growth of 0.77 %, lower than the growth of BPD's assets as of November 2023, which was 2.94 % and Commercial Banks, which grew by 5.09 %. Similarly, bank **bjb**'s credit as of November 202 3 grew by 5.71 %, lower than BPD's credit as of November 202 3, which grew by 7.92 % and Commercial Banks, which improved by 9.74%.

Pendapatan bunga bersih bank **bjb** per November 2023 mencatatkan pertumbuhan negatif sebesar 14,30% yang lebih rendah dibandingkan dengan pendapatan bunga bersih BPD per November 2023 yang tumbuh sebesar 0,94%, dan pertumbuhan Bank Umum per November 2023 yang sebesar 9,42%. Laba bersih bank **bjb** per November 2023 juga menunjukkan penurunan dari November 2022 sebesar 19,23% demikian pula dengan pertumbuhan BPD yang mencatatkan pertumbuhan negatif sebesar 13,44%. Penurunan pertumbuhan pendapatan bunga bersih dan laba bersih bank **bjb** pada November 2023 terhadap BPD dan Bank Lain disebabkan adanya penghimpunan dana mahal yang diakibatkan dampak dari peningkatan BI-Rate. Selain itu peningkatan kredit yang lebih kecil dibanding BPD Lain dan Bank Umum sehingga tidak dapat mengoptimalkan pendapatan bunga.

Perbandingan rasio bank **bjb** dibanding rata-rata BPD dan Bank Umum disajikan dalam tabel di bawah ini.

Net interest income as of November 2023 recorded negative growth of 14.30 %, which was lower than BPD's net interest income as of November 202 3, which increased by 0.94 %, and Commercial Banks' growth as of November 202 3, which amounted to 9.42 %. bank **bjb**'s net profit as of November 202 3 also showed a decline from November 2022 as of 19.23 % as well as BPD's growth, which recorded negative growth of 13.44%. The decline in the growth of net interest income and net income of bank **bjb** in November 2023 against Regional Development Banks and other banks was due to the raising of high cost funds due to the impact of increasing BI-Rate. In addition, an increase in loan is lower than other Regional Development Banks and commercial banks cause the interest income to be not optimal.

Comparison of bank **bjb**'s ratios compared to the average for BPD and Commercial Banks is presented in the following table.

Bank Strategy

Bank's Policy Direction

Entering the final year of phase II (*portfolio optimization*) in 2023, bank **bjb** would continue the initiative of digitizing tools per segment, acquiring retail funding and optimizing productive credit. The role of system intelligence (*analytics*) continued to be enhanced so that it could provide support in designing customer profiling and monitoring through the use of data analytic.

Berdasarkan *roadmap* di tahun 2023, bank **bjb** memasuki fase II (*portfolio optimization*) akhir menuju fase III (*sustainable growth*). Fase *portfolio optimization* di tahun 2023 akan menjadi pondasi untuk fase berikutnya. Untuk itu, digitalisasi *tools* per segmen, akuisisi *funding ritel* dan optimalisasi kredit produktif akan dioptimalkan pada tahun 2023.

bank **bjb** memiliki potensi yang besar untuk menjadikan bisnis komersial dan UMKM sebagai pendorong pertumbuhan kredit produktif. Selain akselerasi pertumbuhan kredit produktif, salah satu target portofolio bank **bjb** adalah peningkatan *funding ritel* melalui peningkatan peran digitalisasi dalam layanan perbankan.

Strategi Jangka Pendek

Uraian strategi jangka pendek bank **bjb** adalah sebagai berikut.

1. **Ekspansi Kredit Secara Selektif dengan Mengoptimalkan Ekosistem Bisnis**
 - a. **Pertumbuhan Kredit Yang Sehat dan Berkelanjutan**
 - Meningkatkan layanan melalui pengembangan digitalisasi proses kredit dengan penguatan mitigasi risiko.

- Pengembangan sistem informasi pengelolaan program APU PPT sesuai kebutuhan bisnis dan digitalisasi layanan.
- Pengelolaan risiko dan kepatuhan yang efektif dalam mendukung KUB dan konglomerasi keuangan.

Strategi Jangka Menengah dan Jangka Panjang

Strategi jangka menengah dan jangka panjang disesuaikan dengan arah kebijakan bank **bjb** yang meliputi fase II dan fase III. Dalam mencapai target keuangan dan portofolio di tahun 2025 bank **bjb** dihadapkan beberapa *key challenges* yaitu pada segmen *lending* kredit bank **bjb** masih bertumpu pada kredit konsumen ASN dan belum optimalnya sinergi antar divisi dalam peningkatan kredit produktif, pada segmen *funding* komposisi *funding* bank **bjb** masih didominasi oleh nasabah institusi dan rendahnya penetrasi *digital* khususnya *mobile banking* bank **bjb**.

1. Kredit

Untuk mencapai target keuangan 2025 bank **bjb** perlu mengakselerasi pertumbuhan kredit produktif sebesar 25% dan optimalisasi pertumbuhan kredit konsumtif sebesar 6%. Hal ini dikarenakan *market* kredit konsumen (khususnya ASN) sudah menuju fase *mature* dan terbatas, sehingga bank **bjb** hanya perlu mengoptimalkan kredit konsumen, *market* kredit produktif masih memiliki potensi yang besar sehingga bank **bjb** perlu mengakselerasi pertumbuhan kredit produktif sebagai *main engine growth* demi mencapai target keuangan 2025.

2. Funding

Untuk mengoptimalkan *cost of fund* dan pemenuhan NSFR bank **bjb** harus memprioritaskan *funding* ritel dan CASA untuk pemenuhan target *funding*. Hal ini dikarenakan persentase CASA berpengaruh terhadap persentase *cost of fund* dan persentase *funding ritel* berpengaruh terhadap persentase NSFR.

- Supporting project management life cycle on time, on target and effectively in producing strategic projects.

7. Strengthen **Governance, Risk and Compliance (GRC)** to Support Business

- Berperan aktif membantu perusahaan dalam mencapai tujuan dengan pendekatan yang sistematis dan konsisten melalui peningkatan kualitas tata kelola, kepatuhan dan manajemen risiko.
- Pengembangan metodologi manajemen risiko guna mendukung aktivitas bisnis dan permodalan bank.
- Meningkatkan efektifitas sistem pengendalian internal untuk mendukung bisnis.
- Mengembangkan *compliance management system* untuk penguatan *risk and compliance awareness*.
- Pengembangan sistem informasi pengelolaan program APU PPT sesuai kebutuhan bisnis dan digitalisasi layanan.
- Pengelolaan risiko dan kepatuhan yang efektif dalam mendukung KUB dan konglomerasi keuangan.

Medium and Long Term Strategy

Medium and long-term strategies are adjusted in accordance with the direction of bank **bjb**'s policies, which include phase II and III. In achieving the financial and portfolio targets in 2025, bank **bjb** faces several key challenges, namely in the lending segment where bank **bjb**'s credit still relies on ASN consumer loans and the lack of synergy between divisions in increasing productive loans, in the funding segment, the composition of bank **bjb**'s funding is still dominated by institutional customers, and there is low digital penetration, especially in mobile banking at bank **bjb**.

1. Loans

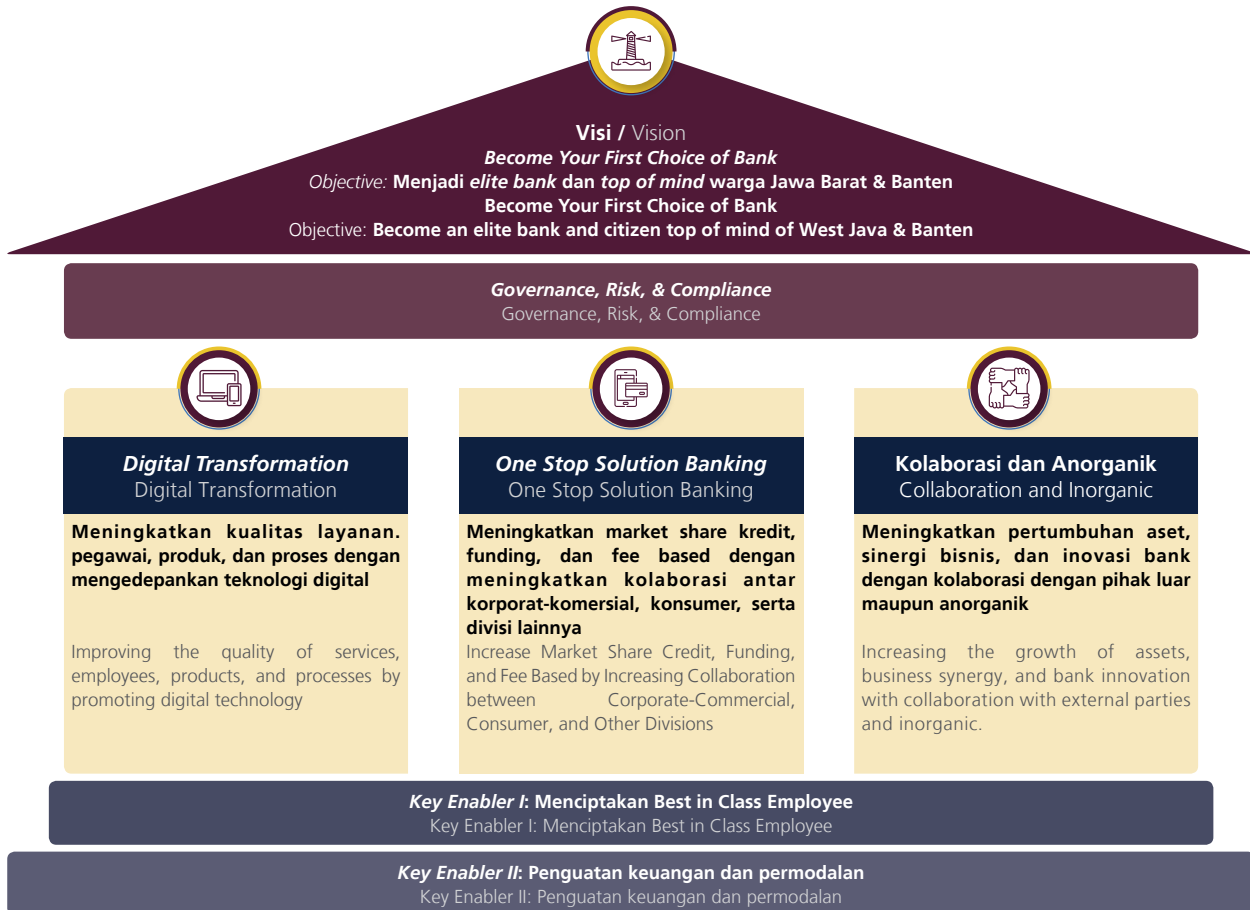

To achieve the financial target in 2025, bank **bjb** needs to accelerate the growth of productive credit by 25% and optimize the growth of consumer credit by 6%. This is because the consumer credit market (especially ASN) is approaching a mature and limited phase, so bank **bjb** only needs to optimize consumer credit, the productive credit market still has great potential, so bank **bjb** needs to accelerate the growth of productive credit as the main engine for growth to achieve the 2025 financial target.

2. Funding

To optimize the cost of funds and meet NSFR requirements, bank **bjb** must prioritize retail funding and CASA to meet funding targets. This is because the percentage of CASA affects the percentage of the cost of funds, and the percentage of retail funding affects the percentage of NSFR.

Dalam mencapai target *positioning* sebagai elit bank, target keuangan, dan juga target portofolio yang telah dijabarkan sebelumnya, bank **bjb** akan menerapkan strategi korporasi yang diilustrasikan melalui *strategy house* bank **bjb** berikut ini.

In achieving the target positioning as an elite bank, financial targets, and portfolio targets as outlined earlier, bank **bjb** will implement a corporate strategy illustrated through the bank **bjb**'s strategy house as follows.

Strategi korporasi bank **bjb** terdiri dari 3 (tiga) pilar strategi bisnis dan 2 (dua) fondasi strategi *enabler*. Masing - masing penjelasan terkait pilar strategi adalah sebagai berikut:

Pilar I – Digital Transformation

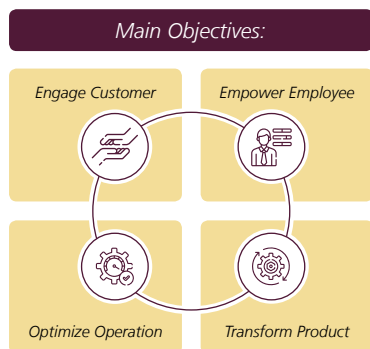

Pada pilar *digital transformation*, bank **bjb** memiliki empat tujuan utama yang ingin dicapai pada tahun 2025 yaitu: (i) meningkatkan engagement kepada nasabah; (ii) memperkuat kinerja pegawai; (iii) transformasi produk dan layanan digital; dan (iv) optimalisasi operasional. Dalam mencapai empat tujuan tersebut bank **bjb** perlu melakukan *digital transformation* yang terdiri dari tiga level transformasi, digitalisasi *core*, menciptakan *system intelligence* (*analytics*), dan menciptakan *digital ecosystem*. Ilustrasi terkait *digital transformation* dapat dilihat pada gambar di bawah ini.

Bank **bjb**'s corporate strategy consists of 3 (three) business strategy pillars and 2 (two) enabler strategy foundations. Each explanation related to the strategy pillars is as follows:

Pilar I – Digital Transformation

In the digital transformation pillar, bank **bjb** has four main objectives to be achieved by 2025: (i) increasing engagement with customers; (ii) strengthening employee performance; (iii) transforming digital products and services; and (iv) optimizing operations. To achieve these four objectives, bank **bjb** needs to undergo digital transformation consisting of three levels of transformation: core digitalization, creating system intelligence (*analytics*), and creating a digital ecosystem. Illustrations related to digital transformation can be seen in the image below.

Gambar Level Digital Transformation bjb

Level 3
Digital Ecosystem
Menciptakan ekosistem digital pada pelanggan dengan tujuan meningkatkan *engagement* produk dan layanan **bjb**
eCommerce, **bjb** *dig*i, Digital Kredit, Unbank Potential

Level 2
Digital System Intelligence
Memfaatkan *analytics* dalam melakukan *decision making* dan mendapatkan *feedback (loop)* dalam pengembangan kontinu
Big Data, Integrated Customer Analytics, Push & Digital Marketing, Long Tail Search Engine Optimization

Level 1
Digitizing Core
Melakukan digitalisasi proses bisnis inti, memperkuat IT infra, dan digital culture saat ini seperti monitoring tools, proses transaksi, dll
Leads management system, Sales Tools, Loan Monitoring Digital, Penguatan IT Infra, Agile Working Method

Pilar II – One Stop Solution Banking

Pada pilar *one stop solution banking*, bank **bjb** perlu untuk meningkatkan potensi *cross selling* baik ke nasabah turunan melalui *value chain* maupun ke produk turunannya. Dalam menjalankan *one stop solution banking*, bank **bjb** perlu menerapkan 4 (empat) inisiatif:

1. Menjalankan System Account Planning

Account planning merupakan kegiatan rutin yang bertujuan untuk mengidentifikasi peluang potensi *cross selling* melalui *wallet size analysis* dan *value chain analysis*. Umumnya *account planning* terdiri dari empat kegiatan utama:

- a. *Data collection*: Pengumpulan data *cross* divisi untuk memetakan overall relationship dan profitability nasabah.
- b. *wallet sizing* dan *value chain analysis*: melakukan analisa peluang *cross selling* baik secara vertikal maupun horizontal.
- c. Penentuan target dan rencana aksi: melakukan penetapan target dan lintas divisi.
- d. *Monitoring* dan *engagement*: melakukan implementasi rencana dan *monitoring*.

2. Membentuk Unit Kerja Account Solution

Dalam memastikan keberjalanan sistem *account planning*, diperlukan sebuah unit/divisi yang bertugas dalam mengakomodir dan mengkoordinir kegiatan *account planning* yang bersifat lintas divisi. Unit *account solution* akan berperan dalam mengkoordinir kegiatan *account planning* dan *supporting* dalam pengumpulan data, *wallet sizing*, *value chain analysis*, dan *monitoring* rencana aksi. Berdasarkan kondisi **bjb** saat ini, unit kerja *account solution* diusulkan didirikan dalam bentuk unit kerja yang berada pada Direktorat Komersial dan UMKM.

Pilar II – One Stop Solution Banking

In the one-stop solution banking pillar, bank **bjb** needs to increase cross-selling potential both to derivative customers through the value chain and to their derivative products. In implementing one-stop solution banking, bank **bjb** needs to implement 4 (four) initiatives:

1. Implementing Account Planning System

Account planning is a routine activity aimed at identifying cross-selling potential through *wallet size analysis* and *value chain analysis*. *Account planning* generally consists of four main activities:

- a. *Data collection*: Cross-division data collection to map overall customer relationships and profitability.
- b. *wallet sizing* and *value chain analysis*: analyzing cross-selling opportunities vertically and horizontally.
- c. *Target setting* and *action planning*: setting targets and cross-division plans.
- d. *Monitoring* and *engagement*: setting targets and cross division plans.

2. Establishing Account Solution Work Unit

To ensure the smooth running of the *account planning* system, a unit/ division is needed to accommodate and coordinate cross-divisional *account planning* activities. The *account solution* unit will be responsible for coordinating *account planning* activities and supporting data collection, *wallet sizing*, *value chain analysis*, and *action plan* monitoring. Based on **bjb**'s current condition, the *account solution* work unit is proposed to be established in the form of a work unit under the Commercial and SME Directorate.

3. Menerapkan Model *Sales Hunter – Farmer* Melalui AO Senior dan AO Junior

Dengan berjalannya *system one stop solution*, diperlukan sebuah peran *sales* yang mampu menjaga *overall relationship* dalam memahami kebutuhan nasabah dan turunannya serta mampu menawarkan produk atau layanan melalui *cross selling*. Munculnya kebutuhan tersebut mendorong perlunya penerapan model *sales hunter – farmer*. Dimana peran *farmer* akan dimiliki oleh *Junior AO* yang nantinya akan didukung langsung oleh unit *account solution* dalam memberikan gambaran mengenai kebutuhan dan *overall relationship* maupun *profitability* seorang nasabah

4. Penyesuaian *Shared KPI Product Holding*

Salah satu faktor kunci keberhasilan menjadi *one stop solution banking* adalah dengan terlibat aktifnya semua peran baik dari *top management level* hingga *working level* dan baik dari direktorat bisnis maupun *supporting*. Oleh karena itu dalam menuju satu tujuan bersama, *sharing KPI product holding* merupakan *key enabler* keberhasilan *one stop solution banking bjb*.

Pilar III – Kolaborasi dan Anorganik

Dalam menunjang target pertumbuhan aset dan bisnis, bank **bjb** perlu melakukan kolaborasi dengan pihak ketiga serta akuisisi anak usaha.

1. Kolaborasi

Terdapat beberapa peluang kolaborasi yang dapat meningkatkan sinergi bisnis bank **bjb** seperti kolaborasi dengan perusahaan *fintech* dalam rangka perluasan kanal, BPR, dan *asset management company* serta *debt collection agency* dalam rangka penyelesaian kredit hapus buku.

2. Akuisisi Anak Usaha

Berdasarkan kondisi saat ini dan kebutuhan bisnis bank **bjb**, akuisisi anak usaha modal ventura *digital* dan pialang asuransi merupakan opsi strategi anorganik yang sesuai bank **bjb** dalam mencapai target keuangan maupun bisnis di tahun 2025.

Fondasi I – Menciptakan *Best in Class Employee*

Terdapat empat pilar penguatan *human capital* yang bank **bjb** perlu lakukan yaitu: (i) *Capacity fulfillment strategy*; (ii) *capability development*; (iii) *performance management*; dan (iv) struktur organisasi.

3. Implementing *Sales Hunter – Farmer Model* Through Senior AO and Junior AO

With the operation of the one-stop solution system, a sales role is needed to maintain overall relationships in understanding customer needs and derivatives and to offer products or services through cross-selling. The emergence of this need drives the need for the implementation of the sales hunter – farmer model. Where the farmer role will be owned by Junior AOs who will be directly supported by the account solution unit in providing an overview of the needs and overall relationship and profitability of a customer.

4. Adjustment of *Shared KPI Product Holding*

One of the key success factors in becoming a one-stop solution banking is the active involvement of all roles from top management level to working level and from business directorates to supporting roles. Therefore, towards a common goal, sharing KPI product holding is a key enabler of the success of **bjb's** one-stop solution banking.

Pilar III – Collaboration and Inorganic Growth

To support asset and business growth targets, bank **bjb** needs to collaborate with third parties and acquire subsidiaries.

1. Collaboration

There are several collaboration opportunities that can enhance bank **bjb's** business synergy such as collaboration with *fintech* companies to expand channels, BPR, and asset management companies, as well as debt collection agencies for non-performing loan settlement.

2. Subsidiary Acquisition

Based on the current condition and business needs of bank **bjb**, acquiring subsidiaries such as digital venture capital and insurance brokers is an inorganic strategic option suitable for bank **bjb** in achieving financial and business targets in 2025.

Foundation I – Creating *Best in Class Employee*

There are four pillars of human capital strengthening that bank **bjb** needs to undertake: (i) *Capacity fulfillment strategy*; (ii) *capability development*; (iii) *performance management*; and (iv) organizational structure.

Gambar Fondasi Strategi *Human Capital* bjb

Picture of Foundation of bjb Human Capital Strategy

Fondasi II – Penguatan Keuangan dan Permodalan

Dalam mendukung target pertumbuhan aset bank **bjb** di tahun 2025 dan pemenuhan kebutuhan rasio keuangan yang sehat, **bjb** perlu melakukan strategi permodalan yang terdiri dari beberapa opsi: (i) *right issue* dan (ii) *sub-debt* (obligasi subordinasi).

Foundation II – Strengthening Finance and Capital

In supporting bank **bjb**'s asset growth target in 2025 and meeting the needs of a healthy financial ratio, **bjb** needs to implement a capital strategy consisting of several options: (i) right issue and (ii) sub-debt (subordinated bonds).

Aspek Pemasaran

Dalam menjalankan kegiatan usahanya, bank **bjb** menghadapi pesaing yang memiliki kegiatan usaha yang sejenis. Oleh karena itu, bank **bjb** senantiasa meningkatkan mutu pelayanan dan strategi pemasaran yang efektif menghadapi pertumbuhan kebutuhan nasabah yang semakin bervariasi. Aspek pemasaran meliputi strategi pemasaran dan pangsa pasar produk bank **bjb**.

Strategi Pemasaran *Treasury* Tahun 2023

Target pasar produk *Treasury* adalah nasabah perorangan dan non perorangan yang terbagi berdasarkan kebutuhan produk yang ditawarkan. Produk **bjb** obligasi ritel menasar nasabah perorangan dan non-perorangan yang memiliki ketertarikan berinvestasi pada surat berharga, baik produk SBN Ritel di pasar perdana maupun produk obligasi lainnya di pasar sekunder. Sedangkan produk **bjb** *foreign exchange* menasar nasabah perorangan dan non perorangan yang memiliki kebutuhan atas transaksi valuta asing. **bjb** *foreign exchange* dapat memenuhi kebutuhan transaksi valas nasabah berupa transaksi tunai maupun non tunai.

Marketing Strategy of *Treasury* In 2023

The target market for Treasury products is individual and non-individual customers who are divided based on the needs of the products offered. The **bjb** retail bond product targets individual and non-individual customers who are interested in investing in securities, both Retail SBN products in the primary market and other bond products in the secondary market. Meanwhile, **bjb** foreign exchange products target individual and non-individual customers who have a need for foreign exchange transactions. **bjb** foreign exchange can meet customers' foreign exchange transaction needs in the form of both cash and non-cash transactions.

Strategi Pemasaran Dana Pensiun Lembaga Keuangan (DPLK) Tahun 2023

Target pasar DPLK bank **bjb** terdiri dari calon peserta pemberi kerja dan peserta mandiri/individu. Dalam percepatan peningkatan dana kelolaan DPLK, calon peserta pemberi kerja merupakan potensi terbesar. Namun secara umum, individu merupakan pasar utama bagi DPLK bank **bjb**, besarnya *captive market* bank **bjb** di sektor retail dan konsumen serta kedekatan hubungan dengan pemerintahan daerah merupakan kekuatan yang dapat dimanfaatkan DPLK bank **bjb** dalam melakukan pemasaran produk DPLK. Hal tersebut merupakan salah satu dasar penyusunan strategi pemasaran DPLK bank **bjb** yang menitikberatkan pada peningkatan kerjasama dengan pemerintahan di wilayah Jawa Barat dan seluruh Indonesia. Selain itu pekerja di sektor informal pun juga menjadi sasaran pemasaran dari DPLK bank **bjb**. Adapun beberapa strategi yang diterapkan DPLK bank **bjb** di tahun 2023 adalah sebagai berikut:

1. Memperkuat *branding* DPLK bank **bjb** diseluruh Wilayah Kerja jaringan kantor bank **bjb** dalam rangka meningkatkan jumlah kepesertaan, dimana hal ini dilakukan nya *launching call name (re-branding)* DPLK bank **bjb** menjadi "**bjb** siap".
2. Meningkatkan program *marketing* untuk memperluas pasar melalui literasi dan inklusi sesuai dengan potensi calon peserta Millennial dan Gen-Z.
3. Optimalisasi penetrasi ke *potensial customer* dan *captive market (existing customer)* bank **bjb**
4. Meningkatkan program pemasaran dan kolaborasi dengan pendiri untuk menjadikan DPLK sebagai rantai produk bank **bjb**.

Marketing Strategy of Financial Institution Pension Funds (DPLK) in 2023

bank **bjb's** DPLK target market consists of employer participants and independent/individual participants. In accelerating the increase of DPLK managed funds, employer participants represent the greatest potential. However, in general, individuals are the main market for bank **bjb's** DPLK. The size of bank **bjb's** captive market in the retail and consumer sectors as well as close relationships with regional governments are the strengths that bank **bjb's** DPLK can utilize in marketing DPLK products. This is one of the bases for preparing bank **bjb's** DPLK marketing strategy focusing on the increase of cooperation with the government of West Java and other regionals. Apart from that, workers in the informal sector are also the marketing targets of bank **bjb's** DPLK. Several strategies implemented by bank **bjb's** DPLK in 2023 are as follows:

1. Strengthening the branding of bank **bjb's** DPLK in all working areas of bank **bjb** office network in order to increase the number of participants, where this was done by launching the call name (re-branding) bank **bjb's** DPLK to "**bjb** ready".
2. Improving marketing programs to expand the market through literacy and inclusion according to the potency of Millennial and Gen-Z participant candidates.
3. Optimizing penetration into potential customers and captive markets (existing customers) of bank **bjb**
4. Improving marketing programs and collaboration with founders to make DPLK as bank **bjb** product chain.

Marekt Share

Market share analysis is classified based on the number of assets owned, the amount of third parties funds collected, and the amount of loans granted. bank **bjb** faces market competition with the Regional Development Bank (BPD) which is presented as follows

Berdasarkan jumlah aset, penguasaan pasar bank **bjb** terhadap BPD per November 2023 mencapai 17,39% mengalami penurunan dibandingkan dengan per November 2022 yang mencapai 17,76%. Dari sisi jumlah dana pihak ketiga pangsa pasar bank **bjb** per November 2023 mencapai 16,56% yang meningkat dibandingkan dengan per November 2022 yang mencapai 16,43%. Pangsa pasar jumlah kredit yang diberikan per November 2023 bank **bjb** mencapai 18,94% mengalami penurunan dibandingkan dengan per Oktober 2022 yang mencapai 19,34%. Penurunan pangsa pasar total aset yang tergambar pada penurunan pangsa pasar total kredit terhadap BPD lain itu disebabkan karena penghimpunan dana yang terbatas disebabkan peningkatan *BI-Rate* sehingga berdampak juga kepada ekspansi kredit yang tidak terlalu masif.

Based on total assets, bank **bjb**'s market control of BPD per November 2023 reached 17.39%, a decrease compared to per November 2022 at 17.76%. In terms of the amount of third party funds, bank **bjb**'s market share per November 2023 gained 16.56%, which has increased compared to November 2022 at 16.43%. The market share in the amount of credit provided per November 2023 by bank **bjb** achieved 18.94%, a decrease compared to per October 2022 at 19.34%. The decline in the total market share of assets illustrated in the decline in total loan market share of other Regional Development Banks was due to limited funding due to an increase in the *BI Rate* so that it also had an impact on credit expansion that was not too massive.

Selain menghadapi persaingan di dengan BPD, bank **bjb** juga menghadapi persaingan dengan Bank Umum. Pangsa pasar bank **bjb** berdasarkan jumlah aset, jumlah dana pihak ketiga, dan jumlah kredit yang diberikan diuraikan sebagai berikut.

Beside facing competition at BPD, bank **bjb** also faces competition with the Commercial Bank. bank **bjb** market share based on total assets, total third parties funds, and total loans are described as follows.

Di tengah ketatnya persaingan pada BPD, bank **bjb** juga menghadapi persaingan dengan Bank Umum di Indonesia. Berdasarkan jumlah aset per November 2023, pangsa pasar masih mengalami sedikit penurunan menjadi 1,48%. Disisi lain jumlah DPK terkoreksi menjadi sebesar 1,51%. Sedangkan Pangsa pasar jumlah kredit yang diberikan mengalami penurunan dari 1,70% pada November 2022 menjadi 1,64% per November 2023. Penurunan pangsa pasar bank **bjb** terhadap bank umum disebabkan karena adanya peningkatan suku bunga dasar/*BI-Rate* pada tahun 2023 yang dapat berdampak pada peningkatan beban bunga, sehingga bank **bjb** mengambil langkah untuk lebih selektif atau ketat dalam menghimpun dana pihak ketiga. Hal tersebut pun berdampak kepada ekspansi kredit yang juga dilakukan secara selektif agar lebih hati-hati dalam menentukan kredit yang berisiko tinggi maupun dengan *rate* yang cukup menguntungkan.

In the midst of intense competition at BPD, bank **bjb** also faces competition with commercial banks in Indonesia. Based on total assets per November 2023, market share still experienced a slight decline to 1.48%. On the other hand, the amount of DPK was corrected to 1.51%. Meanwhile, the market share of the amount of credit provided has decreased from 1.70% in November 2022 to 1.64% per November 2023. The decline in the market share of bank **bjb** compared to commercial banks was due to an increase in basic interest /*BI-Rate* in 2023 which could have an impact on increasing interest expenses, so that bank **bjb** to be more selective or tight in collecting third party funds. This also has an impact on loan expansion which is also carried out selectively to be more careful in determining high risk loan or with fairly profitable rate.

Operation Review of Business Segment

A segment is a distinguishable part of a business group that is involved both in providing certain products (business segments), as well as in providing products in certain economic environments (geographical segments), which have risks and rewards that are different from other segments.

Segment revenue, expenses, results, assets and liabilities include items that are directly attributable to a segment as well as those that can be allocated on an appropriate basis to the segment. Segment items are determined before balances and transactions between Business Groups are eliminated as part of the consolidation process. Banks and subsidiaries present business segments based on consolidated internal reports that are presented to operational decision makers, namely the Board of Directors.

In carrying out its business activities, bank **bjb** has 2 (two) business segments, namely the conventional segment and the sharia segment. The conventional segment includes loan products, third parties fund products, and services. Meanwhile, the sharia segment is implemented through the business activities of subsidiaries

Faktor Pendukung dan Penghambat Bisnis Kredit Konsumer

1. Faktor Pendukung

- Jumlah populasi ASN yang akan memasuki masa pensiun mengalami kenaikan setiap tahunnya dan ini menjadi peluang bagi bank **bjb** untuk meningkatkan portofolio kredit, khususnya *market share* produk **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
- Beberapa tahun terakhir, pemerintah membuka penerimaan Pegawai Pemerintah dengan Perjanjian Kerja (PPPK). Hal ini tentunya menjadi pendukung meningkatnya portofolio kredit konsumen, khususnya **bjb** KGB.
- Kebijakan dari regulator berupa Gerakan Nasional Non Tunai (GNNT), khususnya di wilayah Jawa Barat, terimplementasikan dengan dibayarkannya gaji ASN secara langsung ke masing-masing rekening gaji pegawai. Hal ini memudahkan bank **bjb** sebagai bank penyalur gaji mayoritas ASN di Jawa Barat untuk melakukan pemotongan gaji guna pembayaran angsuran kredit.

2. Faktor Penghambat

- Munculnya Covid-19 pada akhir tahun 2019 yang telah dinyatakan sebagai *global pandemic* oleh *World Health Organization* (WHO), dimana hingga berakhirnya tahun 2023 penyebarannya masih cukup fluktuatif. Hal ini cukup berdampak terhadap aktivitas pemasaran kredit konsumen.
- Adapun persaingan dengan bank pesaing pada segmen kredit konsumtif pada tahun 2023 semakin kompetitif.

Supporting and Inhibiting Factors in Consumer Loan Business

1. Supporting Factors

- The total population of State Civil Servants (ASN) who were about to enter retirement increased every year and this was an opportunity for bank **bjb** to increase its loan portfolio, especially the market share of the product **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
- In recent years, the Government opened the acceptance of Candidates for Government Employees with a Work Agreement (PPPK). This certainly supports the increase in the consumer loans portfolio, especially **bjb** KGB.
- The regulator's policy in the form of the National Non Cash Movement (GNNT), especially in the West Java region, implemented by paying ASN salaries directly to each employee's salary account. This made it easier for bank **bjb** as the bank that distributed the majority of ASN salaries in West Java to make salary deductions for payment of loan installments.

2. Inhibiting Factors

- The emergence of Coronavirus Disease 2019 (Covid-19) at the end of 2019 which has been declared a global pandemic by the World Health Organization (WHO), until the end of 2023 its spread is still quite volatile. This has quite an impact on consumer loan marketing activities.
- Meanwhile, competition with competing banks in the consumer loan segment will become increasingly competitive in 2023.

Adapun untuk produk **bjb** KGB Pola 2 bagi pegawai aktif saat ini Divisi Kredit Ritel fokus penyaluran kredit kepada Anggota TNI, BUMN dan ASN Vertikal. Dapat kami informasikan data perkembangan produk dimaksud pada tabel berikut:

a. Produk bjb KPB Taspen

Grafik OS bjb KPB
Graph of OS **bjb** KPB (dalam jutaan Rupiah/ in IDR million)

Secara signifikan produk **bjb** KPB Taspen mengalami pertumbuhan positif selama 5 (lima) tahun terakhir (2019 – 2023) dengan total *growth* sebesar Rp3,85 triliun. Adapun pada tahun 2023, produk **bjb** KPB Taspen membukukan pertumbuhan sebesar Rp805,06 miliar. Dalam perspektif kualitas kredit, **bjb** KPB Taspen juga mengalami kenaikan *absolut* NPL, dari semula Rp11,51 miliar pada tahun 2019 menjadi Rp14,69 miliar tahun 2023. Tahun 2021 **bjb** KPB TASPEN memiliki *absolut* NPL tertinggi dalam 5 (lima) tahun terakhir dikarenakan meningkatnya klaim asuransi meninggal dunia akibat pandemi Covid-19.

b. Produk bjb KGB Pola 2

Grafik OS bjb KGB Pola 2
Graph of OS **bjb** KGB Pola 2 (dalam jutaan Rupiah/ in IDR million)

Dalam 4 (empat) tahun terakhir periode 2019 – 2022, perkembangan **bjb** KGB Pola 2 mengalami penurunan sebesar Rp1 triliun. Penurunan tersebut dikarenakan hal –hal sebagai berikut:

1. Pemberlakuan Gerakan Nasional Non Tunai (GNNT) yang menyebabkan kendala pada proses pemotongan angsuran fasilitas kredit terutama Debitur yang gajinya tidak disalurkan melalui bank **bjb** sejak tahun 2018.

for **bjb** KGB Pattern 2 products for active employees, currently the Retail Loan Division focused on channeling loan to Members of the Armies (TNI), SOEs and Vertical Civil Servants (ASN). The information of the product development data referred to can be seen in the following graph:

a. bjb KPB Taspen Product

Grafik ABS NPL bjb KPB

Significantly, the product **bjb** KPB Taspen has experienced positive growth over the past 5 (five) years (2019-2023) with a total growth of IDR3.85 trillion. In the year 2023, **bjb** KPB Taspen recorded a growth of IDR805.06 billion. In terms of credit quality perspective, **bjb** KPB Taspen also witnessed an increase in absolute Non-Performing Loans (NPL), from IDR11.51 billion in 2019 to IDR14.69 billion in 2023. In the year 2021, **bjb** KPB TASPEN had the highest absolute NPL in the last 5 (five) years due to the increased insurance claims due to deaths caused by the Covid-19 pandemic.

b. bjb KGB Pattern 2 Product

Grafik ABS NPL bjb KGB Pola 2
Graph of ABS NPL **bjb** KGB Pola 2 (dalam jutaan Rupiah/ in IDR million)

Over the last 4 (four) years from 2019 to 2022, the development of **bjb** KGB Pola 2 has experienced a decrease of IDR1 trillion. This decline is attributed to the following factors:

1. Implementation of the National Non-Cash Movement (GNNT) causing constraints in the installment deduction process, especially for debtors whose salaries are not channeled through bank **bjb** since 2018.

2. Penyaluran kredit pada Bank Daerah *Payroll* di luar wilayah Jawa Barat yang menyebabkan terjadinya *double financing* pada Debitur eksisting di bank **bjb**.
3. *Megashifting market* dari *market* eksisting dengan proses konvensional dan manual menjadi *market* dengan proses digitalisasi, *paperless era* serta aktivasi transaksi *online* seperti BNPL (*Buy Now Pay Later*), dan lain-lain.
4. Adanya kenaikan *BI Rate* serta persaingan *market* dengan kompetitor, baik dari segi *pricing*, *promo program* maupun isu terkait *internal policy*.

Selain berdampak terhadap pertumbuhan, kebijakan tersebut juga mengakibatkan kenaikan *absolut NPL bjb* KGB Pola 2 yang signifikan pada 5 (lima) tahun terakhir dari angka Rp22,1 miliar menjadi Rp71,7 miliar. Namun pada tahun 2023 produk tersebut mengalami pertumbuhan positif sebesar Rp104,39 miliar dikarenakan adanya upaya untuk melakukan *shifting* (pengalihan) *target market bjb* KGB Pola 2 kepada ASN Vertikal, anggota TNI serta Perjanjian Kerjasama (PKS) *Holding*, utamanya untuk Badan Usaha Milik Negara (BUMN). Dimana sisa potensi yang belum tergarap, diharapkan dapat memberikan kontribusi positif terhadap pertumbuhan **bjb** KGB Pola 2 yang berkualitas.

c. Produk bjb KGB Pola 3

Grafik OS bjb KGB Pola 3
Graph of OS **bjb** KGB Pola 3

(dalam jutaan Rupiah/
in IDR million)

Produk **bjb** KGB Pola 3 memiliki tren pertumbuhan positif selama 4 (empat) tahun terakhir dengan pertumbuhan sebesar Rp826,9 miliar. Dimana produk tersebut memberikan fasilitas kredit konsumtif kepada Pegawai Swasta, Yayasan, Dana Pensiun, Pegawai Non-Tetap Instansi Pemerintah dan Perangkat Desa. Pada tahun 2023 produk **bjb** KGB Pola 3 mencatatkan pertumbuhan negatif Rp11,6 miliar. Kendati demikian, produk **bjb** KGB Pola 3 merupakan produk dengan *nett growth* tertinggi kedua pada Divisi Kredit Ritel setelah **bjb** KPB Taspen dengan pertumbuhan dalam kurun waktu 5 (lima) tahun terakhir sebesar Rp916,2 miliar. Seiring dengan pertumbuhan OS, *absolut NPL bjb* KGB Pola 3 juga mengalami peningkatan dari semula Rp3,90 miliar pada tahun 2019 menjadi Rp16,89 miliar pada tahun 2023. Pergerakan *absolut NPL bjb* KGB Pola 3 pada tahun 2022 mengalami kenaikan sebesar Rp6,23 miliar sebagian besar disebabkan oleh debitur yang terdampak kebijakan PHK massal di beberapa perusahaan.

2. Credit disbursement to Regional Payroll Banks outside the West Java region, leading to double financing for existing debtors at bank **bjb**.
3. A mega-shift in the market from an existing market with conventional and manual processes to a market with digitization, paperless transactions, and activation of online transactions such as Buy Now Pay Later (BNPL), among others.
4. Increase in the *BI Rate* and market competition with competitors, including pricing, promotional programs, and internal policy-related issues.

Apart from impacting growth, these policies have also led to a significant increase in the absolute NPL of **bjb** KGB Pola 2 over the last 5 (five) years, from IDR22.1 billion to IDR71.7 billion. However, in 2023, the product experienced positive growth of IDR104.39 billion due to efforts to shift the target market of **bjb** KGB Pola 2 to vertical civil servants (ASN), military personnel, and cooperation agreements (PKS) with a focus on State-Owned Enterprises (BUMN). The untapped potential is expected to contribute positively to the quality growth of **bjb** KGB Pola 2.

c. bjb KGB Pattern 3 Product

Grafik ABS NPL bjb KGB Pola 3

(dalam jutaan Rupiah/
in IDR million)

The product **bjb** KGB Pola 3 has shown a positive growth trend over the last 4 (four) years with growth amounting to IDR826.9 billion. This product provides consumptive credit facilities to Private Employees, Foundations, Pension Funds, Non-Permanent Government Officials, and Village Officials. In 2023, **bjb** KGB Pola 3 recorded negative growth of IDR11.6 billion. Nevertheless, **bjb** KGB Pola 3 is the product with the second-highest net growth in the Retail Credit Division after **bjb** KPB Taspen, with a growth of IDR916.2 billion over the last 5 (five) years. Along with the growth of OS, the absolute Non-Performing Loans (NPL) of **bjb** KGB Pola 3 also increased from IDR3.90 billion in 2019 to IDR16.89 billion in 2023. The movement in absolute NPL for **bjb** KGB Pola 3 in 2022 experienced an increase of IDR6.23 billion, primarily due to debtors affected by mass layoff policies in several companies.

Faktor Pendukung dan Penghambat Bisnis Kredit Ritel

1. Faktor Pendukung

- a. Suku bunga dan fitur produk kredit ritel yang kompetitif.
- b. Diversifikasi produk dan layanan yang dapat menjawab kebutuhan *customer* sesuai dengan *life stages* (pegawai aktif - pra pensiun - pensiun).
- c. Terdapat program-program pemasaran sesuai kebutuhan finansial masyarakat.
- d. Memiliki tenaga kerja yang berpengalaman di bidang kredit konsumtif.
- e. Terdapat potensi debitur yang berkantor bayar di bank **bjb**.
- f. Terdapat program pemberdayaan bagi debitur baik pegawai aktif maupun pensiunan dalam bentuk kemitraan usaha dan edukasi literasi keuangan.

2. Faktor Penghambat

- a. Ketersediaan infrastruktur teknologi informasi dibandingkan dengan bank lain yang relatif lebih dulu dapat mengakomodir kebutuhan model bisnis dengan *peer to peer lending*;
- b. Adanya program pemerintah yang berimplikasi terhadap proses pemotongan gaji untuk pembayaran angsuran yang berpengaruh terhadap *target market* (contoh: Gerakan Nasional Non Tunai/GNNT).
- c. Terdapat proteksi dari masing-masing BPD di luar Jawa Barat dan Banten yang menyebabkan akses Bendahara Keuangan terhadap pemotongan gaji Debitur untuk pembayaran angsuran menjadi hilang dan berimplikasi terhadap penyempitan segmen *market bjb* Kredit Guna Bhakti (KGB) Pola 2.
- d. Domisili calon debitur yang berada di luar jangkauan jaringan kantor bank **bjb**.
- e. Minimnya jaringan Kantor dan ATM bank **bjb** di daerah di luar Jawa Barat dan Banten.

Perkembangan Bisnis atau Kinerja

Beberapa fokus pada perkembangan bisnis dan kinerja Kredit Ritel pada tahun 2023 adalah:

1. Fokus terhadap *captive market* yang masih memiliki risiko yang terukur seperti Anggota TNI, ASN Vertikal, Pegawai BUMN/Swasta dan Pensiunan.
2. Inisiasi Perjanjian Kerjasama (PKS) secara nasional.
3. Optimalisasi strategi *Account Solution* dalam rangka pengembangan kerjasama bisnis penyaluran kredit ritel secara nasional (PKS Nasional dengan beberapa *holding company*).
4. *Branding* melalui *webinar* serta penyebaran informasi melalui kanal sosial *whatsapp blast*.

Supporting and Inhibiting Factors for Retail Loan Business

1. Supporting Factors

- a. Competitive Interest Rates and Retail Loan product features.
- b. Diversification of products and services that can answer customer needs according to life stages (active employees - pre-retirement - retirement).
- c. There are marketing programs according to people's financial needs.
- d. Has a workforce that is experienced in the consumer credit sector.
- e. There is potential for debtors who have offices to pay at bank **bjb**.
- f. There is an empowerment program for debtors, both active employees and retirees, in the form of business partnerships and financial literacy education.

2. Inhibiting Factors

- a. The availability of information technology infrastructure compared to other banks that relatively earlier accommodate business models with peer-to-peer lending;
- b. Government programs that have implications for salary deduction processes for installment payments, affecting the target market (example: National Non-Cash Movement/GNNT).
- c. There was protection from each BPD outside West Java and Banten which caused the Financial Treasurer's access to deductions from Debtor salaries for installment payments to be lost and had implications for narrowing the market segment **bjb** Kredit Guna Bhakti (KGB) Pattern 2.
- d. The domicile of the prospective debtor is outside the reach of the bank **bjb** office network.
- e. The minimal network of bank **bjb** offices and ATMs in areas outside West Java and Banten.

Business Development or Performance

Several focuses on business development and Retail Loan performance in 2023 are:

1. Focusing on captive markets that still have measurable risks such as Members of the Indonesian Armies (TNI), Vertical Civil Servants (ASN), SOEs/Private Employees and Pensioners.
2. Initiation of National Cooperation Agreement (PKS).

Commercial Loan Productivity

Performance summary descriptions for the last 5 (five) years are as follows:

Outstanding Kredit Komersial tahun 2023 sebesar Rp10,74 triliun, menurun dibandingkan tahun 2022 yang sebesar Rp10,95 triliun. Hal ini disebabkan adanya pelunasan dipercepat yang nominalnya cukup signifikan, realisasi pencairan dari potensi *pipeline* yang di *carry over* reliasasinya ke awal tahun 2024 dan juga untuk beberapa debitur BPR mayoritas memiliki likuiditas yang cukup tinggi di akhir tahun sehingga penarikan longgar tarik kurang optimal.

The outstanding Commercial Credit in 2023 amounted to IDR10.74 trillion, decreasing compared to 2022 which was IDR10.95 trillion. This decline is attributed to significant early repayments, the realization of disbursement from the potential pipeline that was carried over with realization in early 2024, and for some borrowers in BPRs, the majority of them had relatively high liquidity at the end of the year, resulting in suboptimal utilization of available credit lines.

Produk unggulan Kredit Komersial selama 5 (lima) tahun terakhir berdasarkan data tersebut di atas dengan posisi per 31 Desember 2023 adalah Kredit Modal Kerja Kontrak (KMCK), Kredit Modal Kerja Umum (KMKU), Kredit *Cash Collateral*, Kredit Modal Kerja BPR, dan Kredit Investasi Umum.

The featured Commercial Credit products for the last 5 (five) years based on the data above with the position as of December 31, 2023 are Contract Working Capital Credit (KMCK), General Working Capital Credit (KMKU), Cash Collateral Credit, BPR Working Capital Credit, and Credit General Investment.

Adapun uraian kenaikan/penurunan produk Kredit Komersial yaitu sebagai berikut:

- Kredit **bjb** Modal Kerja Kontrak (KMKK) hingga saat ini masih menjadi produk unggulan Divisi Komersial. Hal tersebut tercermin dari persentase sebaran kredit berdasarkan produk, KMKK masih menjadi produk dengan persentase tertinggi yaitu sebesar 22,74%. KMKK (A03) dalam 5 (lima) tahun terakhir mengalami kenaikan hingga 25% dari posisi tahun 2019 sebesar Rp1,89 triliun dan tahun 2023 menjadi Rp2,44 triliun.
- KMKU mengalami pertumbuhan yang baik di tahun 2023 ini sebesar Rp971,7 miliar dari posisi Rp1,36 triliun tahun 2019 menjadi Rp2,15 triliun pada tahun 2023 atau secara presentase naik 51% sehingga hal ini menjadi momentum yang baik serta sejalan dengan rencana manajemen dalam menumbuhkan kredit yang produktif dan sehat.
- Kredit *Cash Collateral* mengalami pertumbuhan yang signifikan dalam 5 (lima) tahun terakhir dari Rp271,87 miliar ditahun 2019 naik signifikan menjadi Rp2,22 triliun di tahun 2023 atau naik sebesar Rp1,95 triliun.
- Kredit Modal Kerja BPR selama 5 (lima) tahun terakhir mengalami fluktuatif, dengan tren pada tahun 2021 terdapat penurunan hal ini disebabkan karena dampak pandemi Covid-19 sehingga dalam kinerja dan ekspansinya pada saat itu di samping melakukan restrukturisasi kepada debitur yang mengalami penurunan kinerja serta melakukan filter analisa yang lebih mendalam dan berhati-hati untuk menjaga pertumbuhan segmen Kredit Modal Kerja BPR agar tetap sehat, penurunan kembali terjadi di tahun 2023 dibanding dengan tahun 2022 sebesar Rp308,91 miliar atau turun secara yoy (2022 – 2023) sebesar 14,10%, hal ini disebabkan salah satunya adalah beberapa debitur eksisting BPR memiliki likuiditas yang cukup tinggi di akhir tahun sehingga penarikan longgar tarik belum optimal.
- Kredit Investasi Umum selama 5 (lima) tahun terakhir mengalami kenaikan sebesar Rp168,74 miliar dari posisi tahun 2019 Rp461,7 miliar naik menjadi Rp630,43 miliar di tahun 2023 atau kenaikan secara prosentase sebesar 36,55%.

Faktor Pendukung dan Penghambat Bisnis Kredit Komersial

Uraian faktor pendukung dan penghambat bisnis kredit komersial adalah sebagai berikut:

1. Faktor Pendukung

Divisi Komersial didukung oleh infrastruktur yang cukup dalam menerapkan budaya kredit yang lebih baik untuk pertumbuhan kredit yang sehat dan berkualitas, antara lain:

- a. Ketersediaan Sumber Daya Manusia (SDM)/Account Officer (AO) yang tersebar di Kantor Cabang, Kantor Wilayah dan Kantor Pusat. Jumlah AO Komersial sampai dengan 31 Desember 2023 sebanyak 245 orang, yang terdiri dari 209 orang Account Officer (AO) Komersial di Kantor Cabang, 25 orang Account Officer (AO) Komersial di Kantor Wilayah dan 11 orang Account Officer (AO) Komersial di Kantor Pusat.
- b. Pelaksanaan *e-learning* yang dilakukan secara mingguan untuk seluruh *account officer* dan manager komersial untuk meningkatkan pemahaman produk bisnis kelolaan Divisi Komersial.

The description of the increase/decrease in Commercial Loan products is as follows:

- **bjb** Working Capital Loan Contract (KMKK) continues to be a flagship product for the Commercial Division. This is reflected in the percentage distribution of loans based on products, where KMKK remains the product with the highest percentage at 22.74%. KMKK (A03) has experienced a 25% increase over the last 5 (five) years, from the position of IDR1.89 trillion in 2019 to IDR2.44 trillion in 2023.
- KMKU has shown good growth in 2023, amounting to IDR971.7 billion from the position of IDR1.36 trillion in 2019 to IDR2.15 trillion in 2023, representing a 51% increase in percentage. This is a positive momentum and aligns with the management's plan to grow productive and healthy credit.
- Cash Collateral Credit has experienced significant growth over the last 5 (five) years, from IDR271.87 billion in 2019 to a significant increase of IDR2.22 trillion in 2023, or an increase of IDR1.95 trillion.
- BPR Working Capital Credit over the last 5 (five) years has been fluctuating, with a downward trend in 2021 due to the impact of the Covid-19 pandemic. This was accompanied by restructuring for debtors experiencing performance decline and a more in-depth and cautious analysis to maintain the health of the BPR Working Capital Credit segment. A decrease occurred again in 2023 compared to 2022, amounting to IDR308.91 billion, or a year-on-year (yoy) decrease of 14.10%. This is partly due to some existing BPR debtors having relatively high liquidity at the end of the year, resulting in suboptimal utilization of available credit lines.
- General Investment Credit has increased by IDR168.74 billion over the last 5 (five) years, from the position of IDR461.7 billion in 2019 to IDR630.43 billion in 2023, representing a percentage increase of 36.55%.

Supporting and Inhibiting Factors of Commercial Loan Business

The description of the supporting and inhibiting factors for the Commercial Loan business is as follows:

1. Supporting Factors

The Commercial Division is supported by adequate infrastructure to implement a better credit culture for healthy and quality credit growth, including:

- a. The availability of Human Resources (HR)/Account Officers (AO) is distributed across Branch Offices, Regional Offices, and the Head Office. As of December 31, 2023, there are a total of 245 Commercial AO, consisting of 209 Commercial Account Officers in Branch Offices, 25 Commercial Account Officers in Regional Offices, and 11 Commercial Account Officers in the Head Office.
- b. Weekly implementation of *e-learning* for all account officers and commercial managers to enhance their understanding of business products managed by the Commercial Division

- c. Penyempurnaan aplikasi *Loan Management System (LMS) new design* segmen komersial untuk mendukung proses bisnis.
- d. Ketersediaan pilihan produk pembiayaan yang beragam untuk dapat memenuhi kebutuhan nasabah dalam meningkatkan usahanya.

2. Faktor Penghambat

Selain faktor pendukung, terdapat juga faktor penghambat yang mempengaruhi kinerja di tahun 2023, di antaranya sebagai berikut:

- a. Pasca pandemi *COVID-19* secara langsung maupun tidak langsung masih berdampak pada belum stabilnya kondisi ekonomi secara makro dan iklim usaha secara umum sehingga ekspansi bisnis beberapa sektor industri masih selektif yang berpengaruh pada potensi pembiayaan yang terbatas;
- b. Terdapatnya beberapa *run off* dengan nominal besar di luar jadwal pembayaran pada kredit segmen komersial menyebabkan *net growth* tercatat kurang optimal.
- c. Pemberian relaksasi kepada Debitur terdampak *COVID-19* melalui restrukturisasi kredit mengakibatkan pendapatan bunga yang seharusnya diterima bank mengalami penurunan dari kondisi normal.

- d. Availability of a diverse range of financing product options to meet the needs of customers in enhancing their businesses.

2. Inhibiting Factors

Apart from Supporting Factors, there are also Inhibiting Factors that will influence performance in 2023, including the following:

- a. Post the *COVID-19* pandemic, directly or indirectly, still has an impact on the instability of the macroeconomic conditions and the overall business climate, leading to selective business expansion in several industrial sectors that affects limited financing potential.
- b. The presence of several significant run-offs outside the scheduled payments in the commercial credit segment has resulted in suboptimal net growth.
- c. Providing relaxation to debtors affected by *COVID-19* through credit restructuring has led to a decrease in interest income that the bank would normally receive under normal conditions.

Commercial Loan Plans and Strategies for 2024

The description of Commercial Loan plans and strategies to be carried out in 2024 is as follows:

Dari keseluruhan produk kredit UMKM bank **bjb**, Kredit Mikro Utama dan Kredit Usaha Kecil dan Menengah yang tahun-tahun sebelumnya mengalami penurunan pada tahun 2023 menunjukkan kinerja positif dengan pertumbuhan sebesar 3,09% dan 9,41% yang mengindikasikan upaya bank **bjb** dalam melakukan diversifikasi produk. Hal ini dilakukan supaya portofolio Kredit UMKM tidak terlalu terkonsentrasi kepada produk KUR yang meskipun pada tahun 2023 ini tetap tumbuh sebesar 20,40%, secara nasional mengalami perlambatan pertumbuhan akibat pengaruh dari kebijakan pemerintah. Kinerja terbesar datang dari pertumbuhan Kredit *Channeling* melalui kerjasama dengan mitra agen pengelola sebagai upaya bank dalam beradaptasi kepada perkembangan pasar yang kini semakin diramalkan oleh penyedia layanan keuangan berbasis teknologi (*fintech lending*)

Among the Small and Medium Enterprises (UMKM) credit products of bank **bjb**, the Primary Micro Credit and Small and Medium Business Credit showed positive performance in 2023 with growth rates of 3.09% and 9.41%, respectively. This indicates bank **bjb**'s efforts in product diversification. It needs to be done to ensure the Small and Medium Enterprises (UMKM) credit portfolio is not overly concentrated on the People's Business Credit (KUR) product. Despite its growth of 20.40% in 2023, there is a slowdown in growth due to government policy influences. The most significant performance comes from the growth of Credit Channeling through partnerships with managing agent partners, as part of the bank's efforts to adapt to market developments increasingly influenced by technology-based financial service providers (*fintech lending*).

2. Desa Digital bank bjb

Ekosistem di Desa memiliki potensi besar terutama dalam pengelolaan keuangan mulai dari Dana Desa, Pendapatan Asli Desa (PADesa), Alokasi Dana Desa (ADD), Dana Bagian dari Pajak dan Retribusi Daerah, Hibah dan Sumbangan Pihak Ketiga. Hal tersebut harus didukung oleh pemberian fasilitas baik produk dan layanan perbankan yang sesuai dengan kebutuhan Desa agar terwujud pembangunan yang berkesinambungan di Desa. bank **bjb** selaku bank pemerintah daerah hadir dalam mendukung perkembangan perekonomian desa dengan memberikan layanan yang cepat dan inovatif dalam hal layanan publik melalui program Desa **digital bjb**. Desa Digital **bjb** merupakan program berkesinambungan dalam membentuk ekosistem keuangan desa yang terintegrasi dengan layanan perbankan dalam memberikan kontribusi dan berpartisipasi sebagai penggerak dan pendorong perekonomian di Desa dengan:

1. Peningkatan konektivitas akses keuangan di Desa melalui berbagai program dan layanan perbankan seperti implementasi *Internet Banking Corporate* (IBC), integrasi *Internet Banking Corporate* (IBC) dengan Sistem Keuangan Desa, Implementasi Lakupandai (**bjb** BISA) serta layanan lainnya yang memberikan kemudahan akses dalam pengelolaan keuangan di Desa seperti QRIS bagi BUMDES, Koperasi dan *Merchant* di Desa serta fasilitas DPLK.
2. Pemberian fasilitas pembiayaan baik produktif maupun konsumtif. Dari sisi kredit produktif diberikan untuk para pelaku UMKM di Desa serta pemberian pelatihan kewirausahaan melalui program PESAT (Pemberdayaan Masyarakat Ekonomi Terpadu) sedangkan untuk kredit konsumtif diberikan penyaluran kredit bagi perangkat

2. Desa Digital bank bjb

The village ecosystem has significant potential, especially in financial management, starting from Village Funds, Village Original Revenues (PADesa), Village Allocation Funds (ADD), a portion of Local Taxes and Levies, Grants, and Third-Party Contributions. This should be supported by the provision of facilities, both products and banking services, that align with the needs of the village to achieve sustainable development in the village. ∴ bank **bjb**, as a regional government bank, supports the villages' economic development by providing fast and innovative services in public service through the Desa Digital **bjb** program. Desa Digital **bjb** is a sustainable program aimed at forming an integrated financial ecosystem for villages with banking services. It contributes and participates as a driver of the economy in the village by:

1. Improving financial accessibility in the village through various programs and banking services, such as the implementation of Corporate Internet Banking (IBC), integration of Corporate Internet Banking (IBC) with the Village Financial System, Lakupandai implementation (**bjb** BISA), and other services that provide easy access in financial management in the village, such as QRIS for Village-Owned Enterprises (BUMDES), Cooperatives, and Merchants in the village, as well as provident fund facilities
2. Providing financing facilities, both productive and consumptive. On the productive credit side, it is provided to SME actors in the village, along with entrepreneurship training through the PESAT program (Integrated Economic Community Empowerment). Meanwhile, for consumptive credit, credit disbursement is provided for

Desa sebagai salah satu upaya dalam meningkatkan kesejahteraan dan daya beli masyarakat di Desa.

3. Kolaborasi dengan berbagai institusi yang memberikan nilai tambah bagi kemajuan Desa menjadi salah satu upaya mewujudkan program Desa Digital **bjb**, seperti pengembangan kerjasama pola kemitraan dengan BUMN (RNI dan Pertamina), sinergi bisnis melalui *cross biller* dengan Perum BULOG serta program-program lainnya baik dengan Kementerian maupun Dinas terkait di Provinsi dan Kabupaten.

Faktor Pendukung dan Penghambat Bisnis Dana Pihak Ketiga Institusi (Kelembagaan)

Faktor pendukung kegiatan Divisi Hubungan Kelembagaan ialah komunikasi yang intensif dengan lintas Divisi, Kantor Wilayah dan Kantor Cabang bank **bjb** sehingga terjadi *collaboration marketing* dimana dalam menggarap nasabah institusi, nasabah mendapatkan layanan-layanan perbankan yang ada di bank **bjb** dalam satu paket/bundel. Dengan begitu, tentu membantu pelaksanaan strategi dan pencapaian target Divisi Hubungan Kelembagaan khususnya dan target bank **bjb** secara keseluruhan. Hal tersebut sejalan dengan fungsi dari optimalisasi *product holding* bagi nasabah-nasabah institusi yang melekat pada Divisi Hubungan Kelembagaan.

Faktor penghambatnya yakni lebih kepada kondisi likuiditas menjelang akhir tahun 2023 cukup ketat, beberapa kali tingkat suku bunga acuan mengalami kenaikan yang menyebabkan bank harus menyesuaikan dengan menaikkan tingkat suku bunga. Selain isu likuiditas, isu digitalisasi baik untuk sektor ritel maupun pemerintah daerah menjadi salah satu fokus utama dalam proses pengembangan produk dan layanan.

Strategi Dana Pihak Ketiga Institusi (Kelembagaan) Tahun 2024

Untuk tahun 2023, Divisi Hubungan Kelembagaan akan melakukan beberapa strategi utama dalam rangka meningkatkan pencapaian dan melebihi pencapaian tahun 2023 sesuai dengan ASDT 2024 sebagai berikut:

1. Business Ecosystem

Akuisisi potensi bisnis dari ekosistem nasabah, baik Pemerintah Daerah, BUMD, BUMN, maupun Swasta dalam upaya peningkatan *product holding* bank **bjb** yang relevansinya terhadap *sustainable* bisnis serta peningkatan laba bank **bjb**.

2. Perluasan Kerjasama

Ekspansi nasabah baru sebagai upaya perluasan dan penguatan bisnis bank **bjb** dalam mendukung pencapaian target bisnis serta konsistensi bank **bjb** dalam mewujudkan perekonomian daerah.

3. Peningkatan CASA dan Transactional Banking

- a. Optimalisasi program giro *surplus*.
- b. Optimalisasi program *eduprize* kepada nasabah lembaga pendidikan.
- c. Digitalisasi Layanan Penerimaan seperti implementasi layanan **bjb** Hope, layanan VA bank **bjb**, layanan *waterbill payment*, layanan autodebit.

village officials as one effort to improve the welfare and purchasing power of the community in the village

3. Collaboration with various institutions that provide added value for the progress of the village is one of the efforts to realize the Desa Digital **bjb** program. This includes the development of partnership collaborations with State-Owned Enterprises (RNI and Pertamina), business synergy through *cross-biller* partnerships with Perum BULOG, and other programs with relevant Ministries and Departments at the Provincial and District levels.

Supporting and Inhibiting Factors of Institutional Third Party Fund Business

Factors supporting the activities of the Institutional Relations Division are intensive communication with cross-Divisions, Regional Offices and bank **bjb** Branch Offices so that collaboration marketing occurs in working on institutional customers, customers get banking services at bank **bjb** in one package/bundle. That way, it certainly helps implement the strategy and achieve the targets of the Institutional Relations Division in particular and bank **bjb** targets as a whole. This is in line with the function of optimizing product holding for institutional customers attached to the Institutional Relations Division.

The inhibiting factor is that the liquidity conditions towards the end of 2023 were quite tight, several times the benchmark interest rate increased which caused banks to have to adjust by raising interest rates. In addition to liquidity issues, digitalization issues for both the retail sector and local government became one of the main focuses in the product and service development process.

Strategy for Institutional Third Party Funds for 2024

For 2023, the Institutional Relations Division will carry out several main strategies in order to increase achievements and exceed achievements in 2023 in accordance with ASDT 2024 as follows:

1. Business Ecosystem

Acquisition of business potential from the customer ecosystem, both Regional Government, BUMD, BUMN, and the Private sector in an effort to increase bank **bjb** product holding with relevance to sustainable business and increase bank **bjb** profits.

2. Expansion of Cooperation

Expansion of new customers as an effort to broaden and strengthen the business of bank **bjb** in supporting the business achievement targets, as well as the consistency of bank **bjb** in realizing the regional economy.

3. Increased CASA and Transactional Banking

- a. Current Account surplus program optimization
- b. Optimization of the *Eduprize* program for educational institution customers
- c. Digitalization of receipt services such as the implementation of **bjb** Hope service, bank **bjb** VA service, water bill payment service, and auto-debit service.

- d. Optimalisasi ekosistem transaksi layanan belanja Pemda, optimalisasi pengelolaan Pemda “dari Hulu ke Hilir” dengan memastikan pengelolaan DPK dari *dropping* dana ke nasabah hingga ke “*sub end user*” tetap melalui bank **bjb**.
- e. Optimalisasi kerjasama TNI, POLRI dan Kementerian.
- f. Kerjasama layanan *host to host*, perluasan kerjasama dengan nasabah institusi baik Pemda maupun Non Pemda melalui konsep *host to host* (API) dengan menjadikan bank **bjb** menjadi bank transaksional.
- g. Peningkatan kerjasama lembaga pendidikan/sekolah, kerjasama dengan penyedia aplikasi kampus dan aplikasi sekolah melalui layanan *virtual account*.

- d. Optimization of the transaction ecosystem for local government shopping services, optimization of local government management ‘from upstream to downstream,’ ensuring the management of customer funds from fund dropping to end users remains through bank **bjb**
- e. Optimization of collaboration with the Indonesian National Armed Forces (TNI), the National Police (POLRI), and the Ministry.
- f. Host-to-host service collaboration, expanding cooperation with institutional customers, both local government (Pemda) and non-local government, through the host-to-host concept (API), making bank **bjb** a transactional bank.
- g. Enhancement of collaboration with educational institutions/schools, partnership with campus application providers, and school application providers through virtual account services.

Produktivitas Wealth Management

Melalui layanan *wealth management*, bank **bjb** mencatatkan perolehan *fee based income* atas pemasaran produk reksa dana dan *bancassurance*. Uraian produktivitas *wealth management* disajikan sebagai berikut.

Wealth Management Productivity

Through *wealth management* services, bank **bjb** recorded fee based income from marketing mutual fund and *bancassurance* products. A description of *wealth management* productivity is presented as follows.

Tabel Perolehan Fee Based Income Produk Wealth Management

Table of Earning Fee Based Income for Wealth Management Products

(dalam jutaan Rupiah/in IDR million)

Tahun	2023	2022	2021	2020	2019	Pertumbuhan Growth 2022-2023		Year
	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(%)	
<i>Bancassurance</i>	4,523	4,803	5,920	5,059	8,667	(280)	(5.83%)	<i>Bancassurance</i>
Reksa Dana	3,085	4,614	2,267	1,046	863	(1,529)	(33.14%)	Mutual Fund
Total	7,608	9,417	8,188	6,105	9,530	(1,809)	(19.21%)	Total

Sepanjang tahun 2023, perolehan *fee based income* dari aktivitas *wealth management* mencapai Rp7,61 miliar, turun 19,21% dibandingkan dengan tahun 2022 yang mencapai Rp9,42 miliar. Hal tersebut khususnya berasal dari turunnya reksa dana sebesar Rp1,53 miliar.

Throughout the year 2023, the fee-based income from *wealth management* activities amounted to IDR7.61 billion, a decrease of 19.21% compared to 2022, which reached IDR9.42 billion. This decline is primarily attributed to a decrease in mutual funds by IDR1.53 billion

Adapun jumlah premi dan *Asset Under Management* (AUM) dari aktivitas layanan *Wealth Management* yang dikelola bank **bjb** yaitu sebagai berikut:

The premium amounts and Assets Under Management (AUM) from *Wealth Management* service activities managed by bank **bjb** are as follows:

Tahun	2023	2022	2021	2020	2019	Pertumbuhan Growth 2022-2023		Year
	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(Rp/IDR)	(%)	
Premi <i>Bancassurance</i>	30,515	27,869	20,703	17,664	25,263	2,646	9.49%	Premium <i>Bancassurance</i>
AUM Reksa Dana	323,543	702,723	737,339	426,824	201,848	(379,180)	(53.96%)	AUM Mutual Fund

Asset Under Management Reksa (AUM) Reksa Dana tahun 2023 mencapai Rp323,54 miliar, menurun Rp379,180 miliar atau 53,96% dibandingkan dengan tahun tahun 2022 mencapai Rp702,72 miliar. Penurunan tersebut disebabkan:

1. Sulitnya mendapatkan *underlying* produk reksadana terproteksi, sehingga pertumbuhan AUM reksadana menjadi tidak optimal.
2. Banyaknya surat berharga ritel yang diterbitkan oleh pemerintah, sehingga nasabah berpotensi mengalihkan investasinya ke surat berharga ritel.
3. Kinerja reksa dana saham cenderung stagnan (pertumbuhan lebih rendah dari instrumen pasar uang).
4. Persaingan dengan tingkat suku bunga simpanan bank khususnya pada BUKU 2 dan BUKU 3, sehingga nasabah mengalihkan penempatan reksa dana pasar uang ke deposito dengan tingkat imbal hasil yang lebih besar.
5. Mulai pulihnya perekonomian berdampak pada kembali berjalannya usaha, sehingga nasabah melakukan penarikan (*redemption*) reksa dana untuk menjalankan usahanya.

Sedangkan untuk premi *bancassurance* tahun 2023 mencapai Rp30,52 miliar, meningkat sebesar 9,49% dibandingkan tahun 2022 mencapai Rp27,87 miliar. Peningkatan tersebut karena adanya penawaran yang fokus kepada produk asuransi jiwa tradisional yang memiliki manfaat pasti serta lebih sesuai dengan profil dan kebutuhan Nasabah bank **bjb**. Namun dari sisi Fee Based Income mengalami penurunan yang diakibatkan oleh hal-hal sebagai berikut:

1. Adanya penyesuaian SEOJK terkait produk asuransi berjenis PAYDI, sehingga pemasaranseluruh produk PAYDI dihentikan per bulan Maret 2023.
2. Sejak dihentikan produk PAYDI, maka produk yang dipasarkan hanya berupa produk asuransitradisional yang memiliki persentase komisi lebih kecil (*range* 12%-20%) dibandingkandengan produk PAYDI (*range* 35%-50%). Hal ini menyebabkan peroleh *fee based income* menjadi menurun walaupun produksi Premi mengalami pertumbuhan.

Asset Under Management (AUM) for Mutual Funds in 2023 reached R IDR23.54 billion, a decrease of IDR379.180 billion or 53.96% compared to 2022, with the total of IDR702.72 billion. This decline is attributed to:

1. Difficulty in obtaining underlying products for protected mutual funds, resulting in suboptimal growth of mutual fund AUM
2. The abundance of retail government bonds issued by the government, leading customers to potentially shift their investments to retail government bonds
3. The performance of equity mutual funds tends to stagnate (with lower growth compared to money market instruments)
4. Competition with deposit interest rates in banks, especially in BUKU 2 and BUKU 3 categories, causing customers shift their investments from money market mutual funds to deposits with higher yields.
5. The recovery of the economy has led to the resumption of business activities, prompting customers to make redemptions from mutual funds to fund their businesses.

Meanwhile, for *bancassurance* premiums in 2023, they reached IDR30.52 billion, an increase of 9.49% compared to 2022, which amounted to IDR27.87 billion. This increase is due to the focus on offering traditional life insurance products that have guaranteed benefits and are more in line with the profile and needs of bank **bjb**'s customers. However, on the Fee Based Income side, there has been a decrease due to the following reasons:

1. The adjustment of OJK Circular Letter related to PAYDI insurance products, leading to the cessation of the entire PAYDI product marketing by March 2023
2. Since the discontinuation of PAYDI products, the marketed products are now only traditional insurance products with a smaller commission percentage (ranging from 12% to 20%) compared to PAYDI products (ranging from 35% to 50%). This has resulted in a decrease in fee-based income even though premium production has experienced growth.

3. Nasabah lebih selektif dalam membeli produk asuransi, salah satunya disebabkan oleh tingginya tingkat keluhan nasabah asuransi di Indonesia terkait miss selling produk PAYDI yang dilakukan oleh beberapa pihak yang tidak bertanggung jawab, sehingga berpengaruh terhadap tingkat kepercayaan nasabah.

3. Customers are more selective in purchasing insurance products, partly due to the high level of customer complaints in Indonesia related to misselling of PAYDI products conducted by irresponsible parties, affecting the level of customer trust

Perkembangan Bisnis Treasury Tahun 2023

Divisi *Treasury* menjadi salah satu pilar pertumbuhan laba bank **bjb** dengan didukung tenaga profesional dan handal, senantiasa terus mengembangkan produk transaksi dan meningkatkan aktivitas bisnis *treasury* dalam rangka optimalisasi likuiditas dan peningkatan pendapatan laba bank. Perekonomian global sepanjang tahun 2023 mengalami perlambatan akibat dampak kenaikan inflasi yang tinggi pada tahun 2022 serta kenaikan suku bunga acuan yang dilakukan oleh beberapa bank sentral di dunia. Beberapa bank sentral di dunia terutama *The Federal Reserve* (The Fed), *European Central Bank* (ECB), dan *Bank of England* (BoE) berupaya meredam tingginya tekanan inflasi dengan menaikkan suku bunga kebijakan dengan besaran yang lebih tinggi. Sejak awal tahun sampai dengan Desember 2023, The Fed telah menaikkan suku bunga kebijakan sebanyak 100 bps menjadi 5,25%-5,50%, ECB sebesar 200 bps menjadi 4,75%, dan BoE sebesar 175 bps menjadi 5,25%. Disisi lain, *Bank of Japan* (BoJ) tetap mempertahankan kebijakan *ultra-loose policy* dengan menahan tingkat suku bunga rendah. Hal ini memberikan momentum bagi pelaku pasar untuk melakukan transaksi *carry-trade* dengan memanfaatkan *interest rate differential*. Respon moneter yang agresif menyebabkan ketatnya pasar keuangan global dan mendorong penguatan mata uang dolar AS, sehingga berdampak pada penurunan aliran modal asing ke negara berkembang.

Pada tahun 2023 Bank Indonesia telah menaikkan suku bunga kebijakan BI *7-Day Reverse Repo Rate* (BI7DRR) sebanyak 50 bps yaitu sebesar 25 bps pada kuartal pertama dan sebesar 25 bps pada kuartal keempat, sehingga BI *7-Day Reverse Repo Rate* (BI7DRR) pada posisi akhir tahun 2023 adalah sebesar 6,00%. Keputusan kenaikan suku bunga tersebut sebagai langkah *front loaded*, *pre-emptive*, dan *forward looking* untuk

1. bjb Foreign Exchange

Bond products can be transacted by retail customers through bank **bjb** Branch Offices and *bjb* Prioritas Outlets. The types of bonds that can be transacted at bank **bjb** are Retail SBN in the Primary Market and SBN, SBSN, and Corporate Bonds in the Secondary Market. Customers can make bond transactions with a minimum transaction volume that is affordable and at competitive prices.

Treasury Business Development in 2023

The Treasury Division serves as one of the key pillars for the profit growth of bank **bjb**, supported by professional and skilled personnel. It consistently strives to develop transaction products and enhance treasury business activities to optimize liquidity and increase the bank's profit revenue. The global economy experienced a slowdown throughout the year 2023 due to the impact of the high inflation in 2022 and the increase in benchmark interest rates by several central banks worldwide. Several central banks, notably The Federal Reserve (The Fed), European Central Bank (ECB), and Bank of England (BoE), aimed to curb high inflationary pressures by raising policy interest rates to higher levels. Since the beginning of the year until December 2023, The Fed has increased its policy interest rates by 100 basis points to 5.25%-5.50%, the ECB by 200 basis points to 4.75%, and the BoE by 175 basis points to 5.25%. On the other hand, the Bank of Japan (BoJ) has maintained its ultra-loose policy by keeping interest rates low. This provides momentum for market participants to engage in carry-trade transactions by capitalizing on the interest rate differential. Aggressive monetary responses have led to tightness in the global financial markets and fueled the strengthening of the US dollar, thereby resulting in a decrease in foreign capital inflows to developing countries.

In 2023, Bank Indonesia increased the BI *7-Day Reverse Repo Rate* (BI7DRR) by a total of 50 basis points, with a 25 basis points hike in the first quarter and another 25 basis points in the fourth quarter. As a result, the BI *7-Day Reverse Repo Rate* (BI7DRR) stood at 6.00% at the end of the year 2023. The decision to raise interest rates was taken as a front-loaded, pre-emptive, and forward-looking measure to reduce expectations of excessively

menurunkan ekspektasi inflasi yang terlalu tinggi (*overshooting*) dan memastikan inflasi inti ke depan kembali ke dalam sasaran $3,0\pm 1\%$, serta memperkuat kebijakan stabilisasi nilai tukar Rupiah agar sejalan dengan nilai fundamentalnya akibat semakin kuatnya mata uang dolar AS dan tingginya ketidakpastian pasar keuangan global di tengah peningkatan permintaan ekonomi domestik yang tetap kuat. Sepanjang tahun 2023 nilai tukar Rupiah bergerak pada kisaran Rp14.670-Rp15.940 dan imbal hasil surat berharga 10Y (seri *benchmark index*) untuk surat berharga pemerintah pada akhir tahun 2023 ditutup pada level 6,480%.

Sepanjang tahun 2023 Divisi *Treasury* mampu membukukan pendapatan total sebesar Rp1,85 triliun (per Desember 2023) yang diperoleh dari transaksi jual beli valas, surat berharga, penempatan dana pada instrumen pasar uang serta aktivitas kustodi dan wali amanat. Divisi *Treasury* juga terus meningkatkan aktivitas *sales* khususnya untuk nasabah ritel baik transaksi *forex* maupun surat berharga dengan memperbanyak *customer based*, memberikan harga yang kompetitif serta terus mengembangkan sistem **bjb Treasury Interactive Pricing (bjb TIP)** yang merupakan *electronic trading system* yang mempermudah transaksi *Treasury* untuk nasabah di kantor cabang bank **bjb**.

Produktivitas *Treasury*

Uraian produktivitas *treasury* meliputi transaksi *money market*, *fixed income* dan *forex* yang disajikan sebagai berikut.

Transaksi *Money Market*

Salah satu aktivitas Divisi *Treasury* merupakan pengelolaan dan optimalisasi eksekusi likuiditas melalui transaksi pasar uang (*money market*). Sepanjang tahun 2023 pendapatan yang diperoleh melalui transaksi *money market* adalah sebesar Rp135,26 miliar. Aktivitas transaksi *money market* yang dilakukan antara lain penempatan melalui instrumen moneter Bank Indonesia dan penempatan antar bank untuk optimalisasi likuiditas. Saat ini bank **bjb** merupakan salah satu bank kontributor JIBOR (*Jakarta Interbank Offered Rate*) yang ditunjuk Bank Indonesia untuk memberikan kuotasi suku bunga penawaran transaksi pasar uang antar bank di Indonesia. bank **bjb** sebagai kontributor JIBOR senantiasa mendukung terciptanya suku bunga acuan pasar uang yang kredibel dan mendorong perkembangan transaksi pasar uang khususnya transaksi antar bank.

Sejalan dengan program Bank Indonesia dalam rangka pendalaman transaksi pasar uang, bank **bjb** juga aktif dalam melakukan transaksi *Repo* dan *Reverse Repo* antar bank mengingat transaksi *repo* merupakan alternatif pendanaan yang memiliki risiko lebih rendah karena bersifat "*collateralized*". Selain itu, bank **bjb** juga turut mendukung upaya Bank Indonesia dalam melakukan strategi operasi moneter yang "*pro-market*" dengan kepemilikan instrumen baru yang diterbitkan pada tahun 2023 yaitu Sekuritas Rupiah Bank Indonesia (SRBI) dan Sekuritas Valas Bank Indonesia (SVBI).

high inflation (*overshooting*). It aimed to ensure that future core inflation returns to the target range of $3.0\pm 1\%$. Additionally, it sought to strengthen the policy for stabilizing the exchange rate of the Rupiah to align with its fundamental value due to the increasing strength of the US dollar and high uncertainty in the global financial markets amid the sustained strength of domestic economic demand. Throughout 2023, the exchange rate of the Rupiah fluctuated in the range of Rp14,670 to Rp15,940, and the yield on 10-year government bonds (benchmark index series) closed at 6.480% at the end of the year 2023.

Throughout 2023, the Treasury Division was able to record a total income of Rp1.85 trillion (as of December 2023), derived from foreign exchange transactions, securities trading, fund placements in money market instruments, as well as custodian and fiduciary activities. The Treasury Division also continues to enhance its sales activities, especially for retail customers, in both *forex* and securities transactions by expanding the customer base. The division provides competitive pricing and continually develops the **bjb Treasury Interactive Pricing (bjb TIP)** system, an electronic trading system that facilitates Treasury transactions for customers at bank **bjb** branch offices.

Treasury Productivity

Treasury productivity descriptions include money market, fixed income and *forex* transactions which are presented as follows.

Money Market Transaction

One of the activities of the Treasury Division involves managing and optimizing excess liquidity through money market transactions. Throughout 2023, the income generated from money market transactions amounted to Rp135.26 billion. Money market transaction activities include placements through Bank Indonesia's monetary instruments and interbank placements to optimize liquidity. At present, bank **bjb** is one of the contributors to JIBOR (*Jakarta Interbank Offered Rate*), designated by Bank Indonesia to provide interest rate quotations for interbank money market transactions in Indonesia. As a JIBOR contributor, bank **bjb** consistently supports the creation of a credible money market reference rate and encourages the development of money market transactions, particularly interbank transactions.

In line with Bank Indonesia's program to deepen money market transactions, bank **bjb** is also active in conducting *Repo* and *Reverse Repo* transactions among banks. Engaging in *repo* transactions provides a lower-risk funding alternative due to its *collateralized* nature. Additionally, bank **bjb** supports Bank Indonesia's efforts in implementing a "*pro-market*" monetary operations strategy by holding new instruments issued in 2023, namely the Rupiah Securities of Bank Indonesia (SRBI) and the Foreign Exchange Securities of Bank Indonesia (SVBI).

Outstanding money market tahun 2023 mencapai Rp3,63 triliun, turun 69,46% dibandingkan dengan tahun 2022 yang sebesar Rp11,87 triliun. Posisi *outstanding money* tahun 2023 mengalami penurunan dibandingkan dengan tahun sebelumnya dikarenakan adanya penempatan investasi ke instrumen yang memberikan imbal hasil yang lebih tinggi dan menarik serta di tengah ketatnya likuiditas pada tahun 2023 akibat melambatnya ekonomi global dan tren suku bunga tinggi, penyaluran kredit tetap menjadi yang utama sehingga penempatan dana di sejumlah instrumen investasi mengalami penurunan.

The outstanding money market in 2023 reached IDR3.63 trillion, a decrease of 69.46% compared to 2022, which amounted to IDR11.87 trillion. The decrease in the outstanding money market position in 2023, compared to the previous year, is attributed to the investment placement in instruments offering higher and attractive yields. Amidst tight liquidity in 2023 due to the global economic slowdown and high-interest rate trends, credit distribution remains a priority, leading to a decline in fund placements in various investment instruments.

Transaksi Fixed Income

Pada tahun 2023 kondisi pasar surat berharga Indonesia cenderung masih tertekan apabila dibandingkan dengan tahun 2022. Posisi *yield* obligasi pemerintah 10Y awal tahun 2023 berada pada level 6,952% jauh lebih tinggi apabila dibandingkan dengan posisi awal tahun 2022 yang berada pada level 6,405%. Dampak dari pandemi Covid-19 yang terjadi pada tahun sebelumnya 2019-2022, ketegangan geopolitik antara Rusia-Ukraina serta peperangan di Timur Tengah yang terjadi pada kuartal IV tahun 2023 mengakibatkan beberapa negara mengalami pelemahan ekonomi serta inflasi yang cukup tinggi yang berakibat naiknya tingkat suku bunga acuan beberapa bank sentral di dunia. Bank Indonesia sepanjang tahun 2023 telah memutuskan kebijakan untuk menaikkan suku bunga acuan (*BI 7 Day Reverse Repo Rate*) dari 5,75% pada bulan Januari 2023 menjadi 6,00% pada

Fixed Income Transaction

In 2023, the Indonesian bond market conditions tended to remain under pressure compared to 2022. The yield position of 10-year government bonds at the beginning of 2023 was at 6.952%, significantly higher than the position at the beginning of 2022, which was at 6.405%. The impact of the Covid-19 pandemic that occurred in the previous years 2019-2022, geopolitical tensions between Russia-Ukraine, and conflicts in the Middle East during the fourth quarter of 2023 led to economic downturns in several countries. Additionally, high inflation resulted in an increase in benchmark interest rates by several central banks worldwide. Throughout 2023, Bank Indonesia decided to raise the benchmark interest rate (*BI 7 Day Reverse Repo Rate*) from 5.75% in January 2023 to 6.00% in December 2023. This was done as a measure to anticipate inflation rates and the relatively

bulan Desember 2023. Hal ini dilakukan sebagai langkah untuk mengantisipasi tingkat inflasi dan kenaikan suku bunga acuan The FED yang cukup tinggi. Kenaikan inflasi dan suku bunga acuan yang cukup tinggi di beberapa negara berdampak secara langsung pada pelemahan harga pasar obligasi di Indonesia selama tahun 2023.

Pengelolaan likuiditas dan optimalisasi pendapatan melalui instrumen *fixed income* dilakukan dengan penempatan dana pada surat berharga, baik obligasi pemerintah maupun obligasi korporasi di pasar perdana dan pasar sekunder serta melakukan *trading* (jual/beli) surat berharga. Selain pada obligasi, penempatan dana juga dilakukan pada instrumen reksa dana, baik reksa dana pasar uang, reksa dana pendapatan tetap, reksa dana terproteksi dan reksa dana syariah penyertaan terbatas. Total pendapatan yang diperoleh dari transaksi *fixed income* sepanjang tahun 2023 mencapai Rp1,32 triliun Rupiah (per Desember 2023). Divisi *Treasury* pun telah aktif melakukan transaksi surat berharga kepada nasabah untuk pemasaran SBN Ritel di pasar perdana sebagai Sub Mitra Distribusi SBN Ritel dan transaksi surat berharga di pasar sekunder, dengan pencapaian volume selama tahun 2023 sebesar Rp3,97 triliun dan membukukan keuntungan sebesar Rp5,11 miliar.

high increase in The Fed's benchmark interest rates. The increase in inflation and benchmark interest rates in several countries had a direct impact on the weakening of the bond market prices in Indonesia during the year 2023.

Liquidity management and income optimization through fixed-income instruments involve placing funds in securities, including government and corporate bonds, in both the primary and secondary markets. Additionally, trading (buying/selling) of securities is conducted as part of these strategies. . In addition to bonds, fund placement is also carried out in mutual fund instruments, including money market mutual funds, fixed-income mutual funds, protected mutual funds, and limited participation Sharia mutual funds. The total income derived from fixed-income transactions throughout 2023 reached IDR1.32 trillion (as of December 2023). The Treasury Division has actively engaged in securities transactions with customers for marketing Retail Government Securities (SBN Ritel) in the primary market as a Sub Distributor Partner for Retail Government Securities. They have also conducted secondary market securities transactions, achieving a volume of IDR3.97 trillion and recording a profit of IDR5.11 billion during 2023.

Volume transaksi *trading fixed income* tahun 2023 mengalami penurunan apabila dibandingkan dengan tahun 2022. Volume transaksi *trading fixed income* tahun 2023 sebesar Rp16,01 triliun, menurun 13,88% dibandingkan tahun 2022 yang sebesar Rp18,59 triliun. Hal ini disebabkan adanya kenaikan suku bunga The Fed yang tinggi dan diikuti dengan kenaikan BI 7 Day Reverse Repo Rate sehingga berdampak tertekannya harga pada pasar keuangan surat berharga.

The trading volume of fixed-income transactions in 2023 experienced a decrease compared to 2022. The trading volume of fixed-income transactions in 2023 amounted to IDR16.01 trillion, a decline of 13.88% compared to 2022, which was IDR18.59 trillion. This decline was attributed to the high increase in The Fed's interest rates, followed by the increase in the BI 7 Day Reverse Repo Rate, resulting in pressure on prices in the financial bond market.

Faktor Pendukung dan Penghambat Bisnis Treasury

Pada tahun 2023 kenaikan inflasi inti Indonesia secara umum masih terjaga dalam kisaran $3,0\pm 1\%$, dimana *core inflation* paling tinggi terjadi pada bulan Januari 2023 yaitu sebesar 3,27%. Langkah-langkah stabilisasi yang dilakukan Bank Indonesia melalui kebijakan moneter dengan menaikkan tingkat suku bunga acuan BI 7-Day Reverse Repo Rate selama tahun 2023 sebesar 50 bps menjadi 6,00% cukup efektif menahan laju inflasi dan menjaga stabilitasi nilai tukar Rupiah agar sejalan nilai fundamentalnya. Prospek pertumbuhan ekonomi global sepanjang tahun 2023 mengalami perlambatan, perlambatan ekonomi terutama dipengaruhi oleh krisis biaya hidup karena inflasi tinggi, pengetatan kondisi keuangan di sebagian besar negara, implikasi konflik Rusia-Ukraina, peperangan di Timur Tengah dan efek perlambatan perekonomian pasca pandemi yang belum sepenuhnya usai. Selain itu, The Fed telah menaikkan *Fed Fund Rate* hingga akhir 2023 menjadi 5,25%-5,50% dengan siklus pengetatan kebijakan moneter yang panjang. Hal ini mendorong tetap kuatnya mata uang dolar AS dan masih tingginya ketidakpastian pasar keuangan global yang kemudian berdampak pada belum kuatnya aliran modal asing masuk ke negara berkembang termasuk Indonesia. Sementara itu untuk transaksi valuta asing nasabah, Divisi Treasury memfasilitasinya dalam sistem **bjb** TIP FX. Hal itu dilakukan untuk memenuhi kebutuhan *pricing* bagi nasabah secara *real time*.

Strategi Bisnis Treasury Tahun 2024

Prospek pertumbuhan ekonomi global pada 2024 diprediksi cukup menantang dan masih mengalami perlambatan, serta menuntut kehati-hatian dengan tingkat suku bunga acuan yang tinggi di beberapa negara termasuk Amerika Serikat (AS) dan Eropa. Sejumlah risiko yang membayangi kinerja perekonomian ke depan antara lain inflasi yang masih berpotensi mengalami kenaikan, kondisi pengetatan moneter yang masih berlanjut, tensi geopolitik Ukraina-Rusia dan Timur Tengah, serta krisis kesehatan yang dapat meningkat sewaktu-waktu. The Fed diperkirakan tetap akan mempertahankan *Fed Funds Rate* hingga pertengahan tahun 2024, dan kemudian akan melakukan *cut rate* dengan besaran 50-100 bps dengan disesuaikan pada tingkat inflasi yang terjadi.

Menghadapi tantangan pasar uang tahun 2024, Divisi Treasury senantiasa melakukan analisa dan menerapkan strategi agar sejalan dengan perkembangan pasar dengan tetap menjaga likuiditas bank dan optimalisasi pendapatan *interest income* maupun *fee based income* melalui transaksi treasury. Divisi Treasury akan terus mengembangkan produk dan layanan untuk mengakomodir kebutuhan nasabah dengan lebih baik. Strategi Utama Divisi Treasury tahun 2024 yaitu terus mengembangkan retail bisnis Divisi Treasury khususnya penjualan bonds retail dan valuta asing kepada Nasabah, mendorong peningkatan pendapatan melalui kenaikan *fee based income*, jasa layanan kustodian dan wali amanat, dan *enhancement yield instrument treasury* dengan tetap memperhatikan risiko pasar.

Supporting and Inhibiting Factors of Treasury Business

In 2023, the overall core inflation in Indonesia remained within the range of $3.0\pm 1\%$, with the highest core inflation occurring in January 2023 at 3.27%. The stabilization measures implemented by Bank Indonesia through monetary policy, including raising the BI 7-Day Reverse Repo Rate by 50 bps to 6.00% throughout 2023, were effective in restraining inflation and maintaining the stability of the Rupiah's exchange rate in line with its fundamental value. The prospects for global economic growth throughout 2023 experienced a slowdown, mainly influenced by the cost of living crisis due to high inflation, tightening financial conditions in most countries, the implications of the Russia-Ukraine conflict, wars in the Middle East, and the effects of the ongoing post-pandemic economic slowdown. Additionally, The Fed raised the Fed Fund Rate until the end of 2023 to 5.25%-5.50%, signaling a prolonged monetary policy tightening cycle. This has contributed to the continued strength of the US dollar and the persistent high uncertainty in the global financial markets, which subsequently affected the insufficient inflow of foreign capital into developing countries, including Indonesia. Meanwhile, for customer foreign exchange transactions, the Treasury Division facilitated them through the **bjb** TIP FX system. This was done to meet the real-time pricing needs for customers.

Strategi Bisnis Treasury Tahun 2024

The prospects for global economic growth in 2024 are predicted to be quite challenging, experiencing a continued slowdown, and demand caution amid high benchmark interest rates in several countries, including the United States (US) and Europe. Several risks loom over the economic performance ahead, including the potential for rising inflation, ongoing monetary tightening conditions, geopolitical tensions in Ukraine-Russia and the Middle East, and the possibility of health crises escalating at any time. The Fed is expected to maintain the Fed Funds Rate until mid-2024 and may then implement a rate cut of 50-100 bps, adjusted based on the prevailing inflation rate.

In facing the challenges of the money market in 2024, the Treasury Division consistently conducts analyses and implements strategies to align with market developments while maintaining bank liquidity and optimizing income, both in terms of interest income and fee-based income through treasury transactions. The Treasury Division will continue to develop products and services to better accommodate customer needs. The main strategy of the Treasury Division in 2024 is to continuously develop the retail business, particularly in retail bond sales and foreign exchange transactions with customers, drive increased income through rising fee-based income, custodian and fiduciary services, and enhance the yield of treasury instruments while maintaining a focus on market risks.

DANA PENSIUN LEMBAGA KEUANGAN (DPLK) BANK BJB

Penjelasan DPLK

Kegiatan utama DPLK **bjb** adalah menghimpun dana masyarakat dan mengelola kekayaan Dana Pensiun Lembaga Keuangan dengan investasi sesuai paket pilihan yang dipilih peserta. Semangat untuk berperan serta dalam mewujudkan kesejahteraan bagi masyarakat luas tidak hanya untuk saat ini namun juga dimasa depan terutama setelah masa purna tugas sehingga mendorong bank **bjb** untuk mendirikan Dana Pensiun Lembaga Keuangan (DPLK) bank **bjb**. Berdasarkan Surat Keputusan Menteri Keuangan RI Nomor: KEP-056/KM.6/2002 tanggal 18 Februari 2002 maka DPLK bank **bjb** resmi beroperasi sejak 20 Februari 2002.

Pengembangan Produk dan Layanan DPLK

Penyediaan Program Manfaat Lain atau Perluasan Kegiatan Usaha dilakukan dengan memasarkan program DPLK bank **bjb** kepada nasabah korporasi untuk memenuhi kewajiban perusahaan dalam pemberian pesangon kepada pekerja/buruh yang sifatnya wajib sesuai dengan Undang Undang Cipta kerja Nomor 11 Tahun 2020. Landasan pemanfaatan pembayaran pesangon yang dikompensasikan melalui DPLK bank **bjb** terdapat pada Peraturan Pemerintah nomor 35 Tahun 2021 tentang Perjanjian Kerja Waktu Tertentu, Alih Daya, Waktu Kerja dan Waktu Istirahat, dan Pemutusan Hubungan Pengembangan Website DPLK sebagai media informasi dan fasilitas layanan bagi peserta pemberi kerja dan calon peserta. Sebagaimana diketahui, informasi saldo dan mutasi DPLK hanya dapat diakses secara digital melalui aplikasi **bjb** digi dan hanya dapat di akses oleh peserta DPLK yang sudah menjadi nasabah tabungan bank **bjb**. Sementara untuk peserta yang belum menjadi nasabah tabungan bank **bjb**, fasilitas tersebut belum dapat diakses. Maka dari itu dikembangkan *website* DPLK untuk dapat mengakomodir peserta DPLK yang belum menjadi nasabah tabungan bank **bjb**. Fasilitas lainnya dari *website* DPLK adalah *upload* iuran peserta pemberi kerja dan pendaftaran peserta baru.

Keunggulan Layanan

Pengembangan sistem informasi dan aplikasi yang terintegrasi yang memberikan kemudahan akses layanan peserta untuk informasi dan transaksi, merupakan salah satu langkah strategis DPLK bank **bjb** di tahun 2023. Selain itu *launching website* yang sudah dilakukan di tahun 2023, merupakan salah satu pemenuhan komitmen kemudahan akses digital dari DPLK bank **bjb**. Dalam pemenuhan langkah strategis tersebut, peserta DPLK bank **bjb** saat ini sudah dapat melakukan pengecekan saldo dan mutasi DPLK melalui aplikasi **bjb** digi secara *real time*, kapan saja dan dimana saja. Sementara untuk melakukan transaksi setoran iuran diluar yang rutin (*autodebet system*), peserta dapat pula melakukan setoran melalui *counter* teller di seluruh jaringan kantor bank **bjb**, transfer antar bank serta melalui aplikasi **bjb** digi secara *real time*.

PENSION FUNDS FINANCIAL INSTITUTIONS (DPLK) BANK BJB

DPLK Explanation

The main activity of the **bjb** Financial Institution Pension Fund was to collect public funds and manage the wealth of the Financial Institution Pension Fund with investments according to the package chosen by the participants. The enthusiasm to participate in creating prosperity for the wider community not only now but also in the future, especially after retiring had encouraged bank **bjb** to establish a **bjb** Financial Institution Pension Fund (DPLK). Based on the Decree of the Minister of Finance of the Republic of Indonesia Number: KEP-056/KM.6/2002 dated February 18, 2002, bank **bjb** Financial Institution Pension Fund had officially operated since February 20, 2002.

DPLK Product and Service Development

The provision of other benefits programs or business activity expansion is carried out by marketing the bank **bjb**'s DPLK program to corporate customers to fulfill the company's obligation to provide severance pay to employees/ laborers as mandated by the Omnibus Law on Job Creation Number 11 of 2020. . The utilization basis for severance payments compensated through bank **bjb**'s DPLK is governed by Government Regulation Number 35 of 2021 concerning Temporary Employment Agreements, Outsourcing, Working Hours and Rest Time, and Termination of Employment. The development of the DPLK website serves as an information and service facility for employers and prospective participants. As is known, information regarding the balance and transactions of the DPLK can only be accessed digitally through the **bjb** digi application and is limited to DPLK participants who are already customers of **bjb** savings accounts. For participants who are not yet customers of **bjb** savings accounts, this facility cannot be accessed. Therefore, the DPLK website has been developed to accommodate DPLK participants who are not yet customers of **bjb** savings accounts. Other facilities provided by the DPLK website include uploading employer's participant contributions and registering new participants.

Service Advantage

The development of an integrated information system and application that provides easy access to participant services for information and transactions is one of the strategic steps of bank **bjb** DPLK in 2023. Apart from that, launching the website which was carried out in 2023, is one of the fulfillment of the commitment to ease digital access from DPLK bank **bjb**. In fulfilling these strategic steps, bank **bjb** DPLK participants are now able to check balances and mutations of DPLK through the **bjb** digi application in real time, anytime and anywhere. Meanwhile, to make non-routine fee deposit transactions (*autodebet system*), participants can also make deposits through teller counters throughout the bank **bjb** office network as well as through the **bjb** digi application in real time.

Pengelolaan Investasi

bjb SIAP dalam mengelola dana para peserta memiliki filosofi investasi menjaga pertumbuhan nilai aset peserta pensiun dengan fokus kepada kualitas aset dan *liability driven* (pengelolaan investasi dengan berfokus kepada likuiditas untuk pemenuhan manfaat pensiun). Dalam rangka pengelolaan dana Peserta, Kami berkomitmen teguh menerapkan prinsip kehati-hatian serta kedisiplinan dalam memenuhi ketentuan internal maupun regulator. Penerapan strategi investasi yang telah kami pada tahun 2023 di antaranya adalah sebagai berikut:

1. Menyusun paket investasi yang *adaptable* dan dinamis dalam merespon perubahan kondisi ekonomi dan pasar.
2. Pengelolaan portofolio aset secara aktif melalui *rebalancing* alokasi aset yang dilakukan secara rutin dengan mempertimbangkan *sector rotation*.
3. Penentuan alokasi aset yang disesuaikan dengan *life cycle fund* para peserta.
4. Melakukan *financial health check, valuation and negative news screening* terhadap *counterparty*.

Sedangkan upaya dalam mitigasi risiko pengelolaan investasi di antaranya sebagai berikut:

1. Menerapkan prinsip *segregation of duty* dalam proses pengelolaan portofolio aset melalui pemisahan fungsi dalam proses pengambilan keputusan antara analis, pemutus serta dealer sehingga diharapkan dapat menghindari konflik kepentingan.

Investment Management

bjb SIAP, in managing the funds of participants, adheres to an investment philosophy focused on preserving the growth of the pension assets' value with an emphasis on asset quality and liability-driven investment (investment management with a focus on liquidity for pension benefit fulfillment). In the context of Participant Fund management, we are committed to applying prudence and discipline to meet internal and regulatory requirements. The investment strategies implemented in 2023 include:

1. Developing an adaptable and dynamic investment portfolio to respond to changes in economic and market conditions.
2. Actively managing asset portfolios through routine rebalancing of asset allocations, considering sector rotation.
3. Determining asset allocations tailored to the life cycle of participants' funds.
4. Conducting financial health checks, valuations, and negative news screening for counterparties.

Efforts in mitigating investment management risks include:

1. Implementing the segregation of duty principle in the asset portfolio management process by separating decision-making functions between analysts, decision-makers, and dealers to avoid conflicts of interest.

2. Menerapkan *dual custody* dalam aktivitas administrasinya, sebagai langkah mitigasi tindakan *fraud*.
3. Menerapkan fungsi pengawasan oleh group di luar bagian investasi (Group Kepatuhan dan Manajemen Risiko) dalam kegiatan transaksi investasi.
4. Pengelolaan aset peserta dilakukan secara disiplin dalam penerapan kepatuhan terhadap ketentuan internal dan regulator.

Imbal Hasil Investasi

Imbal hasil investasi **bjb** SIAP pada akhir tahun 2023 sangat dipengaruhi oleh komposisi deposito berjangka yang saat ini masih mendominasi yaitu sebesar 86,79% dari total aset investasi. Hal ini disebabkan karena pilihan investasi dilakukan oleh para peserta, saat ini Paket Investasi 100% Deposito Berjangka (Paket Investasi pada Peraturan Dana Pensiun **bjb** SIAP Tahun 2011) masih tinggi dan belum sepenuhnya melakukan pemindahan paket ke paket investasi baru (Paket investasi Peraturan Dana Pensiun **bjb** SIAP Tahun 2021).

2. Employing *dual custody* in administrative activities as a mitigation measure against fraudulent actions.
3. Applying oversight functions by groups outside the investment department (Compliance and Risk Management Group) in investment transaction activities.
4. Disciplined management of participant assets by adhering to internal and regulatory requirements.

Investment Returns

The investment returns of **bjb** SIAP at the end of 2023 were significantly influenced by the composition of time deposits, which currently dominate at 86.79% of the total investment assets. This is due to participants’ investment choices, as the 100% Time Deposit Investment Package (Investment Package in the **bjb** SIAP Pension Fund Regulation of 2011) remains high, with a partial transition to the new investment package (Investment Package in the **bjb** SIAP Pension Fund Regulation of 2021).

Faktor Pendukung dan Penghambat Bisnis DPLK

Kondisi pemulihan setelah adanya Covid-19 (2020-2022), tahun 2023 merupakan tahun bangkitnya dan berkembang kembali sektor bisnis. Sejumlah perusahaan mulai memaksimalkan lagi produksinya sehingga daya beli atau konsumsi masyarakat yang semula menurun menjadi meningkat kembali. Dengan kondisi ekonomi yang perlahan mulai stabil, kemampuan pendanaan perusahaan dalam hal pencadangan imbalan pasca kerja dan persiapan pensiun kembali di tata. Dengan adanya UU Cipta kerja No 11 Tahun 2020 yang telah disahkan oleh Presiden Joko Widodo berlaku efektif tahun 2020 terdapat kewajiban perusahaan dalam memberikan kompensasi pesangon sesuai dengan PP 35 Tahun 2021. Serta penguatan di Undang-Undang Nomor 6 Tahun 2023 tentang Penetapan Peraturan Pemerintah Pengganti Undang-Undang Nomor 2 Tahun 2022 Tentang Cipta Kerja Menjadi Undang-Undang.

Supporting and Inhibiting Factors of DPLK Business

Recovery conditions post-Covid-19 (2020-2022): In 2023, businesses experienced a resurgence and began to thrive again. Several companies maximized their production, leading to an increase in consumer purchasing power and consumption, which had initially declined. With the economy slowly stabilizing, companies regained their financial capacity for post-employment benefit reserves and retirement preparations. The enactment of the Job Creation Law No. 11 of 2020 by President Joko Widodo, effective in 2020, imposed obligations on companies to provide severance compensation as per Government Regulation No. 35 of 2021. Additionally, the reinforcement in Law No. 6 of 2023 regarding the Determination of Government Regulation in Lieu of Law No. 2 of 2022 Concerning Job Creation became a law.

UU Cipta Kerja No 11 Tahun 2020 bukan sebagai ancaman justru sebagai peluang dan pendorong industri DPLK. Dana Pensiun menjadi sarana kompensasi atas semua kewajiban pengusaha kepada pegawai dalam proses Pemutusan Hubungan Kerja (PHK). Dengan adanya Undang-Undang No 4 Tahun 2023 tentang Pengembangan dan Penguatan Sektor Keuangan dimana beberapa penetapan yang diatur dalam Undang-Undang tersebut justru bisa menjadi peluang bagi pelaku di industri dana pensiun. Besarnya *captive market* bank **bjb** dalam sektor retail dan konsumen merupakan satu peluang potensi market yang dapat dioptimalkan untuk meningkatkan dana kelolaan DPLK bank **bjb**. Pelaksanaan literasi dan edukasi yang dilakukan secara berkesinambungan diharapkan dapat meningkatkan kesadaran masyarakat terutama nasabah bank **bjb** untuk mempersiapkan kesejahteraan hari tuanya melalui DPLK.

Rencana dan Strategi DPLK Tahun 2024

Rencana dan langkah-langkah strategis yang akan ditempuh oleh DPLK bank **bjb** di tahun 2024 adalah sebagai berikut:

1. Memperkuat *branding* DPLK bank **bjb** ke wilayah-wilayah potensial sesuai dengan Demografi Penduduk.
2. Optimalisasi program marketing kepada segmen Millennial dan Gen-Z.
3. Mengoptimalkan ekspansi bisnis DPLK bank **bjb** fokus kepada *Business Banking*, *Retail Banking*, dan *Transaksional Banking* sebagai rantai produk bank **bjb**.
4. Meningkatkan literasi dan inklusi program pensiun kepada pemberi kerja, sektor formal maupun informal serta masyarakat sesuai regulasi program pensiun.
5. Diversifikasi investasi melalui penambahan paket investasi syariah.
6. Pengelolaan investasi yang lebih *prudent* sesuai dengan *life cycle fund* peserta dan *re-balancing* aset alokasi.
7. Pengembangan aplikasi DPLK untuk mendukung kemudahan layanan kepada peserta melalui *e-channel*.
8. Optimalisasi kompetensi tenaga pemasar DPLK.
9. Penguatan APU PPT berdasarkan Peraturan Otoritas Jasa Keuangan Nomor 8 Tahun 2023 tentang Penerapan Program Anti Pencucian Uang, Pencegahan Pendanaan Terorisme, dan Pencegahan Pendanaan Profilerasi Senjata Pemusnah Massal di Sektor Jasa Keuangan.
10. Penyesuaian struktur organisasi berdasarkan Undang-Undang Nomor 4 Tahun 2023 tentang Pengembangan dan Penguatan Sektor Keuangan.

Segmen Syariah

Penjelasan Segmen Syariah

Segmen Syariah meliputi seluruh transaksi yang dilakukan oleh entitas anak yang bergerak di bidang perbankan syariah, entitas anak bank **bjb** yaitu **bjb** syariah.

Rather than a threat, the Job Creation Law No. 11 of 2020 is viewed as an opportunity and a driver for the Pension Fund industry. Pension funds serve as compensation for all employer obligations to employees during the Termination of Employment (PHK) process. With the enactment of Law No. 4 of 2023 on the Development and Strengthening of the Financial Sector, certain provisions in the law present opportunities for players in the pension fund industry. The significant captive market of bank **bjb** in the retail and consumer sectors represents a potential market opportunity that can be optimized to increase the managed funds of bank **bjb**'s Pension Fund. Continuous literacy and education efforts are expected to raise awareness among the public, especially bank **bjb** customers, encouraging them to prepare for their future well-being through the Pension Fund.

DPLK Plan and Strategies for 2024

The plans and strategic steps that will be taken by DPLK bank **bjb** for 2024 are as follows:

1. Strengthening bank **bjb**'s Pension Fund (DPLK) branding in potential regions based on population demographics.
2. Optimization of marketing programs targeting the Millennial and Gen-Z segments.
3. Maximizing the business expansion of bank **bjb**'s Pension Fund, focusing on Business Banking, Retail Banking, and Transactional Banking as the bank's product chain.
4. Enhancing retirement program literacy and inclusion for employers, both in the formal and informal sectors, as well as the general public, in accordance with pension program regulations.
5. Diversifying investments through the addition of Shariah-compliant investment packages.
6. Prudent investment management in line with the life cycle of participants and asset allocation rebalancing.
7. Developing a Pension Fund application to facilitate participant services through e-channels.
8. Optimizing the competence of DPLK marketers.
9. Strengthening the Anti-Money Laundering, Counter-Terrorism Financing, and Anti-Proliferation of Weapons of Mass Destruction (AML-CFT) based on the POJK Regulation No. 8 of 2023.
10. Adjusting the organizational structure based on Law No. 4 of 2023 on the Development and Strengthening of the Financial Sector.

Digital Banking

Dalam beberapa tahun terakhir, perkembangan teknologi telah mengubah pola transaksi keuangan nasabah, terutama dalam hal penarikan tunai tanpa kartu melalui layanan cardless. Fenomena ini memungkinkan pengguna untuk melakukan transaksi penarikan tunai dari mesin ATM tanpa perlu menggunakan kartu fisik. Proses ini dilakukan melalui aplikasi DIGI Mobile, di mana pengguna dapat menghasilkan kode unik yang dikenali oleh mesin ATM. Keunggulan utama dari metode ini adalah peningkatan keamanan dan kemudahan akses, mengurangi risiko kehilangan atau pencurian kartu fisik. Selain itu, adopsi teknologi *cardless* juga memberikan pengalaman bertransaksi yang lebih cepat dan efisien.

Sementara itu, perkembangan transaksi non tunai khususnya transfer melalui *platform digital* seperti Flip, telah menjadi semakin populer di kalangan masyarakat. Pengguna dapat dengan mudah melakukan transfer uang tanpa perlu di tanpa perlu menghadiri kantor bank fisik. Kecepatan dan kenyamanan dalam proses transfer ini meningkatkan efisiensi aktivitas keuangan sehari-hari. Perkembangan ini mencerminkan tren global menuju masyarakat yang lebih *digital*, di mana berbagai layanan keuangan dapat diakses dengan cepat melalui perangkat *mobile*, menciptakan transformasi yang signifikan dalam budaya transaksi keuangan modern.

Pada tahun 2023, bank **bjb** membukukan pendapatan *fee based income* dari layanan *e-channel* sebesar Rp462,11 miliar atau naik 2,00% secara *year on year*. Kenaikan pendapatan ini didominasi oleh peningkatan jumlah pengguna kartu ATM/Debit bank **bjb**, serta peningkatan jumlah pengguna transaksi *e-channel* bank **bjb**.

Selain itu juga, bank **bjb** menorehkan sejumlah prestasi di antaranya:

1. *Best Digital Finance for E-Banking Transactions in Real Time*, (Kategori: KBMI 2) oleh Warta Ekonomi pada tanggal 29 November 2023.
2. *Best Digital Thecnology And IOT Implementation 2023 (Banking Industry)* oleh Business Asia Indonesia pada tanggal 8 November 2023.
3. *Best Senior Executive Indonesia Digital Inovation And Achievement of The Year 2023* oleh Business Asia Indonesia pada tanggal 8 November 2023.

5. *The Best Mobile Banking Convetional Bank (KBMI)2* oleh Infobank pada tanggal 12 April 2023.

expenses. Likewise, the profitability reflected in the current year's profit and loss of 2023 reached Rp1.68 trillion decreased 25.12% compared to 2022 reached Rp2.25 trillion. Decreased of business segment income was in line with the decline in profitability.

Digital Banking

In recent years, technological advancements have transformed customer financial transaction patterns, particularly in the realm of cardless cash withdrawals through services like DIGI Mobile. This phenomenon enables users to withdraw cash from ATMs without the need for a physical card. The process is carried out through the DIGI Mobile app, where users can generate a unique code recognized by the ATM. The main advantages of this method include enhanced security and ease of access, reducing the risk of losing or theft of physical cards. Furthermore, the adoption of cardless technology provides a faster and more efficient transaction experience.

Meanwhile, the growth of non-cash transactions, especially digital transfers through platforms like Flip, has become increasingly popular among the public. Users can easily transfer money without the need to visit a physical bank branch. The speed and convenience of this transfer process enhance the efficiency of daily financial activities. This development reflects a global trend towards a more digital society, where various financial services can be accessed quickly through mobile devices, creating a significant transformation in modern financial transaction culture.

In 2023, bank **bjb** recorded fee-based income from e-channel services amounting to IDR462.11 billion, representing a 2.00% year-on-year increase. The growth in revenue is primarily driven by an increase in the number of bank **bjb** ATM/Debit card users and the rising number of e-channel transactions by bank **bjb** users.

In addition, bank **bjb** made a number of achievements including:

1. *Best Digital Finance for E-Banking Transactions in Real Time*, (Categories: KBMI 2) by Warta Ekonomi at November 29, 2023.

Kemampuan Membayar Utang dan Kolektibilitas Piutang

Kemampuan Membayar Utang

Kemampuan membayar utang tercermin dari likuiditas dan solvabilitas Bank. Berkenaan dengan obligasi yang diterbitkan, kemampuan membayar utang tercermin dari lancarnya pembayaran bunga dan pemeringkatan obligasi. Selain itu, Perseoran memiliki kebijakan tentang pemenuhan hak-hak kreditor yang tertuang dalam Standar Operasional Prosedur (SOP) Asset & Liability Management Nomor 0358/SK/DIR-TRE/2023 tanggal 29 September 2023 dan Surat Keputusan Nomor 0013/SK/ITB-BSU/2023 tanggal 27 Juni 2023 Tentang Petunjuk Teknis *Term Loan (Borrowing)* yang digunakan sebagai pedoman dalam melakukan pinjaman kepada kreditor. Tujuan dari kebijakan dimaksud adalah untuk menjaga terpenuhinya hak-hak dan menjaga kepercayaan kreditor terhadap bank **bjb**. Dalam kebijakan tersebut mencakup pertimbangan dalam melakukan perjanjian, serta tindak lanjut dalam pemenuhan kewajiban bank **bjb** kepada kreditor. Kebijakan hak-hak dasar kreditor, antara lain adalah menerima pelunasan pokok dan pembayaran bunga pada waktu yang disepakati, memperoleh hak atas denda keterlambatan pelunasan pokok dan pembayaran bunga serta meminta keterangan, informasi, dan dokumen.

Ability to Pay Debt and Collectibility of Receivables

Ability to Pay Debt

The ability to pay debts is reflected in the Bank's liquidity and solvency. With regard to bonds issued, the ability to repay debt is reflected in the smooth payment of interest and the bond rating. In addition, the bank has a policy regarding the fulfillment of the creditors contained in the Asset & Liability Management Standard Procedure (SOP) Number 0358/SK/DIR TRE/2023 dated September 29, 2023 and Decree Number 0013/SK/ITB-BSU/ 2023 dated June 27, 2023 about Term Loan (borrowing) technical instructions used as Guidelines for Loans to Creditors. The purpose of the policy referred to is to maintain the fulfillment of rights and maintain creditors' trust in bank **bjb**. The policy includes consideration in entering into an agreement, as well as a follow -up in fulfilling the obligations of bank **bjb** to creditors. The basic rights of creditors, among others, is to receive principal repayment and interest payments at the agreed time, obtain rights to the delay in the principal repayment and interest payments and request information, information, and documents.

Kemampuan Membayar Utang Jangka Pendek (Likuiditas Bank)

Pada tahun 2023, rasio kredit terhadap dana pihak ketiga atau *Loan to Deposit Ratio* (LDR) sebesar 87,54 (*bank only*) mengalami peningkatan sebesar 2,51% dibandingkan dengan LDR pada tahun 2022 yang sebesar 85,03 (*bank only*). Hal ini menunjukkan bahwa tingkat likuiditas Bank masih terjaga. Hal ini menunjukkan bahwa tingkat likuiditas bank **bjb** mengalami pengetatan.

Kemampuan Membayar Utang Jangka Panjang (Solvabilitas Bank)

bank **bjb** mengukur solvabilitas melalui rasio permodalan bank. bank **bjb** memastikan kecukupan modal bank untuk dapat memenuhi risiko kredit, risiko pasar dan risiko operasional yang tercermin dari Rasio Kecukupan Modal (*Capital Adequacy Ratio/ CAR*). CAR adalah rasio modal terhadap aset tertimbang menurut risiko (*Risk Weighted Assets/RWA*).

Pada tahun 2023, CAR Bank mencapai 20,05% (*bank only*), mengalami peningkatan jika dibandingkan dengan CAR tahun 2022 sebesar 19,19% (*bank only*), Sesuai dengan Peraturan Bank Indonesia (BI) berdasarkan POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum Bank Umum CAR minimum yang ditetapkan BI adalah sebesar 14%.

Dengan rasio CAR berada pada tingkat 20,05%, struktur permodalan bank **bjb** memiliki kapabilitas untuk mengimbangi risiko pasar, risiko kredit, dan risiko operasional di mana rasio tersebut lebih tinggi dari rasio kecukupan minimum BI dan struktur modal bank **bjb** sudah memenuhi Peraturan BI. Hal ini berarti bahwa bank **bjb** telah mengelola dengan baik modal Bank dan memiliki kecukupan modal untuk melindungi dari risiko solvabilitas.

Kemampuan Membayar Utang Dari Efek-Efek Yang Diterbitkan

Kemampuan membayar utang juga dapat tercermin berdasarkan peringkat dari efek-efek yang diterbitkan Bank yaitu obligasi. Efek-efek yang diterbitkan secara rutin dinilai oleh lembaga pemeringkatan guna mendukung kelayakan efek. Kualitas efek sangat ditentukan oleh kemampuan perusahaan penerbit efek dalam membayar efek nya pada saat jatuh tempo dan kemampuannya membayar bunga atau kupon selama jangka waktu penerbitan efek tersebut.

Capability to Pay Short Term Debt (Bank Liquidity)

In 2023, the loan to deposit ratio (LDR) of 87.54 (bank only) increase by 2.51% compared to the LDR in 2022 which was 85.03 (bank only). This shows that the level of bank liquidity is still maintained. This shows that the level of liquidity of the bank **bjb** was tightening.

Ability to Pay Long Term Debt (Bank Solvency)

bank **bjb** measures solvency through the bank's capital ratio. bank **bjb** ensures that the bank's capital is sufficient to meet credit risk, market risk and operational risk as reflected in the Capital Adequacy Ratio (CAR). CAR is the ratio of capital to risk -weighted assets (RWA).

In 2023, CAR Bank reached 20.05% (Bank only), increased compared to CAR in 2022 of 19.19% (bank only), in accordance with Bank Indonesia (BI) Regulations based on OJK Regulation Number 11/POJK.03 /2016 dated 29 January 2016 concerning the Minimum Capital Requirement for Commercial Banks. The minimum CAR set by BI is 14%.

With a CAR ratio at 20.05%, bank **bjb**'s capital structure has the capability to offset market risk, credit risk and operational risk where the ratio is higher than BI's minimum adequacy ratio and bank **bjb**'s capital structure complies with BI regulations. This means that bank **bjb** has managed the bank's capital well and has sufficient capital to protect against solvency risks.

Ability to Pay Debt from Securities Issued

The ability to pay debts can also be reflected based on the ratings of the securities issued by the Bank, namely bonds. Securities issued are routinely assessed by rating agencies to support the suitability of the securities. The quality of securities is largely determined by the ability of the securities issuing company to pay its securities at maturity and its ability to pay interest or coupons during the period during which the securities are issued.

Rasio profitabilitas yang tercermin dari ROA dan ROE turun dari tahun lalu dikarenakan laba tahun berjalan pada tahun 2023 mengalami penurunan yang diakibatkan dari peningkatan beban bunga yang berdampak juga pada rasio NIM yang terlihat turun dari tahun 2022.

Selain itu adanya penurunan kualitas kredit yang berdampak pada peningkatan NPL pada tahun 2023 untuk beberapa debitur pada kredit produktif menyebabkan peningkatan pada beban pencadangan yang juga berdampak pada perolehan laba di tahun 2023 dan juga berdampak pada peningkatan rasio BOPO.

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) digunakan sebagai dasar penetapan suku bunga kredit yang akan dikenakan oleh Bank kepada Nasabah. SBDK belum memperhitungkan komponen estimasi premi risiko yang besarnya tergantung dari penilaian Bank

The profitability ratio reflected in ROA and ROE decrease from previous years due to the decreasing of profit on the year in 2023 resulted from an increase in interest expense that affected to NIM ratio, decreasing from 2022.

Additionally, there was a decline in loans quality, which had an impact on increasing NPLs in 2023 for several debtors on productive loans, resulting in an increase in reserve expense, profit earnings in 2022, and increase in BOPO ratio.

Basic Credit Interest Rates

The Basic Credit Interest Rate (SBDK) is used as the basis for determining the credit interest rate that will be charged by the Bank to Customers. The SBDK does not yet take into account the estimated risk premium component the amount of which

terhadap risiko masing-masing debitur atau kelompok debitur. Dengan demikian, besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK. Dalam Kredit Konsumsi non KPR tidak termasuk penyaluran dana melalui kartu kredit dan Kredit Tanpa Agunan (KTA).

depends on the Bank's assessment of the risk of each debtor or group debtor. Thus, the amount of credit interest rates charged to debtors is not necessarily the same with SBDK. Non-mortgage consumer credit does not include distribution of funds via credit cards and non-mortgage credit Collateral (KTA).

Prospek Usaha dan Strategi Ke Depan Tahun 2024

Di tengah perlambatan ekonomi global dengan ketidakpastian yang tinggi, tekanan inflasi secara global diperkirakan masih tinggi dipicu oleh kenaikan harga energi dan pangan akibat eskalasi konflik geopolitik, serta fenomena El Nino. Ekonomi global diperkirakan melambat menjadi 2,8% pada 2024. Penurunan inflasi di negara maju, termasuk AS, berlanjut, meski masih berada

Business Prospects and Future Strategies In 2024

In the midst of a global economic slowdown with high uncertainty, global inflationary pressures are expected to remain high, driven by increases in energy and food prices due to the escalation of geopolitical conflicts and the El Niño phenomenon. Global economic growth is anticipated to slow down to 2.8% in 2024. Although inflation in developed countries, including the United

di atas sasaran, sementara inflasi Tiongkok menurun dipengaruhi oleh pertumbuhan ekonomi yang melambat. Siklus kenaikan suku bunga kebijakan moneter negara maju, termasuk *Fed Funds Rate* (FFR), diperkirakan telah berakhir meskipun masih bertahan tinggi pada semester I 2024, dengan kemungkinan akan mulai menurun pada semester II 2024. *Yield* obligasi Pemerintah negara maju, termasuk US Treasury, menurun secara gradual tapi masih berada di level tinggi sejalan dengan premi risiko jangka panjang (*term-premia*) terkait besarnya pembiayaan fiskal dan utang pemerintah AS. Tekanan penguatan nilai tukar dolar AS terhadap berbagai mata uang dunia juga berkurang. Perkembangan tersebut mendorong berlanjutnya aliran masuk modal asing dan mengurangi tekanan pelemahan nilai tukar di *emerging market*.

Perekonomian Indonesia diproyeksikan tetap tumbuh baik dan berdaya tahan terhadap dampak rambatan global. Percepatan belanja negara terkait penyelenggaraan Pemilu dan penguatan peran APBN sebagai *shock absorber* diharapkan dapat mendorong konsumsi Pemerintah untuk menjaga daya beli masyarakat. Pada 2024, pertumbuhan ekonomi Indonesia diperkirakan meningkat dalam kisaran 4,7%-5,5% didukung oleh permintaan domestik utamanya berlanjutnya pertumbuhan konsumsi serta peningkatan investasi khususnya bangunan sejalan dengan berlanjutnya pembangunan Proyek Strategis Nasional (PSN) termasuk Ibu Kota Nusantara (IKN). Sementara itu, kinerja ekspor diperkirakan belum kuat sebagai dampak perlambatan ekonomi global dan penurunan harga komoditas.

Transmisi kebijakan moneter berjalan dengan baik. Suku bunga pasar uang (IndONIA) bergerak dalam kisaran BI-Rate sebesar 5,81% pada 16 Januari 2024. Suku bunga Sekuritas Rupiah Bank Indonesia (SRBI) tercatat menarik pada level 6,68%, 6,78% dan 6,87% masing-masing untuk tenor 6, 9, dan 12 bulan pada 15 Januari 2024 sehingga mendukung efektivitas SRBI sebagai instrumen moneter yang *pro-market*. Sementara itu, suku bunga perbankan tetap rendah dipengaruhi oleh likuiditas perbankan yang memadai serta kebijakan transparansi SBDK yang meningkatkan efisiensi suku bunga perbankan. Ke depan, pertumbuhan kredit diperkirakan meningkat dalam kisaran 10%-12% pada 2024, sejalan dengan tetap kuatnya pertumbuhan ekonomi domestik. Kinerja transaksi ekonomi dan keuangan *digital* tetap kuat didukung oleh sistem pembayaran yang aman, lancar, dan andal. Nilai transaksi *digital banking* diproyeksikan meningkat 9,11% (yoy) hingga mencapai Rp63.803,77 triliun pada tahun 2024. Sementara nilai transaksi Uang Elektronik (UE) diproyeksikan meningkat 25,77% (yoy) hingga mencapai Rp1.051,24 triliun pada tahun 2024.

Laporan Kebijakan Moneter Triwulan IV 2023, Bank Indonesia, Januari 2024

States, continues to decline, it remains above target. Meanwhile, inflation in China is decreasing due to slowing economic growth. The cycle of interest rate hikes in monetary policy by developed countries, including the Federal Funds Rate (FFR), is expected to have ended, although rates are still projected to remain high in the first half of 2024, with the possibility of beginning to decrease in the second half of 2024. The yield on government bonds of developed countries, including US Treasuries, is gradually decreasing but remains high in line with long-term risk premiums (*term premia*) related to fiscal financing and US government debt. The pressure of the US dollar's appreciation against world currencies is also diminishing. These developments encourage the continued inflow of foreign capital and reduce the pressure on currency devaluation in emerging markets.

The Indonesian economy is expected to continue growing and remain resilient against the impacts of global uncertainties. Increased state spending related to elections and a stronger role of the state budget as a shock absorber are expected to drive government consumption to maintain public purchasing power. In 2024, Indonesia's economic growth is projected to increase in the range of 4.7%-5.5%, supported by domestic demand, particularly ongoing consumption growth and increased investment, especially in construction sectors as part of the continuation of National Strategic Projects (NSP), including the new capital (IKN). However, export performance is predicted to remain weak due to the global economic slowdown and a decline in commodity prices.

The transmission of monetary policy is proceeding smoothly. The money market interest rate (IndONIA) moved within the BI-Rate range of 5.81% on January 16, 2024. The interest rates for Bank Indonesia's Rupiah Securities (SRBI) reached attractive levels at 6.68%, 6.78%, and 6.87% for tenors of 6, 9, and 12 months, respectively, on January 15, 2024, supporting the effectiveness of SRBI as a pro-market monetary instrument. Meanwhile, bank interest rates remain low, influenced by adequate banking liquidity and the transparency policy of the Reference Interest Rate (SBDK), which enhances the efficiency of banking interest rates. Looking ahead, credit growth is expected to increase in the range of 10%-12% in 2024, in line with the continued strong growth of the domestic economy. The performance of digital economic and financial transactions remains robust, supported by a secure, smooth, and reliable payment system. The value of digital banking transactions is projected to increase by 9.11% (yoy) to reach IDR63.803,77 trillion in 2024. Meanwhile, the value of Electronic Money (EM) transactions is expected to increase by 25.77% (yoy) to IDR1.051,24 trillion in 2024.

Dengan proyeksi tersebut bank **bjb** yakin memiliki prospek yang baik serta peluang untuk terus tumbuh secara berkelanjutan. Peluang yang dimiliki bank **bjb** antara lain sebagai berikut:

1. Berdasarkan skala pasar sebagian besar Kantor Cabang bank **bjb** masih menjadi market nichers di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya dari sisi aset baik DPK maupun kredit.
2. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh Bank Indonesia dan OJK dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat *in the bottom of the pyramid* untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), *transfer*, menabung maupun pinjaman dan asuransi.
3. Kegiatan pelaku ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
4. Berbagai proyek pembangunan infrastruktur termasuk Proyek Strategis Nasional berada di wilayah kerja Jawa Barat dan Banten sehingga bank **bjb** memiliki kesempatan untuk memaksimalkan penyaluran kredit dan mampu mendorong pertumbuhan ekonomi daerah secara optimal.
5. Dukungan dari pemerintah daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Potensi yang masih besar dalam pengembangan produk *digital* untuk menasar segmen ritel dan membangun ekosistem bisnis bank **bjb**.

Berdasarkan hal yang telah dijabarkan di atas, bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Hal ini didasarkan pada kekuatan yang dimiliki oleh bank **bjb** yaitu:

1. Berada di Provinsi Jawa Barat dan Banten yang mempunyai sumber daya alam yang luas, sumber daya manusia dan kawasan industri besar serta kegiatan ekonomi yang terus berkembang.
2. Sebagai institusi pengelola keuangan kas daerah bank **bjb** memiliki akses yang luas dalam menghimpun dan menyalurkan dana masyarakat serta telah tercatat sebagai perusahaan publik yang melantai di Bursa Efek Indonesia (BEI).
3. Memiliki basis nasabah yang loyal dalam jumlah sangat besar yaitu Aparatur Sipil Negara (ASN), para Pensiunan dan masyarakat lokal, terutama di wilayah Jawa Barat dan Banten sehingga memudahkan dalam pembangunan ekosistem transaksi.

With these projections, bank **bjb** is confident that it has good prospects and opportunities to continue to grow sustainably. Opportunities that bank **bjb** has include the following:

1. Based on market scale, most bank **bjb** branch offices are still market nichers in their operational areas so they still have quite a big opportunity to increase their market share in terms of assets, both deposits and credit.
2. The public's financial literacy is increasingly increasing through programs launched by Bank Indonesia and the OJK in order to implement inclusive financial policies as a form of financial service deepening aimed at the community at the bottom of the pyramid to utilize formal financial products and services such as facilities. keeping money safe (keeping), transfers , savings as well as loans and insurance.
3. The relatively high activity of economic actors in the provinces of West Java, Banten and DKI Jakarta represents the potential for credit and funding development.
4. Various infrastructure development projects including National Strategic Projects are in the West Java and Banten working areas so that bank **bjb** has the opportunity to maximize credit distribution and be able to encourage optimal regional economic growth.
5. Consistent and continuous support from the regional government in developing bank **bjb** as a driver and driver of the regional economy.
6. There is still great potential in developing digital products to target the retail segment and build the bank **bjb** business ecosystem .

Based on what has been explained above, bank **bjb** is optimistic that it can continue to improve performance in the short and long term in a sustainable manner. This is based on the strengths possessed by bank **bjb**, namely:

1. Located in the provinces of West Java and Banten which have extensive natural resources, human resources and large industrial areas as well as economic activities that continue to develop.
2. As a regional treasury financial management institution, bank **bjb** has broad access to collect and distribute public funds and has been listed as a public company listed on the Indonesia Stock Exchange (BEI).

Achievement of Targets and Future Targets

Target Achievement 2023

The realization of the business plan for the 2023 period is presented in the form of a comparison of targets and performance achievements of bank **bjb** December 2023.

Comparison of Financial Target and Realization

Information on the 2023 financial target and realization is presented as follows.

bank **bjb** pada tahun 2023 berhasil melampaui target aset sebesar 100,34% dengan realisasi mencapai Rp176,48 triliun (*bank only*). Pencapaian dana pihak ketiga sebesar 99,37% sedikit berada di bawah target, namun jika dilihat dari sisi tabungan dan deposito berhasil melampaui target masing-masing mencapai 108,80% dan 102,95% yang menunjukkan tingginya tingkat kepercayaan masyarakat kepada bank **bjb**.

Pencapaian target kredit yang diberikan sedikit berada di bawah target yaitu sebesar 99,23% dengan realisasi mencapai Rp116,14 triliun (*bank only*). NPL gross bank **bjb** tahun 2023 dapat terjaga di level 1,35% (*bank only*) lebih baik dibandingkan target 1,42% (*bank only*) dikarenakan penyaluran kredit dilakukan secara selektif dengan senantiasa memperhatikan prinsip kehati-hatian (*prudent*).

Pendapatan bunga dan syariah berhasil mencapai target sebesar 101,06% dengan realisasi mencapai Rp13,32 triliun (*bank only*), namun dengan adanya pengaruh pertumbuhan kenaikan beban bunga yang mencapai 37,50%, bank **bjb** masih belum melampaui target laba tahun berjalan yang mencapai 88,86% atau terealisasi Rp1,72 triliun (*bank only*) di tahun 2023.

Dari sisi rasio, rasio CAR, ROE, ROA dan NIM berada di bawah target dengan pencapaian masing-masing sebesar 96,86%, 79,64%, 78,66% dan 94,40% yang merupakan dampak dari kenaikan beban bunga. Ke depannya bank **bjb** akan senantiasa melakukan evaluasi pelaksanaan strategi yang telah ditetapkan, sehingga kinerja bank **bjb** di masa yang akan datang akan mengalami peningkatan.

In 2023, bank **bjb** had succeeded in exceeding its asset target as of 100.34% with realization reaching IDR 176.48 trillion (*bank only*). The achievement of third party funds as of 99.37% was slightly below the target, but, if in terms of savings and deposits, it succeeded in exceeding the target, reaching as of 108.80% and 102.95%, respectively, depicting the high level of public trust in bank **bjb**.

Achievement of the provided loans target was slightly below the target, such as 99.23% with realization reaching IDR 116.14 trillion (*bank only*). bank **bjb**'s NPL gross in 2023 could be maintained at the level of 1.35% (*bank only*), which was better than the target as of 1.42% (*bank only*). This was because credit distribution was performed selectively, while always considering the principle of prudence.

Interest and sharia income successfully reached the target as of 101.06% with realization reaching IDR 13.32 trillion (*bank only*). However, due to the influence of the growth in interest expenses reaching as of 37.50%, bank **bjb** still did not exceed the target of profit on the year, which reached as of 88.86% or realized IDR 1.72 trillion (*bank only*) in 2023.

In terms of ratio, the CAR, ROE, ROA and NIM ratios were below the target with achievements as of 96.86%, 79.64%, 78.66%, and 94.40%, respectively, which was due to the increase in interest expenses. In the future, bank **bjb** will always evaluate the implementation of the strategies that have been determined so that bank **bjb**'s performance will increase.

Policies, Announcements and Payment of Dividend

Dividend Policy

The policy regarding dividends is regulated in the Decree of the Board of Directors of PT Bank Pembangunan Daerah West Java and Banten, Tbk. Number: 0062/SK/DIR-PST/2024 concerning

ditetapkan pada tanggal 16 Februari 2024. Kebijakan tersebut mengatur mengenai prinsip pembagian dividen, jenis dividen, pertimbangan bank **bjb** dalam pembagian dividen, perhitungan besaran dividen, dan mekanisme persetujuan usulan besaran dividen.

Evaluasi terhadap kebijakan dividen ini dilakukan secara berkala minimal 1 (satu) tahun sekali sesuai ketentuan yang berlaku atau kebutuhan khususnya apabila terdapat penetapan/perubahan ketentuan dari Regulator yang mempengaruhi kebijakan dividen. Berdasarkan kebijakan dividen, perhitungan besaran dividen yang diberikan, menggunakan rasio pembayaran dividen atau *Dividend Payout Ratio* (DPR) paling sedikit 30% (tiga puluh persen) dari laba bersih bank **bjb**.

Pertimbangan bank **bjb** dalam pembagian dividen memperhatikan pertimbangan internal dan eksternal antara lain:

1. Pertimbangan Internal

- Realisasi kinerja keuangan;
- Rencana pertumbuhan bisnis;
- Prospek profitabilitas yang akan datang;
- Tingkat kesehatan;
- Pemenuhan tingkat kecukupan permodalan;
- Potensi risiko dari internal bank; dan
- Kebutuhan penguatan permodalan di masa depan.

2. Pertimbangan Eksternal

- Kondisi dan prospek perekonomian (*market wide*);
- Potensi risiko dari eksternal bank; dan
- Pemenuhan ketentuan peraturan perundang-undangan, antara lain perpajakan.

Pengumuman dan Pembayaran Dividen

Anggota CCP merupakan pihak yang memenuhi persyaratan untuk menggunakan layanan jasa kliring berdasarkan kriteria yang ditetapkan oleh CCP. Secara umum CCP menempatkan dirinya di antara para pihak yang melakukan transaksi, sehingga CCP akan bertindak sebagai penjual bagi pembeli dan sebagai pembeli bagi penjual. Penyelenggaraan CCP di dalam negeri sesuai dengan peraturan perundang-undangan mengenai penyelenggaraan lembaga <i>central counterparty</i>. Tujuan pembentukan CCP antara lain: <ol style="list-style-type: none"> mendukung pengembangan pasar keuangan; menurunkan risiko kredit; dan meningkatkan efisiensi transaksi seperti transaksi derivatif. Dalam ketentuan ini diatur terkait perhitungan permodalan untuk eksposur Bank terhadap CCP. Eksposur tersebut meliputi: <ol style="list-style-type: none"> Derivatif <i>Over-The-Counter</i> (OTC); Derivatif melalui bursa (<i>exchange traded derivative</i>); <i>Long settlement transaction</i>; dan <i>Securities Financing Transaction</i> (SFT), yang memiliki risiko kredit sehingga perlu diperhitungkan dalam kewajiban penyediaan modal minimum Bank. Eksposur yang berasal dari kegagalan penyerahan kas dan/atau instrumen keuangan pada tanggal penyelesaian (<i>settlement date</i>) dari transaksi penjualan atau pembelian instrumen keuangan, termasuk default fund contribution untuk eksposur dimaksud, dikecualikan dari cakupan perhitungan eksposur yang ditransaksikan dengan CCP. Instrumen keuangan antara lain saham, spot nilai tukar, atau <i>spot</i> komoditas. Perhitungan eksposur transaksi penjualan atau pembelian instrumen keuangan yang diikuti penyerahan kas dan/atau instrumen keuangan sebagaimana dimaksud pada angka 4 sesuai dengan Surat Edaran Otoritas Jasa Keuangan mengenai perhitungan aset tertimbang menurut risiko untuk risiko kredit dengan menggunakan pendekatan standar bagi bank umum. Bank harus memelihara kecukupan modal untuk eksposur yang timbul dari transaksi dengan <i>qualifying</i> CCP (QCCP) maupun nonQCCP. QCCP merupakan entitas yang memiliki izin untuk beroperasi sebagai CCP, termasuk izin untuk memperoleh pengecualian, dan memperoleh izin dari regulator atau pengawas yang sesuai untuk beroperasi sebagai CCP sesuai dengan produk yang ditawarkan. Dalam hal: <ol style="list-style-type: none"> Transaksi dengan CCP meningkatkan eksposur risiko; Belum terdapat kejelasan terkait pemenuhan persyaratan CCP sebagai QCCP; dan/atau Otoritas yang berwenang menemukan kelemahan signifikan pada CCP yang belum diselesaikan oleh CCP dimaksud, Bank harus mempertimbangkan untuk menambah modal. Dalam hal Bank bertindak sebagai anggota CCP, Bank harus melakukan penilaian menggunakan skenario yang memadai dan <i>stress testing</i> terhadap kecukupan permodalan untuk eksposur kepada CCP guna memitigasi risiko inheren dari transaksi tersebut. Penilaian ini mencakup potensi eksposur di kemudian hari atau eksposur kontinjensi yang berasal dari penarikan di kemudian hari atas default fund <i>commitment</i> dan/atau <i>secondary commitment</i> untuk mengambil alih atau mengganti transaksi saling hapus (<i>offsetting transaction</i>) dari nasabah yang berasal dari anggota CCP lain dalam hal anggota CCP tersebut mengalami gagal bayar atau insolven.

Changes In Legal Regulations and Its Impact on Bank

Changes in laws and regulations that affect bank **bjb** along with the impact of changes and information on adjustments made by bank **bjb** of these changes during 2023 are as follows:

<ol style="list-style-type: none"> 1. Central Counterparty (CCP) institutions are established to clear transactions conducted by their members. CCP members are parties that meet the criteria for using clearing services based on criteria set by the CCP. Generally, the CCP positions itself between the transacting parties, acting as a seller to the buyer and as a buyer to the seller. 2. The operation of domestic CCPs is in accordance with laws and regulations regarding the operation of central counterparty institutions. The purposes of establishing a CCP include: <ol style="list-style-type: none"> a. supporting the development of the financial market; b. reducing credit risk; c. increasing transaction efficiency, such as for derivative transactions. 3. This provision regulates the capital calculation for a bank's exposure to CCPs. These exposures include: <ol style="list-style-type: none"> a. Over-The-Counter (OTC) derivatives; b. Exchange-traded derivatives; c. Long settlement transactions; d. Securities Financing Transactions (SFT), which carry credit risk and thus need to be considered in the Bank's minimum capital requirements. 4. Exposures arising from failure to deliver cash and/or financial instruments on the settlement date of financial instrument sale or purchase transactions, including default fund contributions for said exposures, are excluded from the exposure calculation transacted with the CCP. Financial instruments include stocks, spot exchange rates, or spot commodities. 5. The exposure calculation for the sale or purchase of financial instruments that involves the delivery of cash and/or financial instruments as mentioned in point 4 is in accordance with the OJK Circular Letter (SEOJK) on risk-weighted asset calculations for credit risk using the standard approach for general banks. 6. The Bank must maintain capital adequacy for exposures arising from transactions with qualifying CCPs (QCCPs) and non-QCCPs. 7. A QCCP is an entity that is licensed to operate as a CCP, including obtaining exemptions, and is authorized by the appropriate regulator or supervisor to operate as a CCP in accordance with the offered products.. 8. In cases where: <ol style="list-style-type: none"> a. Transactions with a CCP increase exposure risk; b. There is no clarity regarding the CCP's compliance as a QCCP; and/or c. The competent authority finds significant weaknesses in the CCP that have not been resolved by the CCP, the Bank should consider increasing capital. 9. When the Bank acts as a CCP member, it must assess using adequate scenarios and stress testing the capital adequacy for exposures to the CCP to mitigate the inherent risks of such transactions. This assessment includes potential future exposure or contingent exposure arising from future calls on default fund commitments and/or secondary commitments to take over or replace offsetting transactions from clients originating from other CCP members in case of default or insolvency. 	<ol style="list-style-type: none"> 1. Standar mengenai <i>Capital requirements for bank exposures to central counterparties</i> yang diterbitkan oleh Basel Committee on Banking Supervision (BCBS) pada tahun 2020 merupakan respon krisis tahun 2007-2008 yang menunjukkan lemahnya ketahanan bank dan pelaku pasar lain terhadap adanya <i>shock</i>. Dalam konteks transaksi derivatif <i>Over-The-Counter</i> (OTC), hal ini menunjukkan pentingnya memitigasi risiko sistemik yang disebabkan oleh transaksi derivatif OTC sehingga G20 menginisiasi program reformasi antara lain agar transaksi derivatif OTC diklirngkan melalui <i>central counterparty</i> (CCP). Oleh karena itu, diperlukan adanya standar di Indonesia yang dapat menjadi dasar pengaturan dan perhitungan eksposur terhadap transaksi derivatif yang diklirngkan melalui lembaga CCP. 2. The Basel Committee on Banking Supervision (BCBS) released the Standard on Capital Requirements for Bank Exposures to Central Counterparties in 2020 as a response to the 2007-2008 crisis, highlighting the vulnerability of banks and other market participants to shocks. In the context of Over-The-Counter (OTC) derivative transactions, this underscores the importance of mitigating systemic risks caused by OTC derivative transactions. Consequently, the G20 initiated a reform program, including the clearing of OTC derivative transactions through central counterparties (CCP). Therefore, it is essential to establish standards in Indonesia that can serve as the basis for the regulation and calculation of exposures to derivatives transactions cleared through CCP institutions 2. The legal framework for this SEOJK is in accordance with Article 42A of OJK Regulation No. 27/2022, the Second Amendment to OJK Regulation (POJK) No. 11/POJK.03/2016 concerning the Minimum Capital Adequacy Requirements for Commercial Banks. 3. Therefore, in the Regulation on KPMM, the Bank is obliged to meet margin requirements, especially for derivative transactions not cleared through a central counterparty (CCP), referred to as Non-Centrally Cleared Derivative (NCCD) transactions.). 2. The implementation of margin requirements for NCCD transactions is based on 8 (eight) principles as follows: <ol style="list-style-type: none"> a. Margin coverage for derivative transactions applies to all NCCD derivative transactions, with exceptions for certain derivative instruments as specified in this OJK Circular Letter (SEOJK). b. Margin coverage for banks applies to NCCD transactions with each counterparty as specified in this SEOJK. The exchanged margin includes initial margin and variation margin according to the counterparty's risk arising from the transaction. c. The minimum amount and methodology for calculating initial margin and variation margin calculation methods apply consistently and aim to fully protect the counterparty's risk exposure. d. Assets meeting margin requirements must be liquid and retain their value under financial stress conditions after considering appropriate haircuts. e. Treatment of received initial margin must be on a gross basis, and received margin cannot be rehypothecated or reused. f. Transactions with affiliated margin exchanges, as specified in this OJK Circular Letter (SEOJK), are not mandatory for transactions with affiliates. 	<ol style="list-style-type: none"> 1. Standar mengenai <i>Margin Requirements for Non-Centrally Cleared Derivatives</i> (NCCD) yang diterbitkan oleh Basel Committee on Banking Supervision (BCBS) merupakan respon krisis tahun 2007-2008 yang menunjukkan lemahnya ketahanan bank dan pelaku pasar lain terhadap adanya <i>shock</i>. Oleh karena itu, G20 menginisiasi program reformasi yang antara lain mendorong agar transaksi derivatif <i>over-the-counter</i> (OTC) dikliringkan melalui <i>central counterparty</i> (CCP), serta perlunya penyediaan margin yang cukup untuk transaksi derivatif yang tidak dikliringkan melalui CCP (transaksi NCCD) dalam rangka mitigasi risiko. Dalam hal ini, diperlukan adanya standar bagi perbankan di Indonesia yang dapat menjadi dasar pengaturan persyaratan margin dimaksud. 2. Payung hukum SEOJK ini sebagaimana diamanatkan dalam Pasal 42B POJK Nomor 27 Tahun 2022 tentang Perubahan Kedua atas Peraturan Otoritas Jasa Keuangan Nomor 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum. 3. Ketentuan umum mengenai persyaratan margin untuk transaksi derivatif yang tidak dikliringkan melalui lembaga <i>central counterparty</i> yang mencakup 8 (delapan) prinsip. 4. Pengaturan pengelolaan margin baik initial margin maupun variation margin termasuk perjanjian antara pihak yang melakukan transaksi NCCD dan juga pengadministrasian data di internal Bank. 5. Kewajiban penerapan persyaratan margin sesuai SEOJK ini mulai berlaku untuk kontrak transaksi NCCD yang disepakati sejak tanggal 1 September tahun berikutnya setelah <i>qualifying</i> CCP pertama mulai beroperasi di Indonesia. 1. The standards on Margin Requirements for Non-Centrally Cleared Derivatives (NCCD) issued by the Basel Committee on Banking Supervision (BCBS) are a response to the 2007-2008 crisis, which exposed the banking sector and other market participants' vulnerability to shocks. Consequently, the G20 initiated a reform program that, among other measures, encourages the clearing of over-the-counter (OTC) derivative transactions through a central counterparty (CCP) and requires adequate margin provisioning for non-CCP cleared derivative transactions (NCCD transactions) as a risk mitigation measure. This necessitates a standard for banking in Indonesia that can serve as the basis for setting the aforementioned margin requirements.

Dampak Perubahan Peraturan Perundang-Undangan Terhadap Laporan Keuangan

Perubahan peraturan perundang-undangan yang telah dijabarkan di atas tidak memiliki dampak kuantitatif yang signifikan terhadap Laporan Keuangan bank **bjb**.

Perubahan Kebijakan Akuntansi

Perubahan kebijakan akuntansi dilakukan dalam rangka mematuhi Pernyataan Standar Akuntansi Keuangan (PSAK) yang berlaku yang relevan dengan operasi bank **bjb**. Berikut amendemen dan penyesuaian atas standar yang berlaku efektif untuk periode yang dimulai pada atau setelah 1 Januari 2023, dengan penerapan dini diperkenankan yaitu:

- Amendemen PSAK 1: Penyajian Laporan Keuangan tentang Pengungkapan Kebijakan Akuntansi;
- Amendemen PSAK 16: Aset Tetap tentang Hasil Sebelum Penggunaan yang Diintensikan;
- Amendemen PSAK 25: Kebijakan Akuntansi, Perubahan Estimasi Akuntansi dan Kesalahan tentang Definisi Estimasi Akuntansi;
- Amendemen PSAK 46: Pajak Penghasilan tentang Pajak Tanggungan Terkait Aset dan Liabilitas Yang Timbul Dari Transaksi Tunggal;
- Revisi PSAK 107: Akuntansi Ijarah.

Implementasi standar-standar tersebut tidak memiliki dampak yang signifikan terhadap jumlah yang dilaporkan di periode berjalan atau tahun sebelumnya pada laporan keuangan bank **bjb**.

Tingkat Kesehatan Bank

Mengacu pada Surat Edaran Otoritas Jasa Keuangan (SEOJK) Nomor 14/SEOJK.03/2017 tanggal 17 Maret 2017 tentang Penilaian Tingkat Kesehatan Bank Umum. Tingkat Kesehatan Bank adalah hasil penilaian kondisi Bank yang dilakukan terhadap Risiko dan kinerja Bank.

Bank wajib melakukan penilaian Tingkat Kesehatan Bank secara *self assessment* untuk posisi akhir bulan Juni dan Desember. Penilaian Tingkat Kesehatan dengan pendekatan Risiko (*Risk-Based Bank Rating*) tersebut dilakukan dengan cakupan penilaian terhadap faktor-faktor:

- a. Profil Risiko
- b. Tata Kelola
- c. Rentabilitas
- d. Permodalan

Peringkat Komposit Tingkat Kesehatan Bank ditetapkan berdasarkan analisis yang komprehensif dan terstruktur dengan memperhatikan materialitas dan signifikansi masing-masing faktor penilaian.

The Impact of Changes in Statutory Regulations on Financial Statements

The changes in statutory regulations described above do not have a significant quantitative impact on bank **bjb**'s financial statements

Changes In Accounting Policies

Changes in accounting policies are carried out in order to comply with the applicable Statement of Financial Accounting Standards (PSAK) which are relevant to bank **bjb** operations. The following amendments and adjustments to the standards are effective for the period starting on or after January 1 2023, with early application permitted, namely:

- Amendment to PSAK 1: Presentation of Financial Reports regarding Disclosure of Accounting Policies;
- Amendment to PSAK 16: Fixed Assets regarding Results Before Intended Use;
- Amendment to PSAK 25: Accounting Policies, Changes in Accounting Estimates and Errors regarding the Definition of Accounting Estimates;
- Amendment to PSAK 46: Income Tax regarding Deferred Taxes Related to Assets and Liabilities Arising from Single Transactions;
- Revised PSAK 107: Ijarah Accounting.

The implementation of these standards does not have a significant impact on the amounts reported in the current period or previous year in bank **bjb** financial statements.

Bank Soundness Level

Referring to the OJK Circular Letter (SEOJK) Number 14/SEOJK.03/2017 dated March 17, 2017 concerning Assessment of the Soundness Level of Commercial Banks. Bank Soundness Level is the result of an assessment of the Bank's condition regarding Bank Risk and performance.

Banks are required to carry out a thorough assessment of the Bank Soundness Level self-assessment for positions at the end of June and December. Bank Soundness Level Assessment with a Risk approach (*Risk-Based Bank Rating*) is carried out with the scope of the assessment to factors:

- a. Risk Profile
- b. Governance
- c. Profitability
- d. Capital

The Bank Soundness Composite Rating is determined based on a comprehensive and structured analysis taking into account the materiality and significance of each assessment factor.

Peringkat Komposit Tingkat Kesehatan Bank dikategorikan sebagai berikut:

- Peringkat Komposit 1 (PK-1) mencerminkan kondisi Bank yang secara umum Sangat Sehat.
- Peringkat Komposit 2 (PK-2) mencerminkan kondisi Bank yang secara umum Sehat.
- Peringkat Komposit 3 (PK-3) mencerminkan kondisi Bank yang secara umum Cukup Sehat.
- Peringkat Komposit 4 (PK-4) mencerminkan kondisi Bank yang secara umum Kurang Sehat.
- Peringkat Komposit 5 (PK-5) mencerminkan kondisi Bank yang secara umum Tidak Sehat.

Struktur Permodalan Capital Structure

Beberapa perkembangan peraturan yang signifikan mempengaruhi kondisi operasional dan bisnis bank **bjb** ke depan antara lain tercermin dari terbitnya Peraturan Otoritas Jasa Keuangan Nomor 12/POJK.03/2021 tentang Bank Umum. Berdasarkan POJK tersebut bank **bjb** yang sebelumnya dalam kategori Bank Umum berdasarkan Kegiatan Usaha (BUKU) III menjadi Kelompok Bank Berdasarkan Modal Inti (KBMI) 2 (Bank dengan Modal Inti lebih dari Rp6 triliun sampai dengan Rp14 triliun). Masuknya modal inti bank **bjb** dalam kategori KBMI 2 membuat kegiatan usaha yang dapat dilakukan oleh bank **bjb** menjadi lebih luas, serta dapat meningkatkan kepercayaan nasabah dalam melakukan aktivitas kegiatan perbankannya melalui bank **bjb**. Per akhir Desember 2023, modal inti dan modal pelengkap bank **bjb** (*audited*) mencapai Rp17,61 triliun (individu) Rp18,91 triliun (konsolidasi) dan berada pada kategori KBMI 2. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat.

Komponen permodalan bank **bjb** didominasi oleh komponen permodalan yang bersifat permanen, dimana komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank. Pada posisi bulan Desember 2023 rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank mencapai 20,05% dan 20,17%. Rasio tersebut berada di atas ketentuan yang ditetapkan oleh Bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank baik secara individual dan konsolidasi di bulan Desember 2023 mencapai 15,25% dan 15,61% yang berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

Several regulatory developments that significantly affected the operational and business conditions of bank **bjb** in the future are reflected in the issuance of the Financial Services Authority (OJK) Regulation Number 12/POJK.03/2021 concerning Commercial Banks. Based on the OJK Regulation, bank **bjb**, which was previously in the category of Commercial Banks based on Business Activities (BUKU) III, became a Group of Banks Based on Core Capital (KBMI) 2 (Banks with a Core Capital of more than IDR6 trillion to IDR14 trillion). The inclusion of bank **bjb** core capital in the KBMI 2 category made business activities that could be carried out by bank **bjb** wider, and can increase customer confidence in carrying out banking activities through bank **bjb**. As of the end of December 2023, bank **bjb** core capital and supplementary capital (*audited*) reached IDR17.61 trillion (bank only) IDR18.91 trillion (consolidated). An effective, strong, and efficient capital strategy became the focus of management as bank **bjb** continued to grow to become a bigger and stronger bank.

bank **bjb** capital component was dominated by the permanent capital component, the core capital component was the largest component in the bank's capital structure. In December 2023, the ratio of bank **bjb** core capital, both bank only and consolidated, to the bank's total RWA reached 20.05% and 20.17%. This ratio was above the provisions stipulated by Bank Indonesia with a minimum limit of 6% both individually and consolidated. The calculation of Common Equity Tier 1 Ratio to the total RWA of banks both individually and consolidated in December 2023 reached 15.25% and 15.61% which was above the provisions set by Bank Indonesia with a minimum limit of 4.50%.

Kecukupan Permodalan

Sebagai salah satu pengungkapan Basel II Pilar III, Otoritas Jasa Keuangan telah menerbitkan Surat Edaran Otoritas Jasa Keuangan Nomor 26/SEOJK.03/2016 tanggal 14 Juli 2016 perihal Kewajiban Penyediaan Modal Minimum sesuai Profil Risiko dan Pemenuhan *Capital Equivalency Maintained Assets* (CEMA). Sehubungan hal tersebut, bank telah mengembangkan dan menerapkan metodologi untuk penerapan *Internal Capital Adequacy Assessment Process* (ICAAP) dimana metodologi tersebut telah dibahas dan disetujui dalam Komite Manajemen Risiko bank **bjb**. Laporan rasio kecukupan penyediaan modal minimum sesuai Profil Risiko dilaporkan secara berkala kepada Dewan Komisaris dan Direksi sebagai salah satu bentuk kepatuhan terhadap ketentuan Surat Edaran Otoritas Jasa Keuangan tersebut.

Pengukuran internal yang dilakukan bank telah memperhitungkan Pilar I dan Pilar II yaitu rasio kecukupan modal bank minimum sesuai profil risiko baik secara individual maupun konsolidasi di bulan Desember 2023 mencapai 9,17% dimana hasil pengukuran profil risiko bank pada periode tersebut berada pada level peringkat komposit *Low to Moderate*. Pada posisi bulan Desember 2023 rasio kecukupan modal minimum bank baik secara individual sebesar 20,05% serta konsolidasi sebesar 20,17%.

Sejalan telah diterbitkannya POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum bank Umum, saat ini bank telah mempersiapkan infrastruktur yang baik dan efektif dalam rangka memastikan implementasi POJK tersebut tidak mengganggu ekspansi bisnis dan aktivitas operasional bank **bjb**. Sesuai POJK tersebut, bank harus menyediakan rasio kecukupan modal minimum sesuai profil risiko bank ditambah dengan *Capital Conservation Buffer*, *Countercyclical Buffer* dan *Capital Surcharge* untuk D-SIB (*Domestic Systemically Important* bank). *Capital Conservation Buffer* tersebut diperlukan oleh bank sebagai upaya penyangga (*buffer*) dalam menghadapi kerugian akibat kondisi krisis, sedangkan *Countercyclical Buffer* dibutuhkan bank sebagai tambahan modal penyangga untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan.

Bank selalu melakukan perbaikan dan pengembangan baik dari segi produk dan jasa serta peningkatan infrastruktur manajemen risiko bank melalui analisis yang komprehensif disertai dengan riset yang memadai sehingga dapat menjaga agar aktivitas bisnis dan operasional bank tetap *prudent* dan berada dalam batas toleransi risiko bank. Selain itu pula, bank telah menetapkan *risk appetite* dan *risk tolerance* agar kecukupan permodalan yang dimiliki bank masih memadai dan mampu mengcover kerugian ataupun potensi risiko kerugian yang timbul dari aktivitas operasional bank.

Pengelolaan modal risiko kredit bank **bjb** berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 42/SEOJK.03/2016 tanggal 28 September 2016 perihal Pedoman Perhitungan

Adequacy of Capital

As one of the Basel II Pillar III disclosures, the Financial Services Authority (OJK) issued a Circular Letter Number 26/SEOJK.03/2016 dated July 14, 2016, concerning Minimum Capital Requirements in accordance with Risk Profile and Fulfillment of Capital Equivalency Maintained Assets (CEMA). In this regard, bank has developed and implemented a methodology for implementing the Internal Capital Adequacy Assessment Process (ICAAP) where the methodology has been discussed and approved in bank **bjb** Risk Management Committee. The report on the minimum capital adequacy ratio in accordance with the Risk Profile is reported regularly to the Board of Commissioners and Board of Directors as a form of compliance with the provisions of the OJK Circular Letter.

Internal measurements carried out by bank considered Pillar I and Pillar II, namely the minimum bank capital adequacy ratio according to the risk profile both individually and consolidated in December 2022 reaching 9.24%. The results of the measurement of the bank's risk profile for that period were at the composite Low to Moderate rating level. In December 2023, the minimum capital adequacy ratio for bank only was 20.05% and consolidated at 20.17%.

In line with the issuance of the Financial Services Authority (OJK) Regulation Number 11/POJK.03/2016 dated January 29, 2016, concerning the Minimum Capital Requirement for Commercial Banks, currently bank has prepared a good and effective infrastructure in order to ensure the implementation of the OJK Regulation does not disrupt the business expansion and operational activities of bank **bjb**. In accordance with the OJK Regulation, banks must provide a minimum capital adequacy ratio according to bank risk profile plus a Capital Conservation Buffer, Countercyclical Buffer and Capital Surcharge for D-SIB (Domestic Systemically Important Bank). The Capital Conservation Buffer is needed by banks as a buffering effort in dealing with losses due to crisis conditions, while the Countercyclical Buffer is needed by banks as additional buffer capital to anticipate losses in the event of excessive bank loan growth that has the potential to disrupt financial system stability.

The bank always makes improvements and developments both in terms of products and services as well as improving the bank risk management infrastructure through comprehensive analysis accompanied by adequate research so that it can maintain activities the bank business and operations remain prudent and are within the limits of bank risk tolerance. In addition, the bank has determined risk appetite and risk tolerance so that the capital adequacy of the bank is still sufficient and able to cover losses or potential risk of losses arising from the bank operational activities.

The management of bank **bjb** credit risk is guided by the the Financial Services Authority (OJK) Circular Letter Number 42/SEOJK.03/2016 dated September 28, 2016, concerning Guidelines

Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar. Penetapan bobot risiko pada perhitungan ATMR mengacu kepada bobot risiko sesuai ketentuan Otoritas Jasa Keuangan dimaksud.

Dalam mengukur ATMR Risiko Pasar, bank mempergunakan format *standardized method* yang meliputi perhitungan risiko suku bunga dan risiko nilai tukar dengan berpedoman pada Surat Edaran Otoritas Jasa Keuangan nomor 38/SEOJK.03/2016 tanggal 8 September 2016 tentang Pedoman Penggunaan Metode Standar dalam Perhitungan Kewajiban Penyediaan Modal Minimum Bank Umum dengan Memperhitungkan Risiko Pasar. Sesuai dengan pedoman yang ditetapkan oleh bank Indonesia, risiko pasar yang wajib dihitung oleh bank adalah risiko suku bunga di *trading book* dan risiko nilai tukar di *trading book* dan *banking book*. Sebagai upaya ke tahap pengembangan internal model, bank telah melakukan pengukuran *Value at Risk*, dan sensitivitas risiko dari *portfolio dealing room* untuk setiap efek yang dikategorikan ke dalam *Trading Book*.

Perhitungan kecukupan modal risiko operasional masih menggunakan metode pendekatan standar yang dilakukan sesuai dengan Surat Edaran Otoritas Jasa Keuangan nomor 6/SEOJK.03/2020 tanggal 29 April 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Operasional dengan Menggunakan Pendekatan Standar Bagi Bank Umum. Berdasarkan metode tersebut, Perusahaan mengalokasikan modal minimum untuk risiko operasional berdasarkan hasil perkalian antara Komponen Indikator Bisnis (KIB) dan Faktor Pengali Kerugian Intern (FPKI). Perhitungan kecukupan modal risiko operasional tersebut menjadi dasar dalam perhitungan ATMR Risiko Operasional.

for Calculating Risk Weighted Assets for Risk for Credit Risk by Using a Standardized Approach. The determination of risk weight in the calculation of RWA refers to the risk weight in accordance with the provisions of the Financial Services Authority in question.

In measuring Market Risk RWA, banks still use the standardized method format which includes the calculation of interest rate risk and exchange rate risk with reference to the the Financial Services Authority (OJK) Circular Letter number 38/SEOJK.03/2016 dated September 8, 2016, concerning Guidelines for Using the Standard Method in Calculating the Minimum Capital Adequacy Requirement for Commercial Banks by Taking Market Risk into Account. In accordance with the guidelines set by Bank Indonesia, market risks that must be calculated by bank are interest rate risk in the trading book and exchange rate risk in the trading book and banking book. As an effort to develop the internal model, bank has an OPICS Risk information system that functions in measuring Value at Risk, and risk sensitivity from dealing room portfolio for each securities categorized in the Trading Book.

The calculation of operational risk capital adequacy uses a standard approach method which is carried out in accordance with the Financial Services Authority (OJK) Circular Letter Number. 6/SEOJK.03/2020 dated April 29, 2020, concerning Calculation of Risk-Weighted Assets for Operational Risk Using the Standard Approach for Commercial Banks. Based on this method, the Company allocates minimum capital for operational risk based on the product of the Business Indicator Component (KIB) and the Internal Loss Multiplier Factor (FPKI). The calculation of operational risk capital adequacy is the basis for calculation of Operational Risk RWA.

Risk Exposure Information

Pengungkapan Eksposur Risiko dan Penerapan Manajemen Risiko

Risiko Kredit

bank **bjb** menerapkan proses yang ketat pada setiap penyusunan maupun perubahan ketentuan internal bank **bjb**. Penyusunan maupun perubahan KPB, SOP, pedoman, maupun petunjuk teknis perkreditan dilakukan melalui tahapan berjenjang dimulai dari pembahasan pada level teknis hingga melalui persetujuan Direksi. bank **bjb** juga telah memiliki standar baku dalam alur penyusunan ketentuan sehingga dapat menghasilkan kualitas yang baik. Setiap penyusunan maupun perubahan atas kebijakan, SOP, pedoman dan petunjuk teknis perkreditan senantiasa melalui pembahasan bersama Divisi yang terkait sehingga memenuhi kecukupan identifikasi dan mitigasi risiko serta ketentuan yang berlaku.

bank **bjb** saat ini telah memiliki *portofolio guideline* serta menetapkan (*risk appetite*) dan toleransi risiko (*risk tolerance*) berdasarkan pertimbangan kekuatan permodalan serta target pendapatan kredit. Tingkat risiko yang akan diambil (*risk appetite*) merupakan tingkat dan jenis risiko yang bersedia diambil oleh bank **bjb** dalam rangka mencapai sasaran bank **bjb**. Toleransi risiko (*risk tolerance*) merupakan tingkat dan jenis risiko yang dapat ditolerir secara maksimum oleh bank **bjb**. Toleransi risiko menjadi penjabaran dari tingkat risiko yang akan diambil.

Selain itu, bank **bjb** menetapkan batas maksimum *exposure*/portofolio per sektor ekonomi/industri per debitur dan per *group* debitur dengan mempertimbangkan tingkat kemampuan bank **bjb**, kecukupan modal dan tingkat risiko. Penetapan batas maksimum *exposure*/portofolio diatur dalam ketentuan dan dilakukan *review* secara periodik. Penetapan *portfolio guideline* mencakup panduan pemilihan sektor industri yang prospektif, serta pengaturan batas maksimal eksposur dan arah pertumbuhan bisnis.

Adapun terkait dengan limit kewenangan memutus kredit saat ini bank **bjb** telah menerapkan mekanisme keputusan kredit secara berjenjang sesuai dengan tingkat risiko yang tercermin dari *plafond* fasilitas kredit.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam analisa kredit, bank **bjb** telah menerapkan proses identifikasi atas potensi risiko yang melekat. Proses identifikasi tersebut menjadi lebih optimal dengan dibentuknya Divisi Credit Risk yang khusus melaksanakan *review* dan analisa lanjutan atas proses pengajuan fasilitas kredit yang telah disusun oleh bagian bisnis.

Disclosure of Risk Exposures and Application of Risk Management

Credit Risk

bank **bjb** applies a strict process for each preparation and amendment to each bank **bjb** internal regulations. The preparation and amendment to the KPB, SOP, Guidelines and Credit Technical Instructions are carried out through a tiered phase which starts from discussion at the technical level to through the approval of Board of Directors. bank **bjb** has also owned a standard in the flow of provisions so that it can produce good quality. Every preparation or amendment to Policies, SOPs, Guidelines and Credit Technical Instructions has always been discussed with the relevant divisions so as to meet the adequacy of risk identification and mitigation as well as applicable regulations.

bank **bjb** currently has a Guideline Portfolio and establishes (*risk appetite*) and risk tolerance (*risk tolerance*) based on consideration of capital strength and credit income targets. The level of risk to be taken (*risk appetite*) is the level and type of risk that is willing to be taken by bank **bjb** in order to achieve bank **bjb** goals. Risk tolerance is the level and type of risk that is maximally determined by bank **bjb**. Risk Tolerance is the translation of the level of risk to be taken.

In addition, bank **bjb** sets maximum exposure/portfolio limits per economic/industrial sector per debtor and per group of debtors taking into account the level of bank **bjb** capability, capital adequacy and level of risk. Determination of the maximum exposure/ portfolio limit is regulated in the provisions and is reviewed periodically. Determination of the Portfolio Guideline includes guidelines for selecting prospective industrial sectors, as well as setting maximum exposure limits and business growth directions.

As for the credit limit, bank **bjb** has implemented a tiered credit decision mechanism in accordance with the level of risk that is reflected in the credit facility ceiling.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, and the Risk Management Information System

In the credit analysis, bank **bjb** has implemented a process of identifying potential inherent risks. The identification process has become more optimal with the formation of a Credit Risk Division that specializes in carrying out further reviews and analysis of the credit facility application process prepared by the business department.

Sebagai bentuk identifikasi atas risiko kredit, bank **bjb** telah mengembangkan adanya kajian independen yang berisi analisa atas perkembangan portofolio kredit, *Non Performing Loan* (NPL), *root cause credit* serta prediksi perkembangan kualitas kredit dengan mempertimbangkan kesiapan infrastruktur pendukungnya.

Dalam melakukan pengukuran risiko, bank **bjb** mengembangkan model risiko kredit melalui penggunaan *Internal Credit Risk Rating* (ICRR) dan *Internal Credit Risk Scoring* (ICRS) pada setiap pengajuan kredit. Penyusunan ICRR dan ICRS menggunakan faktor kualitatif dan faktor kuantitatif yang dapat mengindikasikan risiko gagal bayar calon debitur

Adapun *rating* dan *scoring* yang dimiliki oleh bank **bjb** meliputi:

1. Segmen Korporasi dan Komersial
2. Segmen Konsumer dan Ritel
3. Segmen UMKM
4. Segmen KPR dan KKB
5. Segmen BPR dan Koperasi
6. Segmen Internasional
7. Segmen Akseptasi Rekanan

ICRR adalah suatu alat bantu dalam mengukur risiko kredit dalam bentuk suatu model yang digunakan untuk memprediksi tingkat kemungkinan kegagalan pembayaran oleh debitur atas fasilitas kredit yang diberikan. ICRR mengklasifikasikan entitas perusahaan/korporasi secara sistematis ke dalam suatu kelas risiko (*grading* atau peringkat). Penggunaan ICRR bertujuan untuk menentukan peringkat bagi debitur yang mencerminkan besaran *Probability of Default* (PD). Debitur dengan rating terbaik memiliki *Probability of Default* yang mendekati nol. Adapun untuk kredit dengan *rating* lebih rendah, akan memiliki *probability of default* yang meningkat. bank **bjb** menggunakan model statistik dalam analisa data untuk menghasilkan perkiraan *probability of default*.

Tingkatan *rating* debitur dinyatakan dengan huruf yang meliputi 20 (dua puluh) peringkat berbeda yaitu:

No	Rating	Keterangan Description
1	AAA	Outstanding
2	AA+	Strong
3	AA	Strong
4	AA-	Strong
5	A+	Good
6	A	Good
7	A-	Good
8	BBB+	Average
9	BBB	Average
10	BBB-	Average

As a form of identification of credit risk, bank **bjb** has developed an independent study that contains an analysis of the development of credit portfolios, Non-Performing Loans (NPLs), Root Cause Credit and predictions of credit quality development by considering the readiness of supporting infrastructure.

In measuring risk, bank **bjb** develops a credit risk model through the use of the Internal Credit Risk Rating (ICRR) and Internal Credit Risk Scoring (ICRS) for each credit application. The preparation of ICRR and ICRS uses qualitative factors and quantitative factors that can indicate the risk of default on prospective borrowers.

The rating and scoring owned by bank **bjb** include:

1. Corporate and Commercial Segments
2. Consumer and Retail Segmen
3. MSME Segment
4. KPR and KKB segment
5. BPR and Cooperative Segment
6. International Segment
7. Partner Acceptance Segment

ICRR is a tool in measuring credit risk in the form of a model used to predict the likelihood of payment defaults by debtors on credit facilities provided. ICRR Classifies systematic corporate/corporate entities into a risk class (grading or rating). The use of ICRR aims to determine the rating for debtors that reflects the amount of Probability of Default (PD). Debtors with the best rating have a Probability of Default that is close to zero. As for credit with a lower rating, it will have an increased Probability of Default. bank **bjb** uses statistical models in data analysis to generate Probability of Default estimates.

Debtor rating levels are stated in letters covering 20 (twenty) different ratings, namely:

No	Rating	Keterangan Description
11	BB+	Acceptable
12	BB	Acceptable
13	BB-	High Risk
14	B+	High Risk
15	B	Watch List
16	B-	Watch List
17	CCC+	Special Mention
18	CCC	Special Mention
19	CCC-	Substandard
20	D	Doubtful

Adapun penerapan ICRS menjadi suatu alat bantu rekomendasi terhadap keputusan persetujuan atau penolakan atas pengajuan fasilitas kredit. Dengan menggunakan ICRS, maka bank **bjb** dapat memproses kredit dengan lebih baik, objektif dan standar, serta dengan waktu proses relatif lebih cepat. Sebagai bentuk lain dari pengukuran risiko kredit, bank **bjb** telah melakukan estimasi kerugian yang telah diperkirakan (*expected loss*) serta besar kerugian yang tidak diperkirakan (*unexpected loss*). *Expected Loss* (EL) adalah besaran kerugian secara statistik yang diperkirakan timbul secara rata-rata dari perkiraan kerugian yang secara umum terjadi. EL didapatkan dari perhitungan Eksposur pada saat *default* (EAD), kerugian pada saat *default* (LGD) dan probabilitas terjadinya *default* (PD), yang diestimasi dari data probabilitas *default* secara historis. Sementara itu *Unexpected Loss* (UL) merupakan deviasi dari rata-rata kerugian. Perhitungan UL diperoleh dari data volatilitas secara historis (*historical volatility*) atas data *default*.

bank **bjb** juga telah mengembangkan proses pemantauan risiko yang dilakukan secara berkala melalui penerbitan laporan *Root Cause of Credit Risk* (RCCR) yang disampaikan kepada Direksi dan seluruh Divisi terkait. Laporan *Root Cause of Credit Risk* (RCCR) berisi analisa perkembangan portofolio beserta kualitas kreditnya, Analisa *Loan at Risk* (LAR), serta tingkat konsentrasi kredit baik berdasarkan sektor ekonomi, maupun debitur inti. Melalui laporan ini bank **bjb** mengembangkan mekanisme identifikasi berkala atas potensi penurunan kualitas suatu portofolio kredit sehingga menjadi masukan dalam penyusunan strategi manajemen risiko. Dengan demikian maka penanganan atas kemungkinan penurunan kualitas portofolio kredit dapat segera ditindaklanjuti sehingga menjadi *Early Warning Signal* (EWS). EWS dapat meminimalkan risiko terjadinya kerugian dan mengoptimalkan modal untuk memperoleh pendapatan.

Di samping itu bank **bjb** secara berkala melakukan analisa *stress test* yang meliputi beberapa skenario utama yaitu:

1. **Portfolio Concentration Stress Test (Specific Market Crisis)**

Perhitungan *stress test* dengan pendekatan *portfolio concentration* bertujuan untuk menghitung perubahan *Probability of Default* (PD) yang diakibatkan memburuknya kolektibilitas seluruh kredit.

2. **Macro Economy Stress Test (General Market Crisis)**

Perhitungan *stress test* dengan menggunakan analisa makro ekonomi bertujuan untuk mengetahui perubahan *Probability of Default* (PD) yang disebabkan oleh adanya pergerakan kurs USD/IDR, perubahan suku bunga acuan, serta perubahan tingkat inflasi dan *Gross Domestic Product* (GDP).

3. **Reverse Stress Test**

Apabila pada pelaksanaan *stress test* pada umumnya bertujuan untuk menghitung dampak perubahan makro ekonomi yang telah ditentukan sebelumnya terhadap perubahan nilai NPL, *profit and loss* serta CAR, dan Aktiva Tertimbang Menurut Risiko (ATMR) maka perhitungan *stress test* dengan skenario *reverse* bertujuan untuk mengetahui perubahan kondisi makro ekonomi yang berdampak pada penurunan nilai CAR hingga berada di bawah ketentuan.

The application of ICRS becomes a decision of approval or rejection of credit facility applications. By using ICRS, bank **bjb** can process credit better, objectively and according to the standard, and with a relatively faster processing time. As another form of credit risk measurement, bank **bjb** has estimated the estimated loss (*Expected Loss*) as well as the amount of an unexpected loss (*Unexpected Loss*). *Expected Loss* (EL) is the amount of a statistically estimated loss arising on average from the estimated losses that generally occur. EL is obtained from the calculation of Exposure at the time of default (EAD), losses at the time of default (LGD) and probability of occurrence of default (PD), which is estimated from historical default probability data. Meanwhile *Unexpected Loss* (UL) is the deviation from the average loss. UL calculations are obtained from historical volatility data on default data.

bank **bjb** has also developed a risk monitoring process that is carried out periodically through the issuance of the *Root Cause of Credit Risk* (RCCR) report submitted to Board of Directors and all relevant Divisions. The *Root Cause of Credit Risk* (RCCR) report contains an analysis of the development of the portfolio and its credit quality, *Loan at Risk* (LAR) analysis, as well as the level of credit concentration based on the economic sector and core debtors. Through this report bank **bjb** develops a periodic identification mechanism for the potential deterioration in the quality of a credit portfolio so that it becomes input in the preparation of a Risk Management strategy. Thus, the handling of the possibility of decreasing the quality of the loan portfolio can be immediately followed up so that it becomes an *Early Warning Signal* (EWS). EWS can minimize the risk of loss and optimize capital to earn income.

Besides this, bank **bjb** regularly conducts *stress test* analysis which covers several main scenarios, namely:

1. **Portfolio Concentration Stress Test (Specific Market Crisis)**

Calculation of stress tests using the portfolio concentration approach aims to calculate changes in *Probability of Default* (PD) resulting from the deteriorating collectibility of all loans.

2. **Macro Economy Stress Test (General Market Crisis)**

Calculation of stress tests using macroeconomic analysis aims to determine changes in *Probability of Default* (PD) caused by movements in the USD/IDR exchange rate, changes in reference interest rates, as well as changes in the Inflation Rate and *Gross Domestic Product* (GDP).

3. **Reverse Stress Test**

If the implementation of stress tests generally aims to calculate the impact of predetermined macroeconomic changes on the value of NPLs, *Profit and Loss* and CAR, and *Risk Weighted Assets* (RWA), the calculation of stress tests with a reverse scenario aims to determine changes in macro economics conditions that have an impact on the decline in the value of the CAR to be below the provisions.

4. Bottom Up Stress Test

bank **bjb** secara berkala melakukan *stress test* ketahanan permodalan dimana pada tahun 2022 bank **bjb** terlibat dalam penyusunan *Bottom Up Stress Test* (BUST). Pelaksanaan *stress test* dilakukan dengan pendekatan kategori *portfolio level* dan bertujuan untuk menghitung pengaruh kondisi *shock* makro ekonomi terhadap peningkatan *Probability of Default* (PD) secara *bankwide* serta pencapaian laba dan permodalan bank **bjb**. Pelaksanaan perhitungan menggunakan *satellite model* yang meliputi baik kredit produktif maupun kredit non-produktif pada seluruh sektor ekonomi. *Satellite model* tersebut merupakan perhitungan regresi *multiple* yang menghubungkan kondisi makro ekonomi sebagai *independent variable* dan PD sebagai *dependent variable*.

Adapun berdasarkan hasil perhitungan *stress test* diketahui bahwa perubahan aspek eksternal tersebut tidak berdampak secara signifikan terhadap penurunan *Capital Adequacy Ratio* (CAR) sehingga dapat dikatakan bahwa permodalan cukup memadai dalam menghadapi gejala perubahan faktor eksternal.

Sistem Pengendalian Intern yang Menyeluruh

bank **bjb** telah memiliki sistem pengendalian intern untuk manajemen risiko kredit dengan berpedoman pada SEOJK Nomor 34/SEOJK.03/2016 tanggal 1 September 2016 Tentang Penerapan Manajemen Risiko bagi bank Umum. Dalam pelaksanaannya, sistem pengendalian intern untuk risiko kredit mencakup penerapan atas hal-hal sebagai berikut:

1. Dipenuhinya kecukupan kebijakan, pedoman dan prosedur bidang perkreditan.
2. Dilakukannya *review* oleh unit kerja independen atas rancangan kebijakan, pedoman dan prosedur bidang perkreditan.
3. Dilakukannya *review/kaji ulang* atas metode pengukuran risiko oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi yang mencakup penilaian kesesuaian metode, dan asumsi yang digunakan untuk mengukur risiko.
4. Kaji ulang atas kepatuhan bank **bjb** terhadap ketentuan internal dan eksternal bidang perkreditan.

Dalam rangka optimalisasi pengendalian intern, maka bank **bjb** juga telah melakukan pemisahan fungsi yang jelas antara unit bisnis dan unit yang melaksanakan pengendalian sehingga bank **bjb** telah menerapkan *segregation of duty* dan *dual control* dalam melakukan keputusan kredit. Pengendalian intern untuk manajemen risiko kredit juga mencakup pengawasan oleh Dewan Komisaris dan Direksi secara berkala melalui pelaporan yang disampaikan oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi maupun pelaksanaan *Risk Management Committee* (RMC) yang beranggotakan Direksi serta pejabat eksekutif terkait. Adapun pelaksanaan rapat Komite Pemantau Risiko (KPR) telah dilaksanakan secara berkala oleh Dewan Komisaris yang ditujukan untuk memantau perkembangan eksposur risiko kredit sesuai dengan perkembangan terkini.

4. Bottom Up Stress Test

bank **bjb** has periodically conducted stress tests on the resilience of bank capital where in 2022, bank **bjb** was involved in the preparation of the Bottom Up Stress Test (BUST). The stress test was carried out using a portfolio level category approach and aimed to calculate the effect of macroeconomic shock conditions on the increase in PD (Probability of Default) bankwide and the achievement of bank **bjb** profits and capital. The calculation was carried out using a satellite model including both productive and non-productive loans in all economic sectors. The satellite model was a multiple regression calculation that related macroeconomic conditions as the independent variable and PD as the dependent variable.

Meanwhile, based on the results of the stress test calculation, it was known that changes in external aspects did not have a significant impact on the decrease in the Capital Adequacy Ratio (CAR) so that the capital was adequate in dealing with changes in external factors.

Comprehensive Internal Control System

bank **bjb** already has an internal control system for credit risk management based on the Financial Services Authority (OJK) Circular Letter Number 34/SEOJK.03/2016 dated September 1, 2016, concerning Application of Risk Management for Commercial Banks. In the implementation, The internal control system for credit risk includes the following matters:

1. Fulfillment of the adequacy of Credit Policy, Guidelines and Procedures in the field of credit;
2. Conducting a review by an independent work unit on the draft Credit Policy, Guidelines and Procedures;
3. Conducting a review/review of the risk measurement method by the Credit, Market, and Integrated Risk Management Division which includes an assessment of the suitability of the method, and the assumptions used to measure risk
4. Review bank **bjb** compliance with internal and external provisions in the credit sector.

In the context of optimizing internal control, bank **bjb** has also performed a clear separation of functions between business units and units that carry out control so that bank **bjb** has implemented segregation of duty and dual control in making credit decisions. Internal control for credit risk management also includes supervision by the Board of Commissioners and Board of Directors on a regular basis through reporting submitted by the Credit, Market, and Integrated Risk Management Division and the implementation of the Risk Management Committee (RMC) consisting of Board of Directors and related executive officers. The implementation of Risk Monitoring Committee (KPR) meetings has been held periodically aimed at monitoring the development of credit risk exposures in accordance with the latest developments.

Risiko Pasar

Risiko pasar adalah risiko yang timbul atas portofolio pada posisi neraca dan rekening administratif termasuk transaksi derivatif, akibat perubahan secara keseluruhan dari kondisi pasar, termasuk risiko perubahan harga *option*. Komponen risiko pasar meliputi:

- Risiko suku bunga adalah risiko akibat perubahan harga instrumen keuangan dari posisi *Trading Book* yang disebabkan oleh pergerakan sensitivitas risiko (*risk factor*) pada setiap instrumen atau akibat perubahan nilai ekonomis modal (*economic value of equity*) bank **bjb** dari aktivitas *banking book* yang disebabkan oleh perubahan suku bunga.
- Klasifikasi risiko suku bunga mencakup pula risiko suku bunga dari posisi *banking book* yang antara lain meliputi *repricing risk*, *yield curve risk*, *basis risk*, dan *optionality risk*.
- Risiko nilai tukar adalah risiko akibat perubahan nilai posisi terbuka valuta asing klasifikasi *trading book* atau akibat perubahan posisi devisa neto bank **bjb** (*banking book*) yang disebabkan oleh perubahan nilai tukar valuta asing.

Risiko pasar timbul dari pergerakan/perubahan tingkat suku bunga dan/atau nilai tukar yang mempengaruhi posisi keuangan bank **bjb** khususnya terhadap rasio permodalan. Secara garis besar, manajemen risiko pasar terbagi menjadi 2 (dua) yaitu manajemen risiko pasar *trading book* dan manajemen risiko pasar *banking book*. Sumber risiko pasar *trading book* timbul dari aktivitas *dealing room* Divisi Treasuri akibat posisi terbuka bank **bjb** yang terekspos pergerakan suku bunga atau nilai tukar valuta asing.

Sumber risiko pasar *banking book* timbul antara lain disebabkan oleh perubahan struktur portofolio neraca dan rekening administratif bank **bjb** yang sensitif terhadap pergerakan suku bunga sehingga berdampak terhadap pendapatan bunga bersih dan yang disebabkan pula karena perubahan struktur portofolio neraca dan rekening administratif bank **bjb** yang sensitif terhadap pergerakan nilai tukar yang tercermin dari posisi devisa neto bank **bjb**.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko pasar di bank **bjb**. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen

Market Risk

Market Risk is the risk arising from the portfolio in the balance sheet and administrative account positions including derivative transactions, due to overall changes in market conditions, including the risk of changes in option prices. Components of market risk include :

- Interest Rate Risk is the risk due to changes in financial instrument prices from Trading Book positions caused by risk factor movements on each instrument or due to changes in the Economic Value Of Equity of bank **bjb** from Banking Book activities caused by changes in interest rates.
- Classification of interest rate risk also includes interest rate risk from the banking book position, which includes repricing risk, yield curve risk, basis risk, and optionality risk.
- Exchange Rate Risk is the risk due to changes in the value of open positions in the Trading Book classification or due to changes in the position of bank **bjb** Net Open Exchange (Banking Book) caused by changes in foreign exchange rates.

Market risk arises from movements/changes in interest rates and/or exchange rates that affect the financial position of bank **bjb**, especially towards capital ratios. Broadly speaking, market risk management is divided into 2 (two), namely trading book market risk management and banking book market risk management. The source of trading book market risk arises from the Dealing Room of the Treasury Division due to bank **bjb** open position exposed to movements in interest rates or foreign exchange rates.

Sources of banking book market risk arise, among others, due to changes in the structure of bank **bjb** balance sheet and administrative accounts which are sensitive to interest rate movements so that it has an impact on net interest income and which is also caused by changes in the structure of bank **bjb** balance sheet and administrative accounts which are sensitive to exchange rate movements reflected by bank **bjb** Net Open Position.

Active Supervision of the Board of Commissioners and Board of Directors

The Board of Commissioners and Board of Directors are responsible for the effectiveness of the application of Market Risk Management in bank **bjb**. Related to the authority and responsibility of active supervision of bank **bjb** Board of Commissioners and Board of Directors, the Board of Commissioners and Board of Directors

risiko eksposur risiko pasar, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit.

Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR), bank **bjb** secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko ataupun melalui media rapat antara kedua belah pihak. Pada implementasinya, pelaksanaan rapat yang diadakan umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut di antaranya penerapan pengukuran *risk appetite* dan *risk tolerance* risiko pasar, pembahasan profil risiko yang bersifat material, serta kecukupan dan evaluasi metodologi dan/atau *tools* pengukuran risiko pasar yang dipergunakan Satuan Kerja Manajemen Risiko.

Pengawasan yang dilakukan oleh Direksi adalah melalui pemantauan penerapan limit *treasury* secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, dan melakukan persetujuan atas limit yang bersifat baru ataupun setelah dilakukan perubahan. Sedangkan pembahasan eksposur risiko pasar dibahas dalam rapat Komite Manajemen Risiko/*Risk Management Committee* (RMC). Sejalan dengan kebijakan manajemen risiko pasar mengenai tahapan eskalasi pelampauan limit, setiap pelampauan limit akan diinformasikan dan disetujui apabila terjadi kondisi abnormal dalam Komite Manajemen Risiko (RMC). Pengelolaan risiko pasar tersebut disusun ke dalam bentuk kebijakan, prosedur, limit risiko dan hasil keputusan lainnya terkait dengan pengelolaan risiko pasar. Limit risiko pasar dan *risk appetite* bank **bjb** dievaluasi secara periodik atau sewaktu-waktu diperlukan untuk dilakukan evaluasi sesuai dengan perubahan lingkungan bisnis bank **bjb**.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai penerapan manajemen risiko pasar yang bersifat dinamis, Satuan Kerja Manajemen Risiko bank **bjb** melakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank **bjb** secara berkala. Evaluasi pedoman pengukuran limit risiko pasar oleh Satuan Kerja Manajemen Risiko secara berkala dan dilakukan pembahasan dengan *Risk Taking Unit* (Divisi Treasury) dan selanjutnya akan diajukan kepada Direksi untuk persetujuan atas pedoman dimaksud.

Terkait dengan evaluasi penetapan limit *dealing room* Treasury dan ALM yang diajukan oleh Divisi Treasury, Satuan Kerja Manajemen Risiko melakukan evaluasi terhadap limit tersebut dengan metodologi yang telah disahkan dalam pedoman manajemen risiko bank **bjb**. Limit untuk level portofolio *treasury*

always obtain clear information regarding the evaluation and application of risk management for market risk exposure, daily monitoring of limits and steps taken by the Risk Taking Unit, especially related to the existence of limit exceeding.

In carrying out its supervision, the Board of Commissioners is assisted by bank **bjb** Risk Monitoring Committee (KPR) periodically conducts supervision in coordination with the Risk Management Work Unit (SKMR). The coordination media used can be in the form of risk monitoring reports by SKMR submitted to the Risk Monitoring Committee or through media meetings between the two parties. In its implementation, the meeting held generally discusses the application of risk management in bank **bjb** involving among others the application of market risk risk tolerance measurement, discussion of material risk profiles, as well as the adequacy and evaluation of methodologies and/or market risk measurement tools used by the Risk Management Work Unit.

Supervision conducted by Board of Directors is through periodic monitoring of the application of Treasury limits, both breach limits and no exceeding limits, and approval of new limits or after changes are made, while the discussion of market risk exposures was discussed in a Risk Management Committee meeting. In line with market risk management policies regarding the escalation stages of limit exceeding, every limit exceeding will be informed and approved if abnormal conditions occur in the Risk Management Committee (RMC) Market risk management is arranged in the form of policies, procedures, risk limits, and other decision results related to market risk management. Market risk limits and bank **bjb** risk appetite are evaluated periodically or at any time needed to be evaluated in accordance with changes in bank **bjb** business environment.

Adequacy of Policies, Procedures, and Limit Determination

As a dynamic application of market risk management, bank **bjb** Risk Management Work Unit regularly updates and evaluates bank **bjb** risk management policies and guidelines. Evaluate guidelines for measuring market risk limits by the Risk Management Work Unit on a regular basis and discuss with the risk taking unit (Treasury Division) and subsequently will be submitted to Board of Directors for approval of the guidelines referred to.

In connection with the evaluation of the determination of the Dealing Room Treasury and ALM limits proposed by the Treasury Division, the Risk Management Work Unit evaluates these limits using the methodology that has been approved in bank **bjb** risk management guidelines. Limit for treasury portfolio level is

dievaluasi minimal satu tahun sekali atau dapat dilakukan lebih sering jika terdapat pergerakan volatilitas harga pasar atau perubahan *business plan Risk Taking Unit*. Evaluasi analisa tersebut sekurang-kurangnya memuat informasi mengenai latar belakang perubahan limit, kondisi saat ini, dasar perhitungan dalam melakukan perubahan limit, kepatuhan terhadap regulasi dan dampak terhadap modal.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam melakukan penerapan manajemen risiko melalui proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko, serta sistem informasi manajemen risiko untuk risiko pasar sebagaimana Surat Edaran Otoritas Jasa Keuangan Nomor 34/SEOJK.03/2016 tanggal 1 September 2016, bank **bjb** melakukan penerapan manajemen risiko yaitu:

1. Identifikasi Risiko Pasar

Proses identifikasi risiko pasar meliputi identifikasi dari karakteristik produk baru, identifikasi sumber risiko pasar yang dapat berdampak kepada transaksi yang akan dilakukan oleh *dealing room Treasury*. Proses identifikasi risiko yang disesuaikan dengan risiko pasar melekat pada aktivitas bisnis bank **bjb** yang meliputi risiko suku bunga antara lain *repricing risk, yield curve risk, basis risk, optionality risk*, dan untuk risiko nilai tukar antara lain tercermin dari besarnya eksposur transaksional. Satuan Kerja Manajemen Risiko juga melakukan *review* atau evaluasi atas produk maupun aktivitas yang terekspos pengaruh pergerakan variabel pasar.

2. Pengukuran Risiko Pasar

Pengelolaan portofolio Divisi Treasury tanpa adanya dasar pertimbangan dan penilaian risiko akan mengakibatkan kerugian di atas toleransi bank **bjb** dalam menyerap kerugian. Salah satu cara dalam menanggulangi kejadian risiko yang dapat menyebabkan kerugian di atas toleransi risiko bank **bjb** adalah penggunaan toleransi risiko atau limit transaksi yang diperkenankan manajemen bank **bjb**. Pengajuan limit oleh Divisi Treasury sebagai *Risk Taking Unit* harus mendapatkan kajian risiko secara terukur oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi. Pengajuan limit ini bertujuan untuk mempermudah manajemen bank **bjb** dalam memahami risiko yang dihadapi serta pengelolaan risikonya.

Pengajuan limit harus meliputi kriteria-kriteria sebagai berikut:

Divisi Treasury sebagai *Risk Taking Unit* menerapkan "*trading*" dan "*hedging*" secara berkala sebagai bagian dari proses pengelolaan bisnis *treasury* khususnya bidang *treasury trading*. Pada konteks limit berbasis risiko ini, yang ditentukan adalah limit yang berkaitan dengan aktivitas *treasury*. Dalam proses penerapan limit dilakukan usaha pendekatan dimana terdapat komponen-komponen yang mendukung di antaranya:

evaluated at least once a year or can be done more frequently if there is a movement in market price volatility or changes in business plan risk taking units. Evaluation of the analysis contains at least information on the background of changes in limits, current conditions, the basis for calculating changes in limits, compliance with regulations and the impact on capital.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As Risk Management Information System

In implementing Risk Management through the process of identifying, measuring, monitoring, and controlling Risk, as well as the Risk Management information system for Market Risks as stated in the Financial Services Authority (OJK) Circular Letter Number 34/DPNP.03/2016 dated September 1, 2016, bank **bjb** implements risk management, namely:

1. Market Risk Identification

The process of identifying market risk includes identification of the characteristics of new products and identification of sources of market risk that can have an impact on transactions that will be carried out by the Dealing Room Treasury. The risk identification process that is adjusted to Market Risk is inherent in bank **bjb** business activities which includes interest rate risk including repricing risk, yield curve risk, basis risk, and optionality risk and for exchange rate risk, among others, reflected in the magnitude of transactional exposure. The Risk Management Work Unit also reviews or evaluates products and activities that are exposed to the influence of market variable movements.

2. Market Risk Measurement

Management of the Treasury Division's portfolio without a basis for consideration and risk assessment will result in losses above bank **bjb** tolerance in absorbing losses. One way to overcome risk events that can cause losses above bank **bjb** risk tolerance is to use risk tolerance or transaction limits that are allowed by bank **bjb** management. Submission of limits by the Treasury Division as a risk-taking unit must obtain a measurable risk assessment by the Credit, Market, and Integrated Risk Management Division. Submission of this limit aims to facilitate management bank **bjb** in understanding the risks faced and managing the risks.

Submission of limits must include the following criteria:

Treasury Division as a risk taking unit implements "*trading*" and "*hedging*" regularly as part of the Treasury business management process, especially in the field of Treasury Trading. In the context of this risk-based limit, what is determined is the limit relating to Treasury activities. In the process of applying limits, an attempt is made to approach where there are supporting components including:

1. Rencana Bisnis

- a. Rencana bisnis harus secara luas mencantumkan tujuan dari limit yang diminta, target pasar, pendapatan yang diharapkan dan kebutuhan akan modal. Rencana tersebut harus mengkualifikasikan cara bagaimana limit tersebut akan dipergunakan, contoh "*trading*" atau "*hedging*".
- b. Aplikasi limit harus mengidentifikasi mata uang dan pasar spesifik yang menjadi eksposur terhadap tujuan unit bisnis.

2. Persyaratan Modal dan Proyeksi Pendapatan

- a. Divisi Treasuri meminta masukan dari Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi dalam mengukur alokasi modal yang harus disediakan dalam memitigasi potensi kerugian yang akan timbul.
- b. Divisi Treasuri harus memberikan proyeksi pendapatan yang berhubungan dengan aplikasi limit. Proyeksi tersebut akan memudahkan Direksi dalam proses pengambilan keputusan persetujuan limit.

3. Penggunaan Historis

Divisi Treasuri dapat memberikan analisa *trend market outlook* dengan penggunaan historis yang ada atas eksposur risiko atau limit yang akan diterapkan. Prosedur kerja pengukuran limit unit bisnis Treasuri mempertimbangkan beberapa aspek yang dinilai cukup berpotensi dalam menimbulkan kejadian risiko. Komponen yang mendasari dalam pengukuran limit memuat yaitu:

a. Faktor Sensitivitas Risiko Pasar

Setiap aktivitas Treasuri terdapat risiko yang melekat (*risk inherent*) dimana proses dalam pengukuran risiko harus didasarkan pada sensitivitas risiko yang melekat pada aktivitas transaksi Treasuri. Faktor sensitivitas risiko pasar meliputi yaitu PV01, *duration* dan volatilitas transaksi.

b. Kecukupan Data

Kecukupan data diperlukan sebagai kecukupan prosedur analisis statistik dan agar analisis pengukuran terhadap risiko menghasilkan *output* yang memadai dan sesuai dengan eksposur risiko yang dihadapi oleh bank **bjb**. Data yang diperlukan adalah data historis yang dibutuhkan guna memperkuat suatu analisis pengukuran limit risiko.

c. Pengukuran Value at Risk

Model *Value at Risk* tersebut dipergunakan dalam mengukur dan menganalisa risiko transaksi Treasuri secara komprehensif dan terukur. Misalnya, penggunaan VaR (*value at risk*) untuk mengukur kerugian/ *budget loss* atas aktivitas transaksi *treasury trading* selain itu kegunaan model ini juga dapat mengukur perkiraan kerugian terburuk yang dapat dialami bank **bjb** dalam selang waktu tertentu pada kondisi pasar yang normal dan tingkat kepercayaan tertentu.

Beberapa strategi pengelolaan risiko pasar yang dilakukan bank **bjb** adalah mencakup sistem dan prosedur dengan menggunakan teknik *mark to market*, *mark to model*, *Value at Risk* (VaR), *stress testing*,

1. Business Plan

- a. The business plan must broadly state the objectives of the requested limit, target market, expected income, and capital requirements. The plan must qualify the way the limit will be used, for example "*trading*" or "*hedging*".
- b. The limit application must identify specific currencies and markets that are exposure to the objectives of the business unit.

2. Capital Requirements and Projection of Income

- a. The Treasury Division requests input from the Credit, Market, and Integrated Risk Management Division in measuring capital allocation that must be provided in mitigating potential losses that will arise.
- b. The Treasury Division must provide income projections related to limit applications. This projection will facilitate Board of Directors in the decision process for approval of limits.

3. Historical Use

The Treasury Division can provide an analysis of market outlook trends with existing historical use of risk exposures or limits to be applied. The work procedure for measuring Treasury business unit limits considers several aspects that are considered to be quite potential in causing risk events. The underlying component in the measurement limit loading namely:

a. Market Risk Sensitivity Factor

Each Treasury activity has risk inherent where the process of measuring risk must be based on the risk sensitivity inherent in Treasury transaction activities. Market risk sensitivity factors include PV01, Duration and transaction volatility.

b. Data Adequacy

Adequacy of data is needed as an adequate statistical analysis procedure and so that the measurement of risk analysis produces adequate output and is in accordance with the risk exposures faced by bank **bjb**. The data needed is historical data needed to strengthen an analysis of risk limit measurements.

c. Measurement of Value Risk

The Value at Risk model is used in measuring and analyzing Treasury transaction risk in a comprehensive and measurable manner. For example, the use of VaR (*value at risk*) to measure losses/budget loss on Treasury trading transaction activities. In addition, the use of this model can also measure the estimated worst losses that can be experienced by bank **bjb** in certain intervals under normal market conditions and a certain level of confidence.

Some of the market risk management strategies undertaken by bank **bjb** include systems and procedures using Mark To Market, Mark to Model, Value at Risk (VaR), Stress Testing, Repricing Gap,

repricing gap and *duration gap model* atau metode lain yang sesuai untuk mendapatkan nilai wajar eksposur secara berkala, sekaligus merupakan *platform* yang tepat untuk menilai posisi risiko.

Pada saat ini bank **bjb** menerapkan metode yang mampu mengukur risiko terhadap nilai tukar yaitu dengan menggunakan Model Nilai Tukar Var EWMA (*Exponential Weighted Moving Average*) yang dilengkapi dengan *fundamental analysis* dan *historical simulation* untuk menangkap tingkat risiko nilai tukar yang tercermin dalam posisi devisa neto. bank **bjb** juga telah membangun model pengukuran risiko tingkat suku bunga dengan menggunakan metodologi yang dapat menangkap risiko suku bunga dari portofolio aset dan kewajiban yang sensitif terhadap perubahan suku bunga serta menentukan besaran risiko terhadap bank **bjb** melalui pengukuran *interest rate risk in the banking book* yang meliputi *repricing profile*, *duration GAP*, *Economic Value of Equity (EVE)*, dan sensitivitas *Net Interest Income (NII)*. Dalam proses pengukuran potensi kerugian baik itu suku bunga dan nilai tukar dari transaksi-transaksi *treasury* diukur melalui VaR simulasi historis. Pengujian kelayakan internal VaR simulasi historis melalui *back testing VaR vs profit/loss treasury* dan dilakukan secara berkala.

Pemantauan Risiko Pasar

Aktivitas manajemen risiko dalam melakukan proses pemantauan aktivitas bisnis antara lain melalui:

1. Satuan Kerja Manajemen Risiko melakukan proses manajemen risiko pasar *trading book* melalui pemantauan limit *Treasury* secara harian, misalnya ketentuan GWM, *open position*, *budget loss*, *risk sensitivity limit*, dll. Sebagai upaya proses pemantauan yang efektif dan akurat, bank **bjb** telah mengukur eksposur risiko *trading book* yang dilakukan oleh *dealing room Treasury*.
2. Pemantauan risiko nilai tukar *banking book* dilakukan melalui pemantauan posisi devisa neto secara harian agar berada dalam toleransi limit internal bank **bjb** dan regulasi Bank Indonesia.
3. Pemantauan risiko suku bunga *banking book* dilakukan melalui pengukuran *repricing GAP*, *duration GAP*, dan *Economic Value of Equity (EVE)* untuk melihat sensitivitas portofolio aktiva dan pasiva bank **bjb** dalam menghadapi perubahan suku bunga di masa datang.
4. Melakukan evaluasi terhadap eksposur risiko yang dimiliki oleh bank **bjb**.
5. Apabila terjadi pelampauan limit, Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi segera melakukan pelaporan pelampauan tersebut kepada Direksi.

Pengendalian Risiko Pasar

Strategi yang diambil oleh bank **bjb** dalam proses pengendalian risiko pasar, antara lain melalui *hedging*, *squaring position*, *back-to-back* dan cara lain yang bertujuan untuk meng-*offset* suatu

and Duration Gap Models or other appropriate methods to obtain fair value of periodic exposures, as well as being the right platform for assessing risk positions.

At this time bank **bjb** applies a method that is able to measure risk to the exchange rate, namely by using the EWMA Var (Exponential Weighted Moving Average) Exchange Rate Model which is equipped with fundamental analysis and historical simulation to capture the exchange rate risk level reflected in the Net Open Position. bank **bjb** has also developed a model for measuring interest rate risk using a methodology that can capture interest rate risk from portfolio assets and liabilities that are sensitive to changes in interest rates and determine the amount of risk to bank **bjb** through Repricing Profile, Duration GAP, Economic Value of Equity (EVE), and Net Interest Income sensitivity (NII). In the process of measuring potential losses both interest rates and exchange rates of Treasury transactions are measured through historical VaR simulation both systemically (OPICS Risk) and manually. Testing the internal feasibility of historical VaR simulations through back testing VaR vs Profit/Loss Treasury and is conducted regularly.

Market Risk Monitoring

Risk management activities in carrying out the process of monitoring business activities include:

1. The existence of an RMA (Risk Management Agency) that functions to carry out the trading book market risk management process through daily monitoring of Treasury limits, for example the statutory reserve requirement, open positions, budget loss, risk sensitivity limits, etc. As an effort to monitor the process effectively and accurately, bank **bjb** has an OPICS Risk system that functions in measuring trading book risk exposure by the Treasury dealing room.
2. Banking book exchange risk monitoring is carried out through monitoring the Net Open Position per 30 minutes and on a daily basis to be within the tolerance limits of bank **bjb** internal limits and Bank Indonesia regulations.
3. Banking book interest rate risk monitoring is carried out through measurement of Repricing GAP, Duration GAP, and Economic Value of Equity (EVE) to see the sensitivity of bank **bjb** assets and liabilities portfolio in the face of changes in interest rates in the future.
4. Evaluate the risk exposures held by bank **bjb**.
5. In the event of exceeding the limit, the Credit, Market, and Integrated Risk Management Division immediately reports the excess to the Board of Directors.

Market Risk Control

Strategies taken by bank **bjb** in the process of controlling market risk include hedging, squaring positions, back-to-back and other means aimed at offsetting a transaction/position that has a loss

transaksi/posisi yang mengalami kerugian serta *stress testing* guna melihat ketahanan posisi keuangan bank **bjb** dalam menghadapi kondisi krisis. Selain itu pula dapat digunakan untuk mentransfer risiko yang dimiliki *dealing room Treasury* bank **bjb** sepanjang transfer risiko tersebut masih berada dalam *risk limit* bank **bjb**. bank **bjb** juga membatasi atau melarang jenis transaksi atau instrumen tertentu untuk ditransaksikan oleh bisnis unit, serta mengurangi risiko dengan cara memberikan batas maksimum transaksi atau portofolio sesuai dengan *risk appetite* bank **bjb**.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko pasar secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal.

Pelaksanaan kaji ulang dan evaluasi terhadap pengukuran risiko yang dilakukan oleh Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi meliputi:

- Kesesuaian kebijakan, desain proses manajemen risiko, sistem informasi, dan pelaporan manajemen risiko bank **bjb** dengan kebutuhan bisnis, serta perkembangan peraturan dan praktik terbaik (*best practice*) terkait manajemen risiko.
- Metode, asumsi, dan variabel yang digunakan untuk mengukur risiko dan menetapkan limit risiko pasar.
- Perbandingan antara asumsi yang digunakan dalam metode pengukuran risiko yang dipergunakan dengan kondisi yang sebenarnya/aktual.
- Perbandingan antara limit yang ditetapkan dengan eksposur yang sebenarnya/aktual.

Hasil kaji ulang Satuan Kerja Manajemen Risiko (Divisi Manajemen Risiko Kredit, Pasar dan Terintegrasi) yang telah dikaji ulang oleh Satuan Kerja Audit Intern (SKAI) akan disampaikan dalam Komite Manajemen Risiko (RMC) untuk kemudian diminta persetujuannya kepada Direksi. Pembahasan tersebut dilakukan pula dengan Dewan Komisaris yang dibantu oleh Komite Pemantau Risiko. Kaji ulang yang dilakukan oleh Satuan Kerja Audit Intern (SKAI) meliputi:

- Keandalan kerangka manajemen risiko, yang mencakup kebijakan, struktur organisasi, alokasi sumber daya, desain proses manajemen risiko, sistem informasi, dan pelaporan risiko bank **bjb**.
- Proses pemantauan yang dilakukan oleh Satuan Kerja Manajemen Risiko.
- Evaluasi atas metodologi pengukuran Satuan Kerja Manajemen Risiko.

and stress testing in order to see the resilience of bank **bjb** financial position in facing crisis conditions. In addition, it can also be used to transfer risks owned by the Treasury bank's dealing room as long as the risk transfer is still within bank **bjb** risk limit. bank **bjb** also limits or prohibits certain types of transactions or instruments to be transacted by business units and reduces risk by providing a maximum limit of transactions or portfolios in accordance with bank **bjb** risk appetite.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Unit always evaluates market risk policies, procedures and limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties.

The review and evaluation of risk measurements carried out by the Credit, Market, and Integrated Risk Management Division include:

- Conformity of policies, design of Risk Management processes, information systems, and reporting of bank **bjb** risk management with bank business needs, as well as the development of regulations and best practices related to Risk Management;
- The methods, assumptions, and variables used to measure risk and determine market risk limits;
- Comparison between assumptions used in the risk measurement method used and actual/actual conditions;
- Comparison between specified limits and actual/actual exposures;.

The results of the Risk Management Work Unit (Credit, Market, and Integrated Risk Management Division) which have been reviewed by the Internal Audit Work Unit (SKAI) will be submitted to the Risk Management Committee (RMC) for approval from Board of Directors. The discussion was also conducted with the Board of Commissioners, assisted by the Risk Monitoring Committee. The review conducted by the Internal Audit Work Unit (SKAI) includes:

- Reliability of the Risk Management framework, which includes policies, organizational structure, resource allocation, design of the Risk Management process, information systems, and bank **bjb** Risk reporting;
- The monitoring process carried out by the Risk Management Work Unit;
- Evaluation of the measurement methodology of the Risk Management Work Unit;.

Risiko Likuiditas

Risiko likuiditas adalah risiko akibat ketidakmampuan bank untuk memenuhi kewajiban yang timbul atau kewajiban yang telah jatuh tempo. Risiko ini terjadi akibat kegagalan pengelolaan sumber dana dan penanaman dana (*mismatch*) atau kekurangan likuiditas (*shortage*) yang mengakibatkan bank tidak mampu memenuhi kewajiban keuangannya pada waktu yang telah ditetapkan. Risiko likuiditas dapat dikategorikan sebagai berikut:

- Risiko likuiditas pasar, yaitu risiko yang timbul karena bank tidak mampu melakukan *offsetting* posisi tertentu dengan harga pasar karena kondisi likuiditas pasar yang tidak memadai atau terjadi gangguan di pasar (*market disruption*).
- Risiko likuiditas pendanaan, yaitu risiko yang timbul karena bank tidak mampu mencairkan asetnya atau memperoleh pendanaan dari sumber dana lain.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko likuiditas di bank **bjb**. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen

Liquidity Risk

Liquidity Risk is the risk due to the inability of banks to meet obligations that arise or obligations that are due. This risk occurs due to the failure of the management of the source of funds and investment of funds (*mismatch*) or lack of liquidity (*shortage*) which results in bank not being able to meet its financial obligations at the specified time. Liquidity risk can be categorized as follows :

- Market Liquidity Risk, the risk arising because banks are unable to offsetting certain positions at market prices due to inadequate market liquidity conditions or market disruption;
- Funding Liquidity Risk, the risk arising because banks are unable to disburse their assets or obtain funding from other funding sources.

Active Supervision of the Board of Commissioners and Board of Directors

The Board of Commissioners and Board of Directors are responsible for the effectiveness of the implementation of Liquidity Risk Management in bank **bjb**. Regarding the powers and responsibilities of active supervision of the Board of Commissioners and Board of Directors of bank **bjb**, the Board of Commissioners and Board

risiko eksposur risiko likuiditas, pemantauan limit secara harian serta langkah-langkah yang diambil oleh *Risk Taking Unit* khususnya terkait adanya pelampauan limit. Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) bank **bjb** yang secara berkala melakukan pengawasan melalui koordinasi dengan Satuan Kerja Manajemen Risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko maupun melalui media rapat antara kedua belah pihak. Adapun rapat yang diadakan tersebut pada umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut di antaranya penerapan pengukuran *risk tolerance* risiko likuiditas, *stress testing* likuiditas, pembahasan profil risiko likuiditas yang bersifat material, dan kecukupan metodologi pengukuran yang dipergunakan Satuan Kerja Manajemen Risiko. Pengawasan yang dilakukan oleh Direksi yaitu memantau penerapan limit *Treasury* secara berkala baik terjadi pelampauan limit (*breach limit*) maupun tidak terjadi pelampauan limit, melakukan persetujuan atas limit yang bersifat baru ataupun perubahannya. Pembahasan tentang pengelolaan risiko likuiditas seperti komposisi deposito inti, *maturity profile* bank **bjb** dilakukan dalam Rapat ALCO (*Asset Liability Committee*) sedangkan pembahasan eksposur risiko likuiditas seperti profil risiko likuiditas yang bersifat material, *liquidity stress testing*, dan eksposur risiko likuiditas lainnya dibahas dalam rapat Komite Manajemen Risiko (RMC).

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai upaya menghadapi permasalahan likuiditas mendasar, bank **bjb** telah memiliki kebijakan dan pedoman terkait penerapan manajemen risiko likuiditas. Kebijakan dan pedoman tersebut memuat di antaranya prosedur pengukuran risiko likuiditas, *stress testing* likuiditas yang memuat skenario *general market crisis* dan *bank specific crisis* dan Pedoman Rencana Pendanaan Darurat/*Contingency Funding Plan* (CFP). Penetapan limit likuiditas yang berjalan di bank **bjb** yaitu penetapan *limit primary reserve*, *secondary reserve*, dan *excess reserve GWM*, *Liquidity Coverage Ratio* (LCR) dan *Net Stable Funding Ratio* (NSFR) sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

Satuan Kerja Manajemen Risiko selalu melakukan evaluasi atas kebijakan, prosedur dan analisis kinerja bank **bjb** terhadap limit yang diterapkan. Adapun perubahan limit dilakukan oleh *Risk Taking Unit* untuk kemudian dilakukan evaluasi melalui pengukuran yang telah distandardisasi oleh Satuan Kerja Manajemen Risiko.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Kebijakan risiko likuiditas mencakup risiko yang menyebabkan bank **bjb** menderita kerugian akibat meningkatnya biaya dana atau adanya hambatan/keterbatasan dalam memenuhi kewajiban yang jatuh tempo. Sebagian besar transaksi finansial atau komitmen

of Directors has always obtained clear information regarding the evaluation and implementation of risk management for liquidity risk exposure, daily limit monitoring as well as steps taken by the risk taking unit, especially in relation to the existence of exceedance of limit. In implementing its supervision, the Board of Commissioners has been assisted by bank **bjb** Risk Monitoring Committee (KPR), which has regularly performed supervision through coordination with the risk management work unit. The coordination media used could be in the form of risk monitoring reports by the Risk Management Working Unit (SKMR) which were submitted to the Risk Monitoring Committee or through media meetings between the two parties. The meetings held generally discuss the application of risk management at bank **bjb**, including the application of risk tolerance measurement for liquidity risk, stress testing of liquidity, discussion of material liquidity risk profiles, and the adequacy of the measurement methodology used by the Risk Management Work Unit. Supervision was carried out by Board of Directors, namely monitoring the implementation of treasury limits on a regular basis whether there was a breach limit or there was no exceeding the limit, approving new limits or changes. Discussions on liquidity risk management such as the composition of core depositors, bank **bjb** maturity profiles were conducted at the Asset Liability Committee (ALCO) meeting, while discussions on liquidity risk exposures such as material liquidity risk profiles, liquidity stress testing, and other liquidity risk exposures were discussed in the Risk Management Committee (RMC) meeting.

Adequacy of Policies, Procedures and Limit Determination

As an effort to deal with fundamental liquidity problems, bank **bjb** had policies and guidelines related to the implementation of liquidity risk management. The policies and guidelines included procedures for measuring liquidity risk, liquidity stress testing including scenarios of general market crisis and bank specific crisis and Guidelines for Contingency Funding Plan (CFP). The determination of the current liquidity limit at bank **bjb** was the determination of the limit of primary reserve, secondary reserve, and excess reserve GWM, excess to total funding ratio and daily limit of Liquidity coverage ratio while the determination of the cash ceiling in Operational Branch was carried out by the Operations Division.

The risk management work unit always evaluates the policies, procedures and performance analysis of bank **bjb** against the applied limits. The limit changes are carried out by the risk taking unit and then evaluated through standardized measurements by the Risk Management Work Unit.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, As Well As the Risk Management Information System

Liquidity risk policies include risks that cause bank **bjb** to suffer losses due to increased funding costs or the presence of obstacles/limitations in meeting obligations that are due. Most financial transactions or commitments have an impact on bank **bjb** liquidity.

mempunyai dampak terhadap likuiditas bank **bjb**. Oleh karena itu, bank **bjb** sangat rentan terhadap masalah likuiditas, baik bagi bank **bjb** itu sendiri maupun pengaruhnya terhadap industri perbankan secara keseluruhan. bank **bjb** berkewajiban memenuhi kewajiban keuangannya secara tepat waktu sehingga bank **bjb** harus mampu memelihara suatu tingkat likuiditas yang memadai setiap waktu.

Dalam menentukan limit risiko likuiditas, bank **bjb** memperhatikan kondisi likuiditas dari aktiva-pasiva bank **bjb**. Likuiditas yang cukup besar perlu dikelola secara baik dan dijadikan indikator dalam menerapkan limit risiko likuiditas untuk mendukung upaya peningkatan profitabilitas bank **bjb**, karena likuiditas yang cukup besar justru akan meningkatkan *idle fund* dan akan merugikan bagi bank **bjb** terutama bank **bjb** yang didanai nasabah korporasi. *Gap* likuiditas secara historis dapat dijadikan patokan dalam menentukan limit risiko likuiditas bagi bank **bjb**. Penerapan limit likuiditas yang berjalan di bank **bjb** yaitu penetapan limit *primary reserve*, *secondary reserve* dan *excess reserve* GWM, *excess to total funding ratio*, *Liquidity Coverage Ratio (LCR)* dan *Net Stable Funding Ratio (NSFR)* sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

bank **bjb** telah memiliki sistem informasi pengukuran risiko likuiditas seperti *maturity profile*, LCR dan NSFR. Satuan Kerja Manajemen Risiko bersama *Risk Taking Unit* dalam tahapan integrasi sistem informasi *maturity profile* tersebut selalu diadakan rapat sebagai upaya mengetahui utilisasi progres yang telah dilakukan. Sistem pelaporan *maturity profile* telah terintegrasi dan tervalidasi dengan memadai sehingga pelaporannya tidak memerlukan proses manual lagi. Sebagai langkah koordinasi manajemen bank **bjb** dalam menghadapi kejadian krisis likuiditas dikemudian hari, bank **bjb** menyusun Tim Manajemen Krisis Likuiditas (*Liquidity Crisis Management Team*) sebagai langkah antisipatif dalam menyikapi krisis likuiditas dengan menjalankan prosedur rencana pendanaan darurat sesuai dengan kerangka kerja *contingency funding plan scenario*.

Dalam proses pemantauan limit *Risk Taking Unit*, Satuan Kerja Manajemen Risiko selalu melakukan pemantauan limit secara harian dan dilaporkan kepada Direksi secara berkala. Adapun apabila terjadi eskalasi pelampauan limit maka akan segera dilaporkan kepada Direksi termasuk upaya *contingency plan* yang akan dilakukan oleh *Risk Taking Unit*. Terkait menuju implementasi Basel III yang terfokus kepada permasalahan likuiditas, Satuan Kerja Manajemen Risiko bekerja sama dengan Unit Bisnis dan *Supporting Unit* melakukan pengukuran dampak Basel III terhadap bank **bjb** dengan melakukan simulasi perhitungan rasio *Liquidity Coverage Ratio (LCR)* dan *Net Stable Funding Ratio (NSFR)* yang dibutuhkan oleh bank **bjb** agar terhindari dari dampak risiko likuiditas dan kepatuhan internal maupun eksternal.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, Satuan Kerja Manajemen Risiko selalu melakukan

Therefore, banks are very vulnerable to liquidity problems, both for bank **bjb** themselves and their effects on bank **bjb** industry as a whole. bank **bjb** is required to meet their financial obligations in a timely manner so that bank **bjb** must be able to maintain an adequate level of liquidity at all times.

In determining the liquidity risk limit, bank **bjb** considered the liquidity condition of bank **bjb** assets and liabilities. Large liquidity needed to be managed properly and used as an indicator in implementing liquidity risk limits to support efforts to increase bank **bjb** profitability, because sufficiently large liquidity would actually increase idle funds and would be detrimental to bank **bjb**, especially bank **bjb** funded by corporate customers. The liquidity gap had historically been used as a benchmark in determining the liquidity risk limit for a bank **bjb**. The implementation of the current liquidity limit at the bank **bjb** became the determination of the limit of primary reserve, secondary reserve, excess reserve requirement, excess to total funding ratio and daily limit of Liquidity coverage ratio (LCR), while the determination of cash ceiling in Operational Branch was carried out by the Operations Division.

bank **bjb** has a liquidity risk measurement information system such as maturity profile, LCR, and NSFR. The Risk Management Unit together with the Risk Taking Unit in the integration stage of the maturity profile information system always hold meetings to find out the utilization of the progress that has been made. System The foreign currency maturity profile reporting system had been adequately integrated and validated so that reporting did not require manual processing anymore. As a coordinating step for bank **bjb** management in facing future liquidity crisis, bank **bjb** is preparing a Liquidity Crisis Management Team as an anticipatory step in responding to the liquidity crisis by carrying out emergency funding plan procedures in accordance with the Contingency Funding Plan Scenario framework.

In the process of monitoring the Risk Taking Unit limit, the Risk Management Unit always monitors the limits on a daily basis and is reported to Board of Directors periodically. Meanwhile, in the event of an escalation in excess of the limit, it will be immediately reported to Board of Directors, including a contingency plan that will be carried out by the Risk Taking Unit. Related to the implementation of Basel III which is focused on liquidity issues, the Risk Management Work Unit in collaboration with the Business Unit and Supporting Unit measures the impact of Basel III on bank **bjb** by simulating the calculation of the LCR ratio (Liquidity Coverage Ratio) and NSFR (Net Stable Funding Ratio) which needed by bank **bjb** to avoid the effects of liquidity risk and internal and external compliance.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Work Unit always evaluates

evaluasi atas kebijakan, prosedur dan limit risiko likuiditas secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur Satuan Kerja Manajemen Risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal. Satuan Kerja Manajemen Risiko pun melakukan *stress testing* likuiditas bank **bjb** dan memberikan informasi kondisi kecukupan aset likuid yang dipandang memadai untuk meng-cover penarikan dana oleh nasabah secara tiba-tiba dan dalam jumlah besar. Laporan tersebut diinformasikan kepada Direksi dan *Risk Taking Unit* agar mendapatkan *feedback* dan menciptakan *risk awareness*.

policies, procedures and liquidity risk limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties. The Risk Management Work Unit conducts stress testing of bank **bjb** liquidity and provides information on the adequacy of liquid assets that are deemed adequate to cover sudden and large withdrawals of funds by customers. The report is informed to Board of Directors and risk taking units in order to get feed back and create risk awareness.

Risiko Operasional

Risiko operasional adalah risiko akibat ketidakcukupan dan/atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional bank **bjb**. Risiko operasional melekat kepada seluruh aktivitas bank **bjb**, oleh karena itu risiko operasional tidak dapat dihilangkan namun dapat dikendalikan melalui mitigasi risiko yang memadai. Dampak kerugian dari risiko operasional dapat berupa kerugian keuangan atau kerugian non keuangan. bank **bjb** melakukan tata kelola mengenai pengelolaan risiko operasional yang dilakukan melalui *three line of defense* yaitu *Risk Taking Unit* sebagai lini pertahanan pertama, unit kerja Manajemen Risiko Operasional sebagai lini pertahanan kedua, serta Internal Audit sebagai lini pertahanan ketiga.

Lini pertahanan pertama memiliki tanggung jawab untuk memastikan bahwa seluruh proses operasional yang dilakukan telah sesuai dengan kebijakan dan prosedur yang berlaku,

Operational Risk

Operational risk is the risk due to inadequate and/or malfunctioning internal processes, human error, system failure, and/or external events that affected bank **bjb** operations. Operational risk is inherent in all bank **bjb** activities, therefore operational risk can not be eliminated but can be controlled through adequate risk mitigation. The impact of losses from operational risk can be in the form of financial losses or non-financial losses. bank **bjb** implements governance regarding operational risk management through three lines of defense, namely the Risk Taking Unit as the first line of defense, Operational Risk Management work unit as the second line of defense, and Internal Audit as the third line of defense.

The first line of defense has the responsibility to ensure that all operational processes carried out are in accordance with applicable policies and procedures, identify operational risks and

melakukan identifikasi risiko operasional serta melakukan mitigasi atas peristiwa kejadian risiko operasional. Lini pertahanan kedua yang berfungsi untuk mendukung dan memastikan unit kerja pada lini pertahanan pertama telah melakukan pengelolaan risiko secara efektif. Lini pertahanan ketiga memiliki peran untuk memastikan proses pengelolaan risiko operasional yang dilakukan oleh lini pertahanan pertama dan kedua telah berlangsung secara efektif dalam memitigasi kejadian risiko yang sudah terjadi maupun yang bersifat potensial agar tidak menimbulkan potensi kerugian bagi bank **bjb**.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi melakukan pengawasan aktif atas manajemen risiko operasional, antara lain melalui Komite Risiko baik yang berada pada level Dewan Komisaris maupun Direksi. Dalam pelaksanaan pengawasan aktif yang dilakukan Dewan Komisaris, dilakukan melalui Komite Pemantau Risiko. Sementara pada tingkat Direksi dilakukan melalui Komite Manajemen Risiko yang anatara lain membahas mengenai kebijakan manajemen risiko bank **bjb**. Dalam rangka meminimalisir kejadian *fraud*, Direksi melakukan sosialisasi kepada seluruh pegawai mengenai pencegahan terkait *fraud* sebagai langkah untuk meningkatkan *awareness* pegawai mengenai kejadian *fraud*. Selain itu, sebagai upaya dalam peningkatan *awareness* terhadap risiko operasional bank **bjb** menerbitkan *comic strip* "Kang Risman" secara rutin yang berisi mengenai penerapan manajemen risiko operasional pada setiap aktivitas bank **bjb**.

bank **bjb** memiliki unit kerja independen yang melaksanakan pengelolaan manajemen risiko operasional secara *bankwide* yaitu Grup Manajemen Risiko Operasional yang berada dibawah Divisi Manajemen Risiko. Unit ini memiliki peran dalam menetapkan standard dan kebijakan pengelolaan risiko operasional, dan berhubungan serta berkoordinasi dengan seluruh unit bisnis dan *supporting unit* untuk memastikan langkah mitigasi yang dilakukan telah cukup dan memadai untuk mencegah potensi risiko operasional.

bank **bjb** melakukan pengelolaan risiko operasional pada seluruh aktivitas, dimana seluruh pegawai wajib berperan serta dalam mengelola risiko operasional pada unit kerja masing-masing serta memperhatikan kontrol yang efektif untuk mengantisipasi kemungkinan terjadinya risiko yang dapat merugikan bank **bjb**.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

bank **bjb** telah memiliki kebijakan serta pedoman manajemen risiko operasional yang secara berkala dilakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank **bjb** tersebut. Selain itu bank **bjb** juga telah memiliki kebijakan lain terkait manajemen risiko operasional, di antaranya kebijakan

mitigate operational risk events. The second line of defense, which functions to support and ensure that work units on the first line of defense have effectively carried out risk management. The third line of defense has the role to ensure the operational risk management process carried out by the first and second line of defense has been carried out effectively in mitigating risk events that have already occurred and that are potential in nature so as not to cause potential losses to bank **bjb**.

Active Supervision of the Board of Commissioners and Board of Directors

The Board of Commissioners and Board of Directors carry out active oversight of operational risk management, including through the Risk Committee both at the level of commissioners and Board of Directors. In the implementation of active supervision carried out by the Board of Commissioners, it is conducted through the Risk Monitoring Committee. While at Board of Directors level, it is carried out through the Risk Management Committee while discussing bank **bjb** risk management policies. In order to minimize the incidence of fraud, Board of Directors conducts socialization to all employees regarding fraud prevention as a step to increase employee awareness regarding fraud events. In addition, as an effort to increase awareness of operational risk, the bank **bjb** regularly publishes the comic strip "Kang Risman" containing the implementation of operational risk management in every bank **bjb** activity.

bank **bjb** has an independent work unit that carry out bankwide operational risk management, namely the Operational Risk Group, which is under the Risk Management Division. This unit has a role in setting standards and policies for operational risk management, and in liaising and coordinating with all business units and supporting units to ensure adequate and sufficient mitigation measures are taken to prevent potential operational risks.

bank **bjb** has managed operational risk in all activities, where all employees are required to participate in managing operational risk in their respective work units and pay attention to effective controls to anticipate possible risks that may harm bank **bjb**.

Adequacy of Policies, Procedures and Limit Determination

Pengembangan Kompetensi

Kebijakan

Dinamika perekonomian global di sepanjang tahun 2023 berubah dengan sangat cepat, dinamika ekonomi global tersebut salah satunya adalah karena pelemahan ekonomi global. Perlambatan perekonomian global di tahun ini dipengaruhi oleh bayang-bayang resesi global pasca pandemi COVID-19 dan krisis keuangan. Di tahun ini, kondisi perekonomian Indonesia dinilai masih kuat bertahan menghadapi gejala ekonomi global yang mengarah pada resesi ekonomi. Potensi untuk bertahan menghadapi risiko terjadinya resesi ekonomi cukup besar karena ditopang oleh PDB yang masih positif serta tingkat inflasi yang relatif lebih rendah dibandingkan banyak negara lain. Sebagai bagian dari pendorong pemulihan ekonomi nasional, bank **bjb** menyambut positif kebangkitan ekonomi dengan optimis dengan tetap berkomitmen untuk menjaga pertumbuhan berkualitas dan berkelanjutan, tentunya sumber daya manusia adalah kunci utama dari sebuah pencapaian Perseroan. Dengan komposisi pegawai yang saat ini didominasi oleh generasi milenial, bank **bjb**

Competency Development

Policy

The dynamics of the global economy throughout 2023 were changing rapidly. One of the dynamics of the global economy was due to the weakening of the global economy. In this year, the global economic slowdown was influenced by the shadow of the global recession following the COVID-19 pandemic and the financial crisis. Also, Indonesia's economic condition was considerably firm enough to survive global economic turmoil, which led to an economic recession. The potential to survive in dealing with the risk of an economic recession occurrence was quite large because it was supported by GDP, which was still positive and the inflation rate was relatively lower compared to many other countries. As part of the driving forces for national economic recovery, bank **bjb** positively welcomes economic revival with optimism, while remaining committed to maintain quality and sustainable growth. Indeed, human resources are the main key to the Company's achievements. With the composition of employees currently dominated by the millennial generation, bank

menerapkan rencana dan strategi pembelajaran bagi pegawai demi untuk meningkatkan kualitas sumber daya manusia yang unggul, kompeten dan berdaya saing tinggi. Strategi tersebut adalah sebagai berikut:

- a. Membentuk *Learning Ecosystem* yang bersinergi untuk mengoptimalkan sisi pembelajaran yang tepat guna, tepat waktu dan tepat biaya;
- b. Membangun *Learning Culture* berbasis integritas, *Good Corporate Governance (GCG)* dan efisiensi di dalam lingkungan kerja;
- c. Menjadi *Business Support* dalam meningkatkan *Employee Productivity* terutama pada pegawai bisnis, pengembangan *hybrid bank* dan kolaborasi dengan *stakeholders*.

Pengembangan sumber daya manusia melalui kegiatan pembelajaran pada tahun 2023 tetap dilaksanakan dalam berbagai metode, baik tatap muka dan daring (*online*) dengan mengadaptasi kebiasaan baru dan menerapkan protokol kesehatan sesuai yang dianjurkan oleh pemerintah. Selain itu, pembelajaran bagi pegawai dilakukan menggunakan metode *blended learning solution*, untuk menciptakan *employee experience* serta mendorong optimalisasi kinerja pegawai yang meliputi *technical skill*, profesional, manajerial dan *leadership* sumber daya manusia bank **bjb** secara terus-menerus yang terencana, adaptif dan inovatif.

Selain strategi tersebut, pada tahun 2023 bank **bjb** tetap melakukan program berkelanjutan dalam bentuk pemberian beasiswa terhadap pegawai yang memenuhi kualifikasi yang telah ditetapkan. Hal ini merupakan wujud komitmen bank **bjb** untuk mendorong kualitas sumber daya manusia Perseroan dan pendidikan di Indonesia, dan juga sebagai bentuk *employee retention* serta untuk meningkatkan *engagement* pegawai terhadap Perseroan.

bank **bjb** telah memiliki infrastruktur teknologi Informasi yang dapat bersaing pada era modern salah satunya perangkat *server*, *storage*, *network* dan *security*. Dalam melakukan penguatan infrastruktur teknologi Informasi, pada tahun 2023 Divisi Information Technology melakukan:

1. Peningkatan kapasitas dan kapabilitas terhadap seluruh Data Center bank **bjb**;
2. Peningkatan kapasitas dan kapabilitas infrastruktur teknologi Informasi untuk menunjang operasional perbankan;
3. Melakukan pemeliharaan terhadap fasilitas *Data Center* dan infrastruktur teknologi Informasi bank **bjb** untuk melakukan *preventive* maupun *corrective maintenance*.

Infrastruktur dan teknologi memiliki peran kunci dalam keamanan siber, membangun dan mengelola infrastuktur teknologi yang aman sangat penting untuk melindungi sistem dan data dari serangan siber. Dalam rangka mendukung layanan *digital* yang tangguh terhadap segenap *stakeholder*. Divisi IT Security senantiasa melakukan perbaikan tiada henti. Salah satunya disisi keamanan infrastruktur teknologi, selain dilakukannya *monitoring* secara berkala pada infrastruktur Teknologi Informasi yang ada. Berikut aspek pendukung lain dalam penguatan Infrastruktur Teknologi *Security* bank **bjb**:

1. bank **bjb** telah menjalankan *monitoring* terhadap keamanan sistem dengan pemanfaatan *Security Operation Center (SOC)* yang terdiri dari komponen penting dalam mendukung keamanan jaringan Perseroan. *Security Operation Center (SOC)* ini bertujuan untuk mendeteksi, menganalisa, dan menanggapi insiden keamanan siber menggunakan kombinasi solusi dan serangkaian proses. Adapun terdapat aplikasi pendukung keamanan, SIEM, yang dapat memberikan informasi aktivitas di seluruh jaringan sehingga ancaman keamanan dapat segera direspon lebih cepat.
2. Melakukan pengujian secara berkala yaitu melalui *penetration testing* dan *red teaming* untuk penguatan pada keamanan system dan infrastruktur bank **bjb**.
3. Penerapan infrastuktur pendukung lainnya terkait keamanan siber.

6. Providing communication to the Management/Board of Directors of bank **bjb** regarding the incident/issue that has occurred.
7. Providing updates related to the resolution/*recovery* of issues that occur from the beginning until the issue is declared solved to internal stakeholders, the management of bank **bjb**, and banking regulatory authorities (OJK & BI).

In addition, the Information Technology Division and IT Security Division have mapped information technology-related risks in the Risk Control Self-Assessment document which is periodically updated. The identification of existing information technology-related risks and an assessment of the risks and their potential impacts has already conducted.

Strengthening Information Technology Infrastructure

Bank **bjb** has established Information Technology infrastructure that competes effectively in the modern era, particularly in server, storage, network, and security devices. In reinforcing the Information Technology infrastructure, the Information Technology Division embarked on the following initiatives in 2023:

1. Enhancement of capacity and capabilities across all bank **bjb** Data Centers;
2. Boosting capacity and capabilities of Information Technology infrastructure to support banking operations;
3. Maintenance of Data Center facilities and Information Technology infrastructure of bank **bjb** including preventive and corrective maintenance.

Infrastructure and technology play a pivotal role in cybersecurity. Building and managing a secure technology infrastructure are crucial for safeguarding systems and data against cyber threats. In the pursuit of resilient digital services for all stakeholders, the IT Security Division relentlessly engages in continuous improvement. This includes security measures in the technological infrastructure, such as periodic monitoring of existing Information Technology infrastructure. The following are additional supporting aspects in strengthening bank **bjb**'s Technology Security Infrastructure:

1. Bank **bjb** conducts monitoring of system security through the utilization of a Security Operation Center (SOC). This SOC, comprising essential components, aims to detect, analyze, and respond to cybersecurity incidents using a combination of solutions and processes. Supporting security information and event management (SIEM) applications provide comprehensive network activity information, enabling prompt responses to security threats.
2. Conducting periodic testing through penetration testing and red teaming to reinforce the security of bank **bjb**'s systems and infrastructure.
3. Adoption of additional infrastructure components concerning cybersecurity measures.

Perkembangan Struktur dan Sumber Daya Manusia *Divisi Information Technology*

Development of Structure and Human Resources in Information Technology Division

Dalam rangka mendukung perkembangan bisnis bank **bjb**, rencana strategis teknologi informasi dan mendukung regulasi perbankan di Indonesia seperti Peraturan Bank Indonesia dan Peraturan Otoritas Jasa Keuangan, bank **bjb** melakukan penyesuaian khususnya di Direktorat IT, Treasury & International Banking dengan dibentuknya Divisi IT Security di mana sebelumnya IT Security merupakan bagian di dalam Divisi Information Technology. 4. The company also cooperates with several universities to serve payments for students.
5. The company also collaborates with Multifinance companies to facilitate installment payment services through bank **bjb**.
6. The company has obtained the Bank Indonesia SNAP Open API certification, which can be utilized to facilitate collaborations with third parties.

Implementasi Proyek *Divisi Information Technology*

Information Technology Division Project Implementation

Proyek Divisi Information Technology telah disusun dan direncanakan dalam Rencana Bisnis Bank (RBB) pada awal tahun dan merupakan Implementasi dari Rencana Strategis Teknologi Informasi/*Information Technology Strategic Plan* (ITSP) yang senantiasa selaras dengan Strategi Bisnis bank **bjb** sehingga tujuan bisnis dapat tercapai. Untuk menjawab ketersediaan sistem Teknologi Informasi yang aman, cepat handal dan selaras dengan kebutuhan bisnis, bank **bjb** memperkuat kehandalan infrastruktur teknologi Informasi dengan melakukan penambahan dan/atau perubahan di dalamnya serta melakukan digitalisasi pada suatu proses bisnis di bank **bjb** untuk mendukung kebutuhan bisnis dan perkembangan bisnis bank **bjb**.

Untuk memastikan kelancaran operasional secara berkelanjutan, Divisi Information Technology turut melakukan penyempurnaan pada kebijakan dan prosedur bidang Teknologi Informasi yang sejalan dengan strategi, hukum, regulasi dan bisnis bank **bjb**. Terdapat 246 (dua ratus empat puluh enam) proyek aplikasi dan infrastruktur yang telah berjalan sepanjang tahun 2023 baik teknologi/inovasi baru maupun pengembangan dan perubahan dari sistem informasi/infrastruktur teknologi informasi yang telah ada. Beberapa contoh proyek yang telah diimplementasikan selama 1 (satu) tahun terakhir antara lain:

1. Pengembangan Kartu Kredit Indonesia (KKI);
2. Pengembangan Aplikasi *New Loan Management System* (LMS);
3. Pengembangan Aplikasi LMS *Channeling Versi MobileView & App Mobile*;
4. Pengembangan *Smart Mobile Banking* bank **bjb**;
5. Implementasi Layanan *Cloud* bank **bjb**;
6. Pengembangan dan Implementasi *Fraud Detection System* (FDS) bank **bjb**;
7. Pengembangan dan Implementasi *Robotic Process Automation* (RPA);
8. Implementasi *Application Performance Monitoring* (APM) bank **bjb**;
9. Pengembangan Aplikasi *e-Care e-Channel* dan *Non e-Channel*;
10. Pengembangan *Dashboard* KPR dan KKB;
11. Pengembangan dan Implementasi **bjb** Prestasiku Mobile;
12. Pengembangan Aplikasi Pembukaan Akses Kode Bayar Pajak Kendaraan Bermotor pada Pihak Ketiga;
13. Pengembangan Aplikasi RoboSLIK;
14. Pengembangan Produk Kredit **bjb** Kredit GUNA Bhakti Pinjaman ASN (KGB PISAN);
15. *Project* Integrasi Pembayaran Pajak PBB – bjb FAST;
16. Pengembangan Aplikasi *E-form* bank **bjb**.

The Information Technology Division's projects have been organized and planned in the Bank's Business Plan (RBB) at the beginning of the year and represent the implementation of the Information Technology Strategic Plan (ITSP), which is always aligned with bank **bjb**'s Business Strategy so that business objectives can be achieved. To address the need for an Information Technology system that is secure, fast, reliable, and in alignment with business needs, bank **bjb** strengthens the reliability of its Information Technology infrastructure by making additions and/or changes within it and digitizing certain business processes at bank **bjb** to support business needs and bank **bjb**'s business development.

To ensure continuous smooth operation, the Information Technology Division also made improvements to policies and procedures in the field of Information Technology in line with the bank **bjb** strategies, laws, regulations and business. There were 246 (two hundred and forty six) application projects that had been implemented throughout 2023, both new applications and development and changes to existing applications. Some examples of projects implemented for the last 1 (one) year were as follows:

1. Development of Indonesian Credit Card (KKI);
2. Development of *New Loan Management System* (LMS) application;
3. Development of LMS *Channeling MobileView* version & App Mobile application;
4. Development of bank **bjb** *Smart Mobile Banking*;
5. Implementation of bank **bjb**'s *Cloud Services*;
6. Development and Implementation of bank **bjb**'s *Fraud Detection System* (FDS);
7. Development and Implementation of *Robotic Process Automation* (RPA);
8. Implementation of bank **bjb**'s *Application Performance Monitoring* (APM);
9. Development of *e-Care e-Channel* and *Non e-Channel* Application;
10. Development of *Dashboard* KPR and KKB;
11. Development and Implementation of **bjb** *Prestasiku Mobile*;
12. Development of the Motor Vehicle Tax Payment Code Access Opening Application for Third Parties;
13. Development of RoboSLIK Application;
14. Development of **bjb** Credit Products for Civil Servants (KGB PISAN);
15. Integration Project for Property Tax Payments – bjb FAST;
16. Development of bank **bjb** *E-form* Application.

Pengendalian Risiko Operasional

Operational Risk Control

Dalam melakukan pengendalian risiko operasional di bank **bjb** di sisi teknologi informasi, Divisi Information Technology telah melakukan beberapa langkah pengendalian di antaranya:

1. bank **bjb** saat ini memiliki lokasi alternatif yang bersifat *high availability active-active data center* dengan infrastruktur yang setara.
2. Melakukan *assessment* terhadap risiko yang terdapat pada Divisi Information Technology secara berkala dan didokumentasikan dalam *Risk Assessment* Divisi Information Technology.
3. Melakukan proses uji coba *Disaster Recovery Plan* (DRP) secara berkala untuk memastikan sistem dan infrastruktur teknologi informasi di area *recovery/area* alternatif dapat berjalan dan melakukan operasional dalam memberikan layanan kepada nasabah dan juga dalam rangka mencegah, mendeteksi dan melakukan *corrective action* atas potensi risiko yang teridentifikasi pada area alternatif teknologi informasi.
4. Melakukan proses uji coba *Business Continuity Plan* (BCP) secara berkala di Divisi Information Technology dalam rangka mencegah, mendeteksi dan melakukan *corrective action* atas potensi risiko yang teridentifikasi.

Sedangkan pada IT *security*, Divisi IT Security menjalankan beberapa proses pengendalian antara lain:

- a. Program *Security Awareness* untuk menumbuhkan kesadaran mengenai keamanan informasi dalam perilaku sehari-hari yang pada akhirnya menjadi budaya (*culture*) Perseroan. Selain itu, dilaksanakan juga program *campaign security awareness* rutin dalam berbagai media yaitu *Wallpaper Desktop*, *Short Message Services* (SMS), Whatsapp, Instagram, Twitter, email dan lainnya.
- b. Melaksanakan *penetration testing* secara berkala pada sistem aplikasi ataupun infrastruktur Teknologi Informasi, dengan melakukan serangkaian simulasi serangan untuk menemukan celah-celah keamanan sistem dengan tujuan mengidentifikasi kerentanan keamanan.
- c. Menjalankan *monitoring* terhadap keamanan sistem bank **bjb** dengan pemanfaatan *Security Operation Center* (SOC) dan mengimplementasikan aplikasi SIEM dalam proses deteksi insiden siber.
- d. Menerapkan *antivirus* pada *endpoint* bank **bjb** dan *Network Detection Response* (NDR) yang dilakukan *update* secara berkala.
- e. Menjalankan pengujian keamanan siber secara berkala yaitu dengan menjalankan *red teaming* dan juga *phishing campaign*.

In implementing operational risk control in bank **bjb**'s Information Technology, the Information Technology Division has taken several control measures, including::

1. Bank **bjb** currently has an alternative location with a high-availability, active-active data center equipped with equivalent infrastructure.
2. Regularly conducting risk assessments on the Information Technology Division and documenting them in the Risk Assessment for the Information Technology Division.
3. Periodically testing the Disaster Recovery Plan (DRP) to ensure that the information technology system and infrastructure in the recovery/alternative area can operate and provide services to customers. This process also aims to prevent, detect, and take corrective action against potential risks identified in the alternative information technology area.
4. Periodically conducting Business Continuity Plan (BCP) testing in the Information Technology Division to prevent, detect, and take corrective action against identified potential risks.

Regarding IT security, the IT Security Division implements various control processes, including:

- a. Security Awareness programs to cultivate awareness of information security in everyday behavior, ultimately fostering a corporate culture. Additionally, routine security awareness campaigns are conducted through various media such as Desktop Wallpapers, Short Message Services (SMS), Whatsapp, Instagram, Twitter, email, and others.
- b. Conducting periodic penetration testing on application systems or Information Technology infrastructure, simulating attacks to discover security system vulnerabilities with the goal of identifying security weaknesses.
- c. Monitoring the security of bank **bjb**'s systems using a Security Operation Center (SOC) and implementing SIEM applications in the incident detection process.
- d. Implementing antivirus software on bank **bjb**'s endpoints and Network Detection Response (NDR) with regular updates.
- e. Conducting periodic cybersecurity testing, including red teaming and phishing campaigns.

Sertifikasi Sistem Teknologi Informasi

Certification of Information Tecnology System

Sampai dengan tahun 2023, bank **bjb** telah memperoleh berbagai sertifikasi Sistem Teknologi Informasi sebagai berikut:

1. *International Organization for Standardization (ISO) 20000-1:2018* merupakan suatu standar Internasional dalam penerapan Sistem Manajemen Layanan Teknologi Informasi.
2. *International Organization for Standardization (ISO) 27001:2022* merupakan suatu standar Internasional dalam menerapkan Sistem Manajemen Keamanan Informasi.
3. *Payment Card Industry Data Security Standard (PCI DSS)* untuk Sistem Card Management dan Switching.
4. *National Standard Indonesia Chip Card Specification (NSICCS)* yaitu sebuah standar teknologi yang digunakan oleh Bank Indonesia sebagai standar teknologi untuk Alat Transaksi Menggunakan Kartu (ATMK). NSICCS merupakan sebuah migrasi teknologi untuk kartu berbasis magnetik *stripe* ke kartu berteknologi *chip*. Penggunaan kartu yang dimaksud disini adalah untuk kartu ATM atau debit yang sudah menggunakan teknologi *chip* dan yang sudah melalui proses sertifikasi yang dilakukan melalui *functional test* dan *security test*.
5. *National Payment Gateway (NPG)*. Sebagai upaya meningkatkan efisiensi dalam penyelenggaraan sistem pembayaran ritel dan mikro, Bank Indonesia mendorong industri sistem pembayaran ritel dan mikro untuk mengembangkan *National Payment Gateway (NPG)*. NPG merupakan suatu *switching* nasional untuk berbagai transaksi antar bank yang dilakukan melalui *delivery channel* seperti ATM, EDC, internet, telepon, dan *mobile payment*. Sistem pembayaran nasional ini memungkinkan transaksi pembayaran non tunai dapat diproses di dalam negeri.
6. Sertifikasi QR Code Indonesia Standard (QRIS)
7. Standar Nasional Open API Pembayaran (SNAP) adalah seperangkat protokol dan instruksi yang ditetapkan oleh Bank Indonesia dalam proses interkoneksi antar aplikasi yang digunakan oleh penyelenggara berdasarkan perjanjian kerja sama antara penyedia layanan dan pengguna layanan dalam pemrosesan transaksi pembayaran.
8. Sertifikasi Jaringan *Switching* antara lain:
 - a. PT Artajasa Pembayaran Elektronik (Artajasa) merupakan sebuah perusahaan pelopor sistem pembayaran elektronik di Indonesia dan prinsipal ATM Bersama yang merupakan jaringan *Switching* terbesar di Indonesia, yang telah terhubung dengan banyak institusi, baik Bank maupun lembaga non-Bank;
 - b. PT Rintis Sejahtera (Rintis) merupakan penyedia layanan komunikasi satelit yang mengirimkan informasi digital domestik dan internasional;
 - c. Visa merupakan perusahaan teknologi pembayaran

Until 2023, bank **bjb** obtained various Information Technology System certifications as follows:

1. The International Organization for Standardization (ISO) 20000-1:2018 is an international standard for the implementation of Information Technology Service Management Systems.
2. International Organization for Standardization (ISO) 27001:2022 merupakan suatu standar Internasional dalam menerapkan Sistem Manajemen Keamanan Informasi.
3. Payment Card Industry Data Security Standard (PCI DSS) for card management and switching systems.
4. National Standard Indonesian Chip Card Specification (NSICCS) is a technology standard used by Bank Indonesia as a technology standard for Card-Using Transaction Devices (ATMK). NSICCS is a technology migration for magnetic stripe-based cards to chip technology cards. The use of the cards referred here is for ATM or debit cards that have used chip technology and that have gone through a certification process carried out through functional tests and security tests.
5. National Payment Gateway (NPG). In an effort to improve efficiency in the operation of retail and micro payment systems, Bank Indonesia is encouraging the retail and micro payment system industry to develop the National Payment Gateway (NPG). NPG is a national switching for various interbank transactions carried out through delivery channels such as: ATM, EDC, internet, telephone and mobile payment. This national payment system allows non-cash payment transactions to be processed domestically.
6. Indonesia Standard QR Code (QRIS) Certification
7. The National Payment Open API Standard (SNAP) became a set of protocols and instructions stipulated by Bank Indonesia in the process of interconnection among applications used by operators based on cooperation agreements between service providers and service users in processing payment transactions.
8. Network Switching Certifications included:
 - a. PT Artajasa Electronic Payment (Artajasa) became a pioneer of electronic payment systems in Indonesia and the principal of ATM Bersama which had the largest Switching network in Indonesia, which had been connected to many institutions, both Banks and nonBank institutions;
 - b. PT Rintis Sejahtera (Rintis) was a satellite communication service provider that transmitted digital domestic and international information;
 - c. Visa became a global payments technology company

global yang menghubungkan konsumen, bisnis, bank dan pemerintahan di lebih dari 200 negara dan teritori untuk menyediakan pembayaran elektronik yang cepat, aman dan terpercaya;

- d. PT Jalin Pembayaran Nusantara (JALIN) merupakan jaringan *switching* yang dikembangkan bank BUMN atau bank Himbara meliputi Bank Mandiri, BRI, BNI dan BTN.

that connected consumers, businesses, banks and governments in more than 200 countries and territories to provide fast, secure and reliable electronic payments;

- d. PT Jalin Payments Nusantara (JALIN) was a switching network developed by SOE banks or Himbara banks including Bank Mandiri, BRI, BNI and BTN.

Strategi Pengembangan Teknologi Informasi ke Depan

Strategies for Future Information Technology (IT) Development

Pesatnya perkembangan Teknologi Informasi dan Digitalisasi saat ini dengan munculnya tren Teknologi terbaru di yang dapat berdampak bagi mendukungnya perkembangan bisnis khususnya bagi sektor perbankan. Selain itu, perkembangan regulasi dan strategi regulasi perbankan menjadi salah satu faktor Perseroan dalam melakukan perkembangan Teknologi Informasi dan digitalisasi. Salah satu fokus Perseroan dalam melakukan digitalisasi yaitu melakukan pengembangan Teknologi Informasi kedepan disisi Teknologi baru, infrastruktur Teknologi Informasi maupun disisi *software*. Adapun strategi pengembangan Teknologi Informasi ke depan adalah sebagai berikut:

1. Mengimplementasikan Teknologi terkini yang dapat berdampak bagi bisnis, nasabah dan internal bank **bjb**;
2. Meningkatkan Efisiensi proses pekerjaan dengan menerapkan otomatisasi dan simplifikasi terhadap aktivitas bisnis yang bersifat *repetitive* dan manual;
3. Meningkatkan Efektifitas dan ketepatan pengambilan keputusan bisnis Perseroan yang berlandaskan *corporate data driven*;
4. Peningkatan kemampuan dan kehandalan dalam infrastruktur Teknologi Informasi guna memberikan *service excellence* dalam mendukung ekspansi bisnis bank **bjb** yang berdaya saing dan setara dengan Perseroan besar nasional;
5. Kolaborasi dengan pihak ketiga untuk pengembangan Layanan dan Teknologi Informasi di bank **bjb**.

Di sisi keamanan teknologi, strategi pengembangan keamanan teknologi bank **bjb** ke depan telah direncanakan dan disusun sesuai dengan ITSP yang sudah ditetapkan. *Security Architecture* dibagi berdasarkan 3 (tiga) pilar yang meliputi (tata kelola, perlindungan dan operasi). Keamanan informasi adalah aspek utama pada upaya untuk menjaga aset informasi pada suatu organisasi. Untuk dapat melanjutkan keberlangsungan Visi TI bank **bjb**, pengembangan keamanan TI pada tahun 2024 akan selalu berorientasi pada rencana strategis TI. Hal tersebut diwujudkan dengan implementasi teknologi yang memiliki kapasitas, skalabilitas dan fleksibilitas tinggi dengan melakukan modernisasi pada perangkat penunjang keamanan TI. Pemenuhan aspek fundamental keamanan TI menjadi sangat kritical untuk memastikan *sustainability* eksekusi pengembangan TI.

The rapid development of Information Technology (IT) and digitalization, marked by emerging technology trends, significantly impacts business development, especially in the banking sector. In addition, the evolution of banking regulations and strategic regulatory approaches is a key factor for companies in advancing IT and digitalization initiatives. A primary focus for companies in pursuing digitalization is to develop future IT technologies, including new technologies, IT infrastructure, and software development. The strategies for future IT development include:

1. Adopting cutting-edge technologies that can impact the business, customers, and internal operations of bank **bjb** positively;
2. Enhancing Work Process Efficiency by applying automation and simplification to repetitive and manual business activities;
3. Enhancing the effectiveness and precision of the company's business decision-making based on corporate data-driven principles;
4. Improving the capability and reliability of Information Technology infrastructure to provide service excellence in supporting the competitive expansion of bank **bjb**'s business, aligning with national major corporations;
5. Collaboration with third parties for the development of Services and Information Technology at bank **bjb**.

In terms of technology security, the strategy for future security development at bank **bjb** has been planned and organized in line with the established IT Strategic Plan (ITSP). The Security Architecture is divided into three pillars: governance, protection, and operations. Information security is a critical aspect of efforts to safeguard an organization's information assets. To continue the IT vision of bank **bjb**, the development of IT security in 2024 will always be oriented towards the strategic IT plan. This is realized through the implementation of technologies with high capacity, scalability, and flexibility by modernizing IT security support devices. Fulfilling fundamental aspects of IT security is critical to ensure the sustainability of IT development execution.
